

TWO WILL SPEAK AT JOINT FARM PICNIC IN EATON THURSDAY

EATON, O., Aug. 17.—With all arrangements completed, members of the Preble County farm bureau and Preble County Pomona grange are anticipating a big time at their joint picnic Thursday at the fairgrounds. It is to be an all-day county-wide affair and the public is invited to participate in the festivities.

Speechmaking will be a feature of the picnic. Murray D. Loomis and A. P. Sandies, of Columbus, the latter a former secretary of the state fair board, are to make addresses, the former to speak at 10 o'clock in the forenoon and the latter at 11:30.

Band concerts, horse-shoe pitching contest, baseball and juvenile sports, along with a basket-dinner, are among the entertainment features offered. The horse-shoe pitching contest, for prizes, and the ball game will be in charge of a committee made up of Homer Charles, Ben Vernon and Harry Sullivan. The ball game will start at 2 o'clock.

The juvenile sports, to start at 2:30 o'clock, include three-legged race, potato race, pie race, jumping the rope, baseball throwing, etc. Cash prizes will be awarded the winners. The contests are for children under 14 years of age. The Rev. Mr. Harris, Mrs. Harry Fultz and Mrs. Howard Burdall will have charge of the contests.

Accident Victims Unidentified.
Remains of a man and woman who figured in an automobile accident late Sunday night on the Richmond pike, just out of Eaton, could not be learned. Neither was seriously hurt, so far as could be ascertained.

The car, being driven westward, crashed into a guardrail of a small bridge near the Van Dine road. The woman in stepping from the car after it struck the bridge, in the darkness, stepped between the wagon bridge and a traction bridge and fell to the bed of a branch, a distance of perhaps 12 or 14 feet. The crash of the car and the woman's screams attracted persons living in the vicinity to the scene, but by the time they arrived the woman had scrambled out to the roadway. A passing automobile took the man and woman in and took them in the direction of Richmond.

The car, a Mitchell roadster, received a badly jammed radiator, bent axle and lesser damage.

First arrivals upon the scene say the couple seemed to want to avoid revealing their identity, as they refused an invitation to go to a nearby house and have a doctor called to ascertain if either was hurt.

It is said the man claimed he was blinded by the lights of a car coming toward him and was responsible for his striking the bridge.

Judgment to Denlinger.
Judgment for \$392.25 was awarded in common pleas court to Orval Denlinger against Harry V. Kline. The suit was based on a note given in payment for an automobile, and a farm tractor engine securing the note was ordered sold by sheriff.

Close Contract for Fair.
Contract has been closed by the county fair board for the free attraction for the county fair the last week in September. The board also has contracted for all straw to be used on the fair grounds during the fair.

Order Sale of House.
Public sale of four residence properties in Eaton, at guardian's sale, has been ordered for next Saturday. The properties belong to Francis White, an infant. Three of the properties were sold recently a guardian's public sale, but the sale was vacated because two of three persons appointed to appraise the properties were not real estate owners. In such cases a law requires that the appraisers must be realty owners, it is said.

Science Finds What Your Body Needs for Health and Strength

Thousands of Weak, Nervous, Rundown People Often Fail to Get Renewed Energy From Old-Time Drugs and Tonics Because They Lack Vitamins, Say Authorities.

How to Tell If Your Own Body Needs These Life-Giving Substances to Build Nerve Force, Physical Power and Mental Vigor.

New York (Special).—That countless numbers of people have failed to reach the fullness of health, strength and vitality because of the lack of those life-giving substances—the vitamins—is the opinion of many experts here. For years, numberless drugs, tonics and various preparations have been exploited for weakened, nervous, rundown conditions but the very fact that they were probably one and all, lacking in the vital substances which Science now knows to be essential to physical power, mental vigor and even to life itself is sufficient evidence why they failed to come up to the expectations of their users.

In commenting upon this, Dr. John J. Rudolph, a former Health Commissioner, late of New York City Hospital Staffs, and Graduate of the University of Baltimore, says: "If I were asked, 'What are vitamins?' I should say, 'They are life-giving energy—they are power—they give strength and beauty to your body and vigor to your mind.' Nature supplies vitamins in certain raw foods, but even though you were to select the very foods which do contain vitamins you would probably not get enough of them to do you much good, owing to methods of preparation and cooking, many foods are robbed of their vitamins before they reach our tables. As a result you fail to get enough strengthening nourishment and even now every organ in your body may be crying for the life-giving vitamins which Nature seems to have provided for the express purpose of building vigorous health, keen mentality and great physical power. But with the introduction of vitamins, concentrated form of vitamins, combined with other health-giving elements, there is absolutely no reason why prac-

tically anyone not afflicted with some organic disease should not expect to be as strong, healthy and well-proportioned as Nature intended. Just as the antiquated teams of oxen have given way to the automobile of today, so some of the old-time drugs and tonics being replaced by the newer discoveries of Modern Science, and I am convinced that Vitamin puts within easy reach of every weakened or rundown man or woman a simple, easy means which often quickly brings them to the point of renewed health, strength and vigor. So, no matter how many tonics, drugs or other preparations you may have taken in the past with the hope of building yourself up, if you are still in a weakened, nervous and rundown condition this is the surest indication that you have never taken the right thing—you have probably failed to get the nourishing vitamins into your system. But so pronounced and so amazing are the results I have seen produced by Vitamin, that no matter what anyone says I do not believe there is anything whatsoever to which this discovery can be compared. Not until you have taken Vitamin yourself and watched its effects in your own case can you form any idea of the vast difference it may make in your health, strength, mental vigor and physical appearance. Vitamin may be taken with benefit by either men or women, young or old, at all seasons and surprising results are produced in many cases within a remarkably short space of time."

NOTE: If after using Vitamin you are not entirely satisfied with the results and are not convinced that it has been worth to you far more than you paid for it, the trial will cost you absolutely nothing. Vitamin may now be obtained in this city from all leading druggists, such as Thistlethwaite, Daffier & Spangiel, Quigley's and Lucken's.—Advertisement.
