

CHINESE GIANT IS WAKING UP, CLAIMS BANKER IN REPORT

(By Associated Press)
NEW YORK, Sept. 2.—China, for centuries the unprogressive nation whose glory was in the past, is forging ahead in business ways that remind one of aggressive American progress, William P. Bancker, general purchasing agent of the Western Electric company, declared here today in a resume of trade investigations he had made during a six months' tour of the world.

"China presents a most fertile field for American enterprise," he said. "Despite an occasional military effort by some small minority, that nation is a hive of industry. Labor seems plentiful and, what is more important, cheap. In fact the latter feature is so true that capital has a clear way for productive plans and new fields of effort."

Adopting American Methods.
"The Chinese business men, especially those who have been educated abroad, are adopting American and British methods and are forging ahead. Exchange is working to the advantage of China because of the rise in value of silver bullion, which works to the benefit of the big republic in its position in other countries."

India, ancient land of mystery, also is making big strides commercially, with Americans there as in other far eastern territory laying foundations for future trade, Mr. Bancker said. The Hindoo is beginning to make himself an important factor in business and political circles, he continued, adding:

"It is remarkable how the average Asiatic as a result of foreign educational processes seems to be losing his reputation for self-effacing conservatism. Today you find him in positions of importance, competing with all sorts of foreign conditions."

Boycott Against Japan.
Reverting to China, Mr. Bancker said:

"One fact that Americans have to their advantage in China is the boycott which exists against Japanese and German relations. The Combined Chinese Chambers of Commerce have gone on record as declaring a 10-year boycott against Germany and because of racial differences it is very improbable whether Japan will ever get a really strong foothold. Australia has been quick to jump into this breach and is now supplying quantities of foodstuffs which the Chinese can use, but if we can promise any kind of delivery and that is the really important condition which everyone abroad is insisting upon nowadays, we should have no trouble in establishing firm trading relations."

"There is a certain sales psychology which must be remembered when dealing with the Chinaman and that is his respect for tradition. One foreign importer found himself unable for a time to dispose of a shipment of fruits which came in yellow colored cans, yellow being associated in China with death, while on the other hand it has been found that goods cloaked in red,

NO FROST, SAY FARMERS.
SEYMOUR, Ind., Sept. 2.—Farmers in Jackson county say there will be no early frosts this fall. They base their prediction on the condition of the cockle burr. If it matures early, they say, there is a strong likelihood of an early frost, but this year the cockle burr is developing slowly. An early frost would nip it and that is something that has never happened, farmers declare. There is much late corn in Jackson county and farmers are worrying for fear that it will be ruined by early cold snaps.

Are You Only Half Alive, or Would You Register 100% on This Chart of Health?

HOW SOME MEN BECOME STRONG AND VIGOROUS, WHILE OTHERS BECOME WEAKENED AND RUN-DOWN

Look at the above chart and decide for yourself where you would stand if put to this test. You know that your strength, energy and physical development may depend largely upon the quantity of life-giving VITAMINES in your system, and the artist's conception of a device such as is pictured above will illustrate the vast difference the presence of vitamins may make in your power and appearance. Dr. Rudolph, a former Health Commissioner and Hospital Physician, explains why there can be no fullness of health and vitality without life-giving VITAMINES and tells you how to get VITAMINES IN VITAMON.

New York (Special).—In a recent discourse by former Health Commissioner John J. Rudolph, M. D., of New York Hospital Staffs and a graduate of the University of Baltimore, he says: "When you see a man contented, to merely hold a job—a man who has no other interest than remaining in his own rut—who is perfectly satisfied with what comes in his pay envelope every week, and is willing to go through life without ever amounting to much, you will always find that his lack of interest and enthusiasm is caused by a lowered vitality and a weakened physical condition. He either has a poor appetite or else he is not getting the proper nourishment out of what he eats to build health and strength. Nature puts in certain raw foods a vital life-giving substance, which Scientists have given the name VITAMINES."

If I were asked 'What are Vitamins?' I should say 'They are life—they are energy—they are power—they give strength and beauty to your body and vigor to your mind.' But even though you were to select the very foods which do contain vitamins, you would probably not get enough of them to do you much good, for present methods of preparation and cooking rob these foods of their vitamins before they reach our tables. As a result you fail to get enough strengthening nourishment and even now every organ of your body may be crying for the life-giving vitamins which Nature seems to have provided for the express purpose of building vigorous health, keen mentality and great physical power. No matter how many tonics, drugs, or other preparations you may have taken with the hope of building yourself up, the fact that you are still in a weakened,

YOUTH'S BOND IS \$12,000; STOLE MONEY TO DANCE
EVANSVILLE, Ind., Sept. 2.—Robert W. Winston, 19 years old, insurance agent, was bound over to the Vanderburg county circuit court in \$12,000, on charges of robbery, burglary and shooting with intent to kill. He was unable to give bond. Winston entered pleas of guilty on all charges. Winston shot and seriously wounded Peter Herbert, wealthy coal operator, whose home in this city he entered. Herbert struck at Winston when he encountered him in his house and the intruder then shot Herbert, the police assert.

Winston is alleged to have said he needed money to enable him to attend dances.

QUAINT NEW YORK QUARTER STRUCK BY JAZZ CUREW
NEW YORK, Sept. 2.—Quaint Greenwich village, New York's Bohemian quarter, famous in song and story as the home of new thought, has something new to occupy its attention—a jazz curew at 11 o'clock nightly. This ultra modern idea was not of the village's own initiative. It was decreed by a matter-of-fact magistrate in Jefferson Market court was ordered the clanking of cow bells and the moaning saxophone to cease their jangle in tearooms an hour before midnight, in order that complaining nearby tenants might sleep.

16 NARROWLY ESCAPE DROWNING IN A LAKE
PETOSKEY, Mich., Sept. 2.—Thirteen residents of Indianapolis and three who live in Crawfordsville, Ind., narrowly escaped drowning when the Ben-Hur, a boat owned by Henry Lane Wallace of Indianapolis, was driven on rocks by a violent gale near Crystal Springs on Burt lake. Among

those who were on the Ben-Hur were Mrs. Henry L. Wallace, Judge and Mrs. A. B. Anderson, Mrs. Charles Martindale and Mrs. Morris Ross, all of Indianapolis; Miss Anna Caroline Crane, Miss Marian Crane and Graham Linn of Crawfordsville and Mrs. Kene-saw Mountain Landis, wife of Judge Landis of Chicago.

DEALERS WORRIED; SUGAR POURS IN, PRICES DROP

Now for a Year of Production!

ANOTHER Labor Day! Industry thruout the country is rolling up its sleeves and donning its workaday clothes in preparation for the increased business of the coming months.

As never before, the world looks to the workman, and especially the American workman, for relief from the oppression of high prices—for a full day's work and increased production.

To supply the necessary vigor for the task, there must be a good meal at noon. And what could be more nourishing, more appetizing, than golden-crusted, home-baked bread?

Valier's Enterprise Flour

will produce the very finest of baking. A special slow process of milling retains all the unusual baking qualities of the carefully selected hard winter wheat from which it is milled. It is rich in gluten and fine in texture—a perfect all-purpose flour.

Of course Valier's Enterprise is a trifle higher priced because extra quality wheat commands a premium. But the few cents difference is many times repaid by the satisfaction of better baking, and besides, you get
