

## IMPORTANT CASES CROWD DOCKET OF U.S. SUPREME COURT

(By Associated Press)  
WASHINGTON, Oct. 4.—The United States Supreme Court reconvened today for its regular term to find a docket crowded with important cases. Besides half a dozen anti-trust suits, matters pending included further attacks on the prohibition amendment, suits to test the constitutionality of the anti-prostitution section of the Food Control Act and of the Federal Farm Loan Act, appeals in the Newbery election case and many others.

With the federal suffrage amendment ratified and proclaimed since the court adjourned early in the summer, court officials expect that cases designed to test the constitutionality of that amendment also will reach the court during the present session.

**Lehigh Suits Up.**  
The first case to be argued at this term will be government appeals in the dissolution suit against the Lehigh Valley Railroad Company, part of the alleged anthracite coal trust. This case is set for tomorrow. By agreement of counsel argument of the other five anti-trust suits will be postponed temporarily.

The prohibition amendment will reach the court again through petitions asking for a reconsideration of the decision of last June 7 sustaining the amendment and portions of the enforcement act, rendered in appeals of Christian Flegenspan, brewer of Newark, N. J., and George C. Dempsey, a Boston liquor wholesaler. A decision on these petitions is expected within a few weeks. A number of other cases involving interpretations of the enforcement act still are pending and further decision simplifying the court's original opinion are looked for at this term.

Other cases of consequence before the court are those involving the constitutionality of provisions in the 1919 war revenue act levying an excise tax on profits derived from child labor; the boundary dispute between Oklahoma and Texas and the case of the United Shoe Machinery Company which comes up from proceedings originally instituted by the government in St. Louis under the Clayton act.

### American Legion

Walter W. Craig, a second lieutenant of K. Company, Fifty-ninth Infantry, was leading the company into a new position in the Bois de Fay, eight kilometers from Montfacon on the night of Oct. 4, 1918. The column was surprised by a terrific machine-gun and rifle fire and the men took cover until daybreak, when they stormed the machine-gun nest and captured it. The body of Corporal Schmidt, one of Lieut. Craig's men, was found partly stripped of clothing, but no trace of the officer has ever been discovered, although it was supposed at the time that he had probably been wounded and made prisoner by the Germans.

In behalf of the mother of the missing man, Clark Millen, of 44 Oriental street, Newark, N. J., is trying to find out details of his fate from former prisoners of war or anyone else who may have seen or heard of him.

This is one of the more than two thousand unsolved mysteries of the war which the American Legion Weekly is endeavoring to clear up. If any reader has any information about Lieut. Craig, he or she is requested to communicate with Mr. Millen at once.

### Scientists Deprecate Theory Of New Italian Volcano

ROME, Oct. 4.—Scientists say they do not believe that a new volcano was created on Mount Pisanino, near Spesia, during the earthquakes which began Sept. 7 and continued until Sept. 9, causing the loss of 500 lives.

Tongues of flame and smoke or dust were seen to be emitted from what is popularly supposed to have been a new crater opened near the mountain top.

Frank A. Perrett, the American volcanologist for the Carnegie Institution, who occupies a station at Mt. Vesuvius to observe its operations, has expressed to The Associated Press the opinion that no new volcano has been formed but that the earthquakes caused displacements of subterranean strata causing a fissure in the earth's crust and that gas escaping therefrom was mistaken by onlookers as the opening of a new crater. The phenomenon was not a new one. Mr. Perrett said the seismic instruments showed a lowering of the earth level in the earthquake district previous to the tremors. This had been observed on other occasions when earthquakes occurred.

### "BRING YOUR OWN" IS H. C. L. SLOGAN OF THESE NEW YORK UNIVERSITY GIRLS

Three of the students selecting a spot in Washington square to eat their home-packed lunches.

Girl students at New York University are waging a campaign against old H. C. L. in general and against high restaurant prices by carrying their lunches. On pleasant days they lunch on the lawn in Washington Square park. Their move has caused many New York workers to quit restaurant fare for the lunch box.

### King Alfonso Overcomes All Hunting Obstacles

SANTANDER, Spain, Oct. 4.—No fatigue or physical effort is too great for King Alfonso when he decides to go hunting the chamois in the Picos de Europa, as he did this year in August after attending the horse races and personally steering his yacht to victory in the regatta at San Sebastian. This time, as an exception, he was accompanied by a number of women, who love hunting and who are connected by family ties with the royal house, as well as by some of his personal sporting friends.

The party included the Queen, Princess Alice of Albany, the Infanta Luisa, Infante Carlos, Prince and Princess de Bourbon, Lord Athlone, the Marquis and Marchioness de Viana, the Marquis and Marchioness de Villaviciosa de Asturias, Luis de Bustamante and a number of court functionaries of high rank.

### Soviet Opposition Grows In Russia Says Report

(By Associated Press)  
COPENHAGEN, Oct. 4.—Reports of a strike movement is rapidly spreading in Russia, resulting in serious disturbances in various parts of the country have been received by the National Tidende from its Helgoland correspondent. He declares travelers from Russia confirm the recent reports that street conflicts had occurred in Petrograd, in which several of the soviet commissioners were killed by a mob. Previous reports had it that six of the commissioners were drowned in the Neva.

Persistent rumors that Leon Trotsky, the war minister, had been wounded, and that General Budenny, the noted cavalry leader, was being court-martialed, also were in circulation, the travelers reported.

**MAKES ODD CAMPAIGN BET.**  
NOGALES, Ark., Oct. 4.—What is said to be the first freak election bet in Arizona on the Harding-Cox contest was made here by two residents of Patagonia, a mountain mining camp about twenty-eight miles from here. Dr. H. J. Cheneet and Kent Taylor have wagered a trip in a peanut car from Patagonia to Nogales, Sonora, on

the election. If Senator Harding is elected Taylor will push the druggist from Patagonia over the dry mountain road in the cart and buy him a drink in Mexico, which could not be legally purchased in the United States. If Cox wins the hotel man will get the same treatment from the druggist.

In Cairo, Ill.—"Some time ago I got so bad with female trouble that I thought I would have to be operated on. I had a bad displacement. My right side would pain me and I was so nervous I could not hold a glass of water. Many times I would have to stop my work and sit down or I would fall on the floor in a faint. I consulted several doctors and every one told me the same but I kept fighting to keep from having the operation. I had read so many times of Lydia E. Pinkham's Vegetable Compound and it helped my sister so I began taking it. I have never felt better than I have since then and I keep house and am able to do all my work. The Vegetable Compound is certainly one grand medicine."—Mrs. J. R. MATTHEWS, 3311 Sycamore Street, Cairo, Ill.

Of course there are many serious cases that only a surgical operation will relieve. We freely acknowledge this, but the above letter, and many others like it, amply prove that many operations are recommended when medicine in many cases is all that is needed.

If you want special advice write to Lydia E. Pinkham Medicine Co. (confidential), Lynn, Mass.

## PLUTO WATER America's Physic

**W**OULD you know better health? Do this: Take Pluto Water at regular intervals — whether or not you are constipated. Keep your system free from dangerous waste accumulations.

The perfect blend of minerals in Pluto Water causes a healthy passage of the intestinal secretions and promotes normal, natural activity. Gentle, prompt, effective always. Take Pluto periodically — keep fit in body, fresh in mind. Bottled by French Lick Springs Hotel Co., at French Lick Springs, Indiana.

Your physician prescribes it

When nature wont PLUTO will

### British and Japs Obtain Control of Mexican Oil

MEXICO CITY, Oct. 4.—Control of the petroleum industry in Lower California has been secured by the British government and Japan dominates the same industry in the state of Sonora, according to reports printed in newspapers which combines official and unofficial statements.

The department of industry and

commerce announces that Alfred Mackenzie, a British subject, has been granted a three year concession to explore and exploit all oil lands in Lower California on government and private land included between Santo Tomas, and Punta De Candelas. It is officially declared the British government is backing Mackenzie.

Persistent kindness wears away the hardest heart.

## Relieve Your Rheumatism For 25c.

NR does it by improving  
digestion, assimilation  
and elimination—  
the logical way.

### NR Today—Relief or No Pay

There are three vital processes of human existence—the digestion of food, the extraction of nourishment from it and the elimination of the waste products.

Let anything interfere with these processes—let them be interrupted or improperly carried on, and sickness of some kind follows.

Poor digestion and assimilation means failure to derive proper nourishment from food which in turn often means impoverished blood, weakness, anemia, etc. Poor assimilation means an accumulation of waste matter which poisons the body, lowers vitality, decreases the power of resistance to disease and leads to the development of many serious ills.

Rheumatism due to an interference with the process of elimination, failure to get rid of certain body poisons, cannot be expected to yield to any medicine that does not correct the condition responsible for it. Could any reasonable person expect to rid himself of rheumatic pain as long as
