

63D WESTERN YEARLY MEETING IS OPENED AT PLAINFIELD, IND.

PLAINFIELD, Ind., Aug. 18.—The 63d Western Yearly Meeting of Friends was officially opened here Tuesday morning. Reports were given, committees were called and instructed, and the introduction of delegates took place.

John Reagan of Carmel, gave a report on prohibition and purity at the afternoon session. He said that 6,000 letters had been mailed to lay members of the Friends' church, asking them to support the Volstead act.

E. S. Shumaker, superintendent of the Anti-Saloon League, spoke at the meeting Tuesday afternoon.

Mr. Shumaker urged the necessity of preventing the repeal of the Volstead act and said that there were three things the Friends must do in order to meet the present crisis: enforce prohibition laws, defend prohibition against repeal and extend prohibition into other lands.

Illinois Pastor Delivers Sermon.

The Rev. Raymond Dobie, pastor of the Vermillion Grove, Ill., Friends' Church, delivered the sermon at Tuesday night's meeting. His subject was "The Olivet Message."

The Missionary training school was to open Wednesday morning, in charge of Charles Conover, field secretary of the American board of foreign missions.

Mr. and Mrs. Frank Conover, missionaries to British East Africa, arrived and will assist in the training school.

Wednesday evening Donald B. Snyder of Wabash, winner of the inter-collegiate peace prize of 1920, will speak.

Albert J. Brown, who recently returned from Germany, where he assisted in feeding the children of that country, will also speak. His subject will be "Beyond the Frontier."

The Farm and the Farmer

By William R. Sanborn

Roscoe Rosa, of the Williamsburg elevator, says the C. & O. has been furnishing all the cars he needed, recently. Says all but a few late loads of oats have been threshed and that wheat threshing is practically over. Little, if any stacking was done. His price on oats was 60 cents and on wheat \$2.20 on Tuesday.

E. C. Crider, of the flour mill at Lewisburg, said they were not shipping wheat but milling it just now. Their price was \$2.35. This was also the price at the Lewisburg elevator. Some oats are coming in at the elevator but receipts have not so far been very heavy, but of good quality.

Paying \$2.38 For Number 1.

The Elkenberry elevators at Camden are paying \$2.35 for No. 2, \$2.38 for No. 1 wheat, and 60 cents for oats. Wheat continues to come in and quite a few oats are being received. Hera and there we hear of elevator men who are not taking in any old corn at this time, but are reserving the space for wheat and oats.

Mr. Elkenberry says they are paying \$1.45 for corn, that it is still coming in, and that they shipped a car of corn last week. They are receiving all cars received at this time. Tobacco is reported doing well around Camden, although not a great deal is being grown in that vicinity. The weather has been ideal for tobacco for past few days, and it has had plenty of rain.

Moving Pictures For Farmers.

Miss Nell George, who is in charge of the county agent's office at Liberty, tells us that they have bought a new moving picture machine for that office and that it will be used at farm meetings in the different townships. In addition to agricultural scenes of educational value other pictures of interest to make up a satisfying program, will be shown.

It is likely that Union county will have a new county agent during the week. Foster Campbell, of Marion, Ohio, is the man likely to fill the position, which has been tendered him, and he is expected to be in Liberty on Wednesday, to talk it over.

Pig and Calf Picnic.

According to Miss Nell George, of Liberty, there are 95 young folks in the various pig, calf and corn clubs of Union county, and Tuesday, August 24, will be their outing day. That picnic outing will be enjoyed at Glen Miller park, Richmond. The parents and friends of the youngsters will join in their jollification and a large crowd will invade the town by auto on Tuesday forenoon, and be made welcome.

Promising Potato Field.

Charles Atzinger, whose place adjoins the Country Club grounds on the north, has a fine field of late potatoes which the bugs have not yet invaded. He has also marketed a lot of choice early potatoes this season, which no bugs ever discovered. Mr. Atzinger has shipped in five cars of fertilizer from the stock yards at Indianapolis this year.

Not Scarce, But Plenty.

There seems to be no scarcity of anything at the farm home of Charles Scarce, living on route "C" Richmond, 2 miles south of New Westville. He marketed 54 hogs at \$15, and has 70 left. He has also just threshed 23 acres of oats which ran about 60 bushels to the acre, the output being 1,325 bushels.

He and his son have adjoining farms and have 60 acres of corn between them, which, aside from the planting, have all been handled by tractor. Mrs.

BUYING RAILROAD EQUIPMENT FOR JAP GOVERNMENT

J. F. Starr.

J. F. Starr, consulting engineer of the Japanese army and navy, has arrived in San Francisco to purchase \$25,000,000 worth of broad gauge railroad equipment to be used in broadening out the railroad from Kobe to Tokio.

Scarce is proud of her White Brahmas, of which she has about 175, any one of which is large enough to provide chicken for a boarding house Sunday dinner.

John Hazlrigg, whose elevator at Cambridge City was burned some years since, reports a land office business at his elevator in New Lisbon this season. Its capacity is 15,000 bushels and he tells us that he has already shipped out 50,000 bushels of wheat and oats with fair receipts coming in right along. He says that he has had no wheat offered grading below Number 2, and that it is all above 40 and up to 60 bushels.

He said five cars came in to load with oats on Monday and that he has not been shut down for a day for lack of cars. He will take in some old corn later, and the growing crop looks fine. New Lisbon is on the "Lake Erie" railway.

HEAR YE: HEAR YE! THIS MAN WANTS THE PUBLIC'S EAR

**Richmond citizen so proud of
the change in his condition,
desires all to know what
brought it about.**

**Declares his constipation, in-
digestion, gastritis, sluggish
liver and weak kidneys
greatly helped by Dreco.**

Constipation is one of the worst of modern ailments. Can you imagine a sewer pipe being stopped up for days at a time? You have probably seen that happen and you know the consequences. Then just think of the sewer pipe in the human body getting stopped up by constipation. Think of the foul gases kept in the system and the poison being absorbed by the blood and carried to every organ of the body. Do you wonder that the breath is foul, that there is always a bad taste in the mouth; that there are splitting headaches; that the appetite vanishes; that the weight falls away and nerves go all to pieces, the rest being broken at night? Do you wonder that the liver and kidneys become affected. Go the limit and get rid of constipation as soon as possible if you want to again enjoy good health.

"I want every person suffering like myself to know that right in the city there is a medicine that will give splendid relief, just as it did for me; that medicine is Dreco," said Mr. Charles A. McLain, a well known employee of the American Seeding Co., who lives at 423 N. 16th St., Richmond, Ind.

"I have suffered years from constipation and never hit the right thing to overcome it till I found Dreco. My stomach was also deranged and failed to digest my food completely, for it fermented and caused nausea and gastritis and gave me no strength. My liver got lazy so that I often had headaches and dizzy spells and soon my back and right over my kidneys ached, but these troubles are all gone since I took a treatment of Dreco, and I give all the credit to this medicine for my greatly improved condition; really it is a great medicine."

Dreco is a vegetable compound containing no oil, acid, iron, mercury nor potash but is the pure juice of twelve herbal plants which act on the vital organs to restore them to healthy activity.

All good druggists now sell Dreco and it is highly recommended in Richmond by Clem Thistlethwaite's seven drug stores.—Advertisement.

not be surprised, but he cannot say that now. When he came home in the evening he was greeted by a house full of relatives and friends. Those present were Mr. and Mrs. Merlin Chamness and children, Mr. and Mrs. George Debey, Miss Maud Debey, Miss Gladys Cain, of Warsaw; Mr. and Mrs. Elliott and children, from Ridgeville; Mr. and Mrs. Crate Chenoweth and children of Spartansburg; Mr. Mack Helmick, of Winchester, Mr. and Mrs. D. C. Ozburn and three children. Several gallons of ice cream were served to the crowd. . . .
