### Indiana Brevities

JEFFERSONVILLE—Domestic consumers are entirely without gas as a result of the closing of the gas plant from lack of coal. Most industrial plants do not use gas and are consequently able to continue operation. A car load of coal is expected soon.

NEW ALBANY—Several persons were injured when a train going 40 miles an hour was derailed by a boulder when emerging from a tunnel, near Georgetown. The engine was derailed and the baggage car turned over on its side. It is thought that the boulder had become dislodged from the tunnel.

HARTFORD CITY—Mabel Morrill, 8 years old, daughter of Mr. and Mrs. Kuntz Morrill, of Meridian, Ind., was almost instantly killed when she fell beneath the wheels of the wagon upon which she had been riding. She lost her balance when reaching for a tree limb over the road. She died before a physician could be secured.

MONTICELLO—Frank Warner, of Wolcott, released from the Indiana colony for the criminal insane at Michigan City, last March, seriously wounded his wife with a knife, and then killed himself by cutting his throat.

### ENGLAND TRYING HARD TO SOLVE HOUSING PROBLEM

NEW YORK, Sept. 3—The acute housing shortage faced by many cities in the United States today brought from the Guaranty Trust company a description by its foreign trade bureau of how Great Britain was meeting a similar situation.

"The program of the British ministry of health—complete rehousing in three years—is about one year behind and is costing more than double the original estimates," said the report.

"Local authorities in England are left in charge of the work unless they fail to show results, in which case the business is turned over to the office of works."

"What is keeping back housing at the present time is the fact that there are not enough skilled men to do even a quarter of the work wanted. The trades unions will not allow the number to be increased from the outside."

It is reported that more than 6,000 "fabricated" structures are being built in the United States every month and the demand promises to increase.

Koreans, said Dr. Rhee, will not rest until they have attained their complete independence of Japan.

Dr. Rhee referred to announcement July 31 by the governor-general of Korea, Baron Salto, of the imminence of local self-government in Korean communities.

"This official announcement," said Dr. Rhee, "is in harmony with Japanese policy in Korea for the past 10 years. Korea is covered with a screen of Japanese words. Japan shows one face to the western world and a different one to the East."
