

NO NECESSITY FOR INCREASES IN COST, SAYS LABOR EXPERT

WASHINGTON, Aug. 4.—Railroad rate increases authorized by the interstate commerce commission should have no appreciable effect on the prices of the vast majority of things which the ordinary consumer purchases, according to an analysis of the possible effect of the advanced rates made public by W. Jett Lauck, economist for the railroad organizations.

At the same time Mr. Lauck asserted that "there would have been no occasion for as large an advance if the roads had been better managed, made free of water in the capitalization" and were "not themselves the victims of profiteers to the extent of \$500,000,000 a year" in purchase of supplies and equipment.

"Still there is no occasion for alarm in the prospect of an addition of \$1,500,000,000 to the annual transportation bill of the country," the statement said, "provided this item is not multiplied four or five times before it is presented to the people for payment."

For instance, by no possible computation can the increased freight rates be made to justify an increase of one cent per pound in the price of meat or 5 cents per pair in the price of shoes or 10 cents in the price of a suit of clothing, or one-fourth of one cent in the price of a loaf of bread. Hence the public should be informed and the forces of government should be on guard to see that no unjustifiable burden is imposed on the people as a result of the interstate commerce commission's solution of the financial problems of the railroads.

Coal Price Affected.

Coal, Mr. Lauck said, was one commodity the price of which would be "directly and appreciably increased" to the consumer by the rate advance, the amount being from 75 cents to \$1.35 a ton. Including all the transportation costs entering into wholesale meat prices, he asserted, naming the hauling of feed to cattle and the movement of live stock before killing, the maximum effect of the advance would be less than 1 cent a pound. On flour, he said, the increased cost at Philadelphia, would amount to 33 cents a barrel, while on a suit of clothes made on the Atlantic coast and retailed on the Pacific, the increased freight would amount to 3 cents.

"The great industries of the country could amply afford to deduct the increased 'freight rate from the price of their products," he added, after presenting some statistics on profits of producing corporations, "thus allowing the commodity to reach the retailer at the same price as formerly. By so doing they could be decreasing their excess profits less than one-fourth and would still have left their full normal profit and three-fourths or more of the excess profit which they are now making."

Cannot Praise this Remedy too Highly

THE WAY ONE LADY FEELS AFTER SUFFERING TWO YEARS

Judging from her letter, the misery and wretchedness endured by Mrs. Charlie Taylor, R. F. D. No. 1, Box 144, Dillon, S. C., must have been terrible. No one, after reading her letter, can continue to doubt the great healing power of PE-RU-NA for troubles due to catarrh or catarrhal conditions in any part of the body. Her letter is an inspiration to every sick and suffering man or woman anywhere. Here it is: "I suffered two years with catarrh of the head, stomach and bowels. Tried two of the best doctors who gave me up. I then took PE-RU-NA and can truthfully say I am well. When I began to use PE-RU-NA, I weighed one hundred pounds. My weight now is one hundred and fifty. I cannot praise PE-RU-NA too highly, for it was a Godsend to me. I got relief from the first half bottle and twelve bottles cured me. I advise all sufferers to take PE-RU-NA."

As an emergency remedy in the home, there is nothing quite the equal of this reliable, time-tried medicine, PE-RU-NA. Thousands place their sole dependence on it for coughs, colds, stomach and bowel trouble, constipation, rheumatism, pains in the back, side and joints and to prevent the grip and Spanish Flu. To keep the blood pure and maintain bodily strength and robustness, take PE-RU-NA. You can buy PE-RU-NA anywhere in either tablet or liquid form.

THOUGHT MY LIVER WAS ON A STRIKE

Head was giddy, spots danced before my eyes, breath foul, was tired and drowsy. Drecto wiped it out.

"I have suffered for quite a while with sluggish liver; at times I would get so dizzy, I would have to stop and sit down; spots would dance before my eyes; I had headaches and a bad taste in my mouth; my appetite became poor, and my food did not digest nor give me strength; my stomach caused me much heartburn and bloating, often sour, while gas and bloating caused me much nervousness. The pains often extended round to my back and limbs, so that it was an effort to keep on with my work," says Mr. F. M. Lamb, living on Connors Road, West, near Richmond, Ind.

"There was so much talk about and praise being given Drecto, I decided to try it. The first bottle proved to me it was a good medicine, as it softened my stomach and relieved the gas forming. I continued the treatment, and never have a dizzy spell, nor see the spots before my eyes; my bowels act regular; my appetite is fine; and the food digests and gives me strength. I do not have any more pains in my back, limbs, and haven't had a headache in a long time. Drecto is a good medicine, and I gladly add my words of praise for it."

"Drecto acts on the liver in a smooth, gentle manner, gradually working off the excess bile day by day. It is neither strong nor harsh, and does not excite the muscles of the bowels, as strong cathartics do. It tones up the digestive organs, and relieves gas on the stomach; puts an end to constipation; increases the appetite; gives strength to weak kidneys; restores tired nerves, and induces sound sleep. Drecto is a great blood purifier and system cleanser. All good druggists now sell Drecto, and it is highly recommended in this city by Clem Thistlethwaite's seven drug stores.—Advertisement.
