

MINE OWNERS REJECT UNION LEADER'S PLEA

Will Not Meet Lewis for Conference; Stand on Ground That Strike Is Illegal, They Say.

REPORT TO PRESIDENT

(By Associated Press)
CHICAGO, July 30.—Indiana and Illinois coal operators meeting here today, voted to reject the plea of President Lewis of the United Mine workers for a joint meeting of the operators and miners' scale committee, to settle the present strike.

The operators appointed a committee to draft a reply to Mr. Lewis' message, declaring that the striking miners are violating their contract, entered into when the government fixed the last wage award, and demanding that the miners' president order his men back to work.

The coal operators will not meet with the miners unless ordered to do so by the government.

Will State Their Position.
The Indiana and Illinois operators will meet again this afternoon to frame a statement setting forth their position.

Chicago members of the committee, who went to Washington recently to present information on the strike of day laborers in Illinois mines, declared that they could not undertake to change the wage agreement with the miners signed last April, unless the government reopened the coal commission hearings which drew up the wage scale.

Some members of the committee have declared their willingness to adjust the increase granted the day laborers by the coal commission's award, to make it equal the increase granted other miners, but not until governmental permission was received. The day laborers who struck, announced their dissatisfaction with the difference in increases.

Holding Coal in R. R. Yards?
It was reported today that some of the railroads here were exercising their priority rights and holding in the yards coal which could be used in locomotives. Several hundred cars of coal are said to be in railroad yards here awaiting acceptance by the consignees.

INDIANAPOLIS, Ind., July 30.—Executive officers of the United Mine Workers of America today were clothed with full authority to take whatever action they deem necessary in the situation created by the walk out of company men and day workers in the Indiana and Illinois coal fields.

Blanket authority to act has been conferred on President John L. Lewis and other executive officials of the union, it was announced today. This statement was issued by President Lewis today.

"The international executive board before adjournment yesterday adopted a resolution giving the executive officers of the international union blanket authority to take any action necessary to protect the interests of the organization."

No mention was made of any other action taken by the board.

Every Mine in State Closed
Reports from the Indiana coal fields today indicated no change in the situation. Union officers at Terre Haute claimed that virtually every mine in the state is closed.

President Ed. Stewart, of District No. 11, United Mine Workers, issued a statement this morning, saying: "Practically the entire coal field is closed. Less than one per cent of the bituminous mines in the state are operating. We are hopeful for an early solution of the problem of getting the men back to work, but at present the way is not clear."

None of the union officers would comment on the action of the Indiana operators in declining to participate in a joint conference with the miners.

WASHINGTON, July 30.—President Wilson today had under consideration the report of the coal situation made to him yesterday by Secretary of Labor Wilson, who recommended reopening of the wages award of the bituminous coal commission so that it would include wages of mine laborers. Disfection of the laborers over their wage scale has resulted in the strike in the Illinois and Indiana coal fields, which operators report, has greatly curtailed production.

It was said that the president might appeal to miners who are on strike in Illinois and Indiana to return to work pending amicable settlement of their grievances. Other demands for an increase in wages probably will be discussed at a conference in New York between representatives of four government departments and a committee from the coal industry.

Plans for averting a coal famine next winter and for checking profiteering in the coal trade also will be considered at the conference, according to acting Attorney General Ames, who said last night that the government hoped to develop a program on which coal men could come "half way" in solving the coal problem.

PITTSBURGH, Kas., July 30.—Alexander Howat, district president of the United Mine Workers, today wired John L. Lewis, international president at Indianapolis, that Kansas miners would "use all the power in their command to compel the operators to return every dollar that was stolen from their wages."

Howat's declaration was regarded by operators as tantamount to defiance of the international president. President Lewis in a recent telegram to the local official took the stand that the five day week instituted by the miners, and which resulted in the assessments levied by the operators, was a violation of the union contract.

Allies Lay Down Stringent Terms of Peace For Poland Against Bolshevik

(By Associated Press)

PARIS, July 30.—The limitations which Great Britain and France would put upon soviet demands on Poland, in the arranging of an armistice, are set forth in a notification which has been dispatched to the Warsaw government by the British and French governments, it was learned here today.

Poland requested the views of Great Britain and France on possible armistice terms, and the governments at London and Paris have notified the Polish government that they will not permit Poland to accept possible soviet armistice demands involving: First—Whole or partial disarmament of Poland;

Second—A change in the Polish system of government dictated or brought about by the soviets.

Third—Acceptance by Poland of a boundary line less favorable than that provisionally drawn by Premier Lloyd George official, because the fear Hungary would expect too many concessions in the terms of the treaty by way of amelioration.

Information which has reached the French government was said today to reveal that Latvia, Finland, Rumania and the allies are moving to

ward Warsaw today from Danzig, on the Baltic, and from Rumania and Czechoslovakia.

These munitions were for the most part originally dispatched for the army of General Denikin, but were delayed on the way until too late to be available for his use.

The munitions being sent from Danzig, however, were shipped recently for the special use of Poland. Other munitions are expected to be in process of shipment from France and Great Britain for Poland within a few days.

Hungary Wants A Chance.

Hungary has asked the permission of Great Britain and France to attack the soviet army. Such an attack would involve permission likewise to reorganize the Hungarian army, the demobilization of which was provided for by the Hungarian peace treaty.

The allies are hesitating over Hungary's request, according to the French official, because the fear Hungary would expect too many concessions in the terms of the treaty by way of amelioration.

NEW PROFIT-SHARING PLAN ANNOUNCED BY HARVESTER COMPANY

(By Associated Press)

MARION, Ohio, July 30.—Senator Harding's front porch campaign for the presidency, to be opened tomorrow with an address to a delegation from Mansfield, O., is expected to get into full swing during August, as groups of workers from many distant sections of the country begin to arrive in force.

Two more of the front porch speaking dates were announced today and Senator Harding said the number of delegations on the waiting list was growing daily.

He expressed gratification at the applications received, which he said showed that many thousands were anxious to take an active part in the campaign by making a pilgrimage here.

Pottery Men to Hear Him.

The two dates added to the list today were Aug. 12, when 600 pottery workers will come from East Liverpool and Columbiana county, Ohio, and Sept. 25, when the nominee will be paid a visit by the American Defense society. Arrangements for the defense society's appointment were made by Hoffman Nickerson, of New York, who said he expected about a thousand members to be present. Visits from Ohio delegations already have been announced for August 4 and August 5.

Although giving their present attention to the front porch program, the senator's campaign managers have received many invitations for the candidate to speak in other parts of the country. It was said at headquarters today that so far no definite appointments away from Marion had been made, but that many of the requests had been put aside to be settled over later.

Many of the senator's callers, including party leaders from various states, also have urged him to include these respective localities in whatever speech-making trips he may decide to take.

These requests are understood to have come from so many sections of the country that it is considered impossible to fulfill all of them.

In his speeches at Marion, Senator Harding expects to take up one at a time, the issues of the campaign, speaking in each case on a subject of particular interest to the visiting delegation.

That practice will not apply to the opening speeches, however, his address to the Mansfield delegation being expected to deal in a general way, with several subjects.

PONZI PAYS 'EM BACK MILLION AND A HALF

(By Associated Press)

BOSTON, Mass., July 30.—Charles Ponzi, who claims to have amassed millions within a few months and who paid to the public large profits on their investments in his deal in international exchange, appeared today almost to have satisfied questions among his investors as to his solvency.

Only a short line formed before the payment windows of the Ponzi office this morning, and when disbursement was resumed clerks said they were paying nearly as much on notes matured for the 50 per cent profit in 45 days as they were returning to frightened investors principal without interest on notes surrendered short of maturity.

The virtual end of the five day run was in sight with few additions to the line. The amount paid out by Ponzi since Monday was estimated by his manager, Miss Lucy Meli, as \$1,500,000.

SLACKING SENATORS MAY NOT BE PAID

INDIANAPOLIS, July 30.—Senators who have not attended the special session of the Indiana legislature, will have to obtain their per diem by process of law, if they get the money, Lieutenant Governor Edgar D. Bush declared today.

The lieutenant governor announced that unless he was overruled by the senate, he would instruct the secretary of the senate not to issue warrants for the pay of senators who have not attended. The senate took no action on the announcement.

HOME TOWN IS OUT TO HONOR GOVERNOR COX

Nominee's Neighbors and Friends Shut Up Shop To Do Him Honor—City Decorated.

EVERYBODY IS OUT

(By Associated Press)

DAYTON, O., July 30.—Choice of their fellow citizen, Governor James M. Cox, as the Democratic presidential nominee, was acclaimed today by residents of Dayton and other portions of the Miami Valley. They were joined here by thousands in a non-partisan "home-coming" demonstration to their distinguished native son.

A civic parade at 2:30 o'clock today was the main feature of the celebration in honor of Governor Cox. Hours before the parade crowds lined the court of honor flanked with high white decorated pillars, and Governor Cox's reviewing stand in front of the courthouse.

Speeches were banished from the program and the crowds turned out in response to requests for laying aside of all partisan feeling and rejoicing over the selection of one of their friends and neighbors as the Democratic standard bearer.

Day Is Made Half Holiday.
For the tribute to the governor, today was a half holiday throughout virtually all Dayton. Stores, factories, banks and public offices were ordered closed at noon and Dayton homes poured out more crowds. From Middletown, Hamilton and other Miami valley regions, where Governor Cox lived part of his life, others came.

Elaborate floats were features of the parade together with the renowned "Rainbow Division" and Meteor bands. The latter from Piqua, Ohio, became prominent at the San Francisco convention. About 60 floats, representing various civic organizations, some depicting the career of Governor Cox, were in the parade line.

Assigned a prominent parade place was the Cox Boosters' Club, which made the trip to San Francisco. The boosters had vivid uniforms for the occasion. Fraternal organizations, some of which boast Governor Cox's membership, and labor bodies, also had positions in the line.

Newspaper Boys There Too.
So that newspaper employees could march Governor Cox's plan issued only an early edition.

Lavish decorations blazed throughout the city, flags and banners being mingled with lithographs of Governor Cox, although the likeness also of Senator Harding, his Republican opponent, also beamed on the festivities.

Daylight and night fireworks were other features of today's program, with band concerts in several places. The streets were festooned with electric lights for evening illumination.

Has Visit With Walsh.
The celebration was the only break scheduled today in the governor's preparation of his speech of acceptance, which was interrupted briefly yesterday by a visit with Senator Walsh, of Massachusetts, who has been prominent in Democratic senators' advocacy of reservations to the league of nations.

The subject, however, was not discussed with the governor according to Senator Walsh, who promised his unreserved aid in the Cox campaign.

Many Richmond and Wayne county Democrats, as well as large delegations from other Indiana points, passed through the city Friday morning on their way to Dayton to greet the nominee.

The desire to do honor to the governor, however, was not confined to members of his own political party. As was the case with Senator Harding at Marion, several Republicans were included in the Dayton delegation Friday. Among these were friends and acquaintances of the governor.

WHEAT BREAKS DOWN ANOTHER 12 CENTS; LOWER SATURDAY?

December wheat, which sold as high as \$2.37 at Chicago Thursday, went as low as \$2.21 Friday. The close was right around the bottom at \$2.23 1/2 to \$2.23.

All the cash grain markets were demoralized Friday. Cash wheat sold from seven to nine cents lower at Chicago, from 10 to 13 cents lower at Kansas City, and from five to 15 cents off at Minneapolis.

Chicago cash corn ranged down four to five cents and oats were two cents lower. Lard and provisions also were weak.

Corn averaged about two cents below Thursday for September and December at central markets on Friday. September closed at Chicago, at \$1.37 1/2 to \$1.38, and December at \$1.23 1/2 to \$1.23 3/4.

Bids Lowered on Grain
Manager of one of the Richmond mills said at noon Friday that he had paid \$2.30 for No. 2 red today, but machine drove up to a man's place and he was ready to thresh.

"Price will be lower Saturday," was the comment. Country elevators all over this district have also been compelled to lower their prices, but, as many of them have been full during the last few days, they have not been caught on the last declines, except at wheat on hand, some of which is already sold for shipment, if cars can be obtained in time limit for starting it away.

Mexican Federals Will Try to Outflank Cantu, Revolver of Lower California

(By Associated Press)

EL PASO, Tex., July 30.—Mexican federal forces totaling several thousand men are being mobilized and moved against lower California to put down the rebellion against federal authority of Governor Estaban Cantu. It was announced today by General P. Elias Calles, Mexican minister of war and marine, who is enroute to Torreon Durango, to confer with Francisco Villa, the bandit, concerning the latter's surrender.

MEXICALI, Lower California, July 30.—Mexican federal troops will attempt by superior numbers to outflank and drive from Mexicali the forces being recruited here by Estaban Cantu, governor of the northern district of Lower California, according to Cantu leaders, who are preparing for the defense of the region today.

To counteract such a move strong positions on high ground are being selected by the defenders, Cantu's officers said, with a view to sweeping large expanses with artillery at the approach of the federal troops from Manzanillo and Guaymas.

Sanctioning all official communication between the Mexican federal government and the territorial government of the northern district of lower California has been issued by Cantu.

Eight men who ranked high in the army of the late President Venustiano Carranza have offered their services to Governor Cantu and were in conference with the governor last night, he announced.

MEXICO CITY, July 29.—Carranza was a private citizen when killed because the Agua Prieta plan had deposed him, and as the plan was ratified by congress, it was law, said Eduardo Neri, the attorney general, in the course of an interview today.

Therefore, he continued, the courts of Puebla state and not the federal or military tribunals had jurisdiction over the investigation into the death of the late president.

Official opinion here, however, is divided as to whether Generals Murguía, Mariel and Urquiza and other prisoners held in connection with Carranza's death can be removed from Mexico City to Puebla.

MEXICO CITY, July 29.—Mamuel C. Larraga and Leon Martinez, the San Luis Potosi rebels, and Guillermo Sorela and Francisco Mendoza, Morelos rebels, are reported to be ready for surrender. Elimination of Sorela and Mendoza, it is claimed, would entirely pacify the state of Morelos.

General Ireneo Villareal, with his Calhulla rebel forces, is reported to have arrived at Laredo.

INDIANAPOLIS, Ind., July 30.—Agreement upon the two tax bills, which remain as the only completed work of importance before the special session of the Indiana general assembly, seems probable, following a conference today in which Republican leaders and legislators participated.

Following meetings this morning, those in touch with legislative developments said they believed the deadlock had been broken, and an agreement would be reached this afternoon by which the session could be ended.

The Senate Republicans have been holding out for the bill prepared by Senator Roscoe Kiper of Booneville, which would refoe the 1919 assessment to local taxing units for revision.

The House Republicans have been contending for the bill of Representative Harry B. Tuthill, of Michigan City, which legalizes the increases.

Refer Back to County.
The senate bill is said to be the basis of final agreement. The bill will finally embody some of the features of the house measure, but, as finally drafted, will not include the legalization feature.

When the report is made by the committee to which the Kiper-Tuthill bills were referred, another committee on home rule bills also will make its report. The report is expected to be a compromise with a considerable leaning toward the senate bill. The measure gives to local taxing authority over bond issues and tax levies.

Hold Only Brief Session.
The sessions of the house and senate were brief this morning. Both houses were to meet again at 3 p. m. and by this time it was expected the conference committee will be ready to report on the tax bills.

In agreement in the Kiper-Tuthill tax bill followed strong representations made to the legislature by the Republican leaders.

Governor James P. Goodrich and Republican State Chairman E. M. Wasmuth, were at the state house, and were in close touch with the assembly leaders.

REPUBLICAN EDITORS MEET AT TURKEY RUN

(By Associated Press)

TURKEY RUN, Ind., July 30.—More than 80 Republican newspapers were represented at the mid-summer outing of the Republican Editorial association of Indiana, which is being held here today. Many Republican aspirants to office also attended.

Governor Goodrich was called back to Indianapolis from Crawfordsville last night because of the situation in the special session of the Indiana general assembly.

Three Killed When Auto Performs Stage Act

(By Associated Press)

PHILADELPHIA, July 30.—Two men and a woman were killed and another woman seriously injured early today when their automobile ran into a building, rebounded against a freight car and then struck a pole and overturned. The collision with the pole smashed the car. Police report that those in the automobile met at a dance hall, and it was while on their way home that the accident occurred. The car is believed to have been traveling at high rate of speed when the driver lost control.

Frank Burke Resigns To Go To Shipping Board

(By Associated Press)

WASHINGTON, D. C., July 30.—Frank Burke, assistant chief of the Bureau of Investigations and the Department of Justice, has tendered his resignation effective Aug. 1, it was learned today. Mr. Burke will assist Chairman Benson, of the shipping board. He has been prominent in the investigation of radical activities.

AMERICAN WINS RIFLE-SHOOT

(By Associated Press)

BEVERLY, Belgium, July 30.—Commander Carl T. Osborn of the United States navy, today won the Olympic individual target shooting competition with army rifles at a distance of 300 meters in standing position. His score was 56 out of a possible 60.

CITIZENS, AT MEETING, ASK INFORMATION

Name of Coal Dealer Who Allegedly Told City He'd Sell Coal for \$2.80 Is Demanded.

Sharp criticism was directed against a Richmond newspaper, at a citizens' meeting Friday, called to discuss the affairs of the city government.

The criticism centered on the recent action of the publication in printing a statement reflecting against the light plant superintendent and the members of the board of public works, then refusing to make public the source of information on which the article was based.

Byram C. Robbins, who retires from office of city attorney Sunday, referred to the action of the newspaper as "sheer cowardice."

Several citizens protested against what they termed the unjustness of the action of the newspaper in publishing an article intimating that certain city officials had been derelict in the performance of their duties, at the same time withholding the name of the newspaper's informant and later refusing to give his name to city officials concerned.

Article Concerns Coal Dealer.
The article in question, published several days ago, stated, in effect, that a local coal dealer, whose name was not divulged, had stated that last March he had offered to contract with the municipal electric plant to furnish it 1,000 tons of coal per month, for the period of one year, at a rate of \$2.80 per ton. The article further stated that this coal dealer had not received a contract.

Following a general discussion of the affairs of the municipal plant, Joseph Waltermann, a councilman, asked that the meeting be informed by a representative of the newspaper, as to the name of the coal dealer who is supposed to have made such a charge.

Says He Offered Information.
The editor of the publication stated that he had offered to give this information to Harry W. Gilbert, board president, a few days ago, but that Mr. Gilbert later resigned and then stated he was not interested any longer in the matter.

James E. Dillon, superintendent of the light plant, then took the floor and declared that in his opinion the action of the newspaper in publishing a statement which reflected against the integrity of himself and other city officials and in refusing to divulge to them the name of its informant was a rank injustice and a violation of the spirit of fair play.

Dillon has several times denied that any coal dealer offered coal to him last March at such a figure as quoted by the newspaper.

John E. Spatz, a board member, stated that T. C. Taylor, of the board, Mr. Dillon and himself had called upon the publisher of the newspaper Friday and when they had requested him to advise them as to the identity of the mysterious coal dealer, the information was refused and they were ordered to leave.

Robbins Spares 'Em Verbally.
City Attorney Robbins dismissed a verbal spanking to the newspaper which was the subject of attack.

He declared that this publication for some time had been "printing veiled insinuations" against the conduct of municipal affairs, and that the charges published preferred eventually caused public meetings to be held by citizens.

He declared that as the result of the investigations made by the citizens it had been ascertained that the condition of municipal affairs was "excellent."

Calls It Sheer Cowardice.
He stated that it was sheer cowardice for the newspaper to refuse to inform a meeting it had been greatly responsible for as to the name of the man responsible for the charge that the city had ignored an opportunity to secure coal at a moderate price.

Mr. Robbins stated that while reckless in making its charges concerning the purchase of coal for the municipal plant, the fact remained that when this question was considered in a thorough manner at the rate setting held there recently by the Indiana Public Utilities commission, the newspaper was not represented at the meeting, either by its editor or by a reporter.

He pointed out that the hearing developed that the coal consumption at the local plant was only four and a fraction tons per kilowatt, which the chairman of the commission declared to be better than the average economy.

"Can't Blame City Officials.
Paul Ross in a brief statement sharply criticized the newspaper. W. F. Blackmore, a mobmaster, stated that in his opinion the city officials could not be blamed in any way for the methods they had pursued in securing coal for the municipal plant. He said his factory last winter entered into a contract for coal at \$2.70 a ton, but that the contract was not observed.

The discussion of the coal question closed with the adoption of a resolution asking the newspaper editor to give the name of the coal dealer to the chairman and secretary of the meeting. The editor agreed to this.

The committee of seven reported on its activities. The report stated that the financial condition of the municipal plant appeared to be satisfactory. The action of the committee in conferring with Mayor Zimmerman on the appointments of a new board member and a city attorney was set forth.

The committee was given a vote of thanks for its work, and discharged with the understanding that it would hold itself in readiness to serve in an
