

SUNDAY SCHOOLS OF WORLD CONVEIN IN JAPAN, OCTOBER 5

BULLETIN
(By Associated Press)
TOKIO, Oct. 5.—The building in which the world's Sunday school convention here was to be held was burned just before the opening of the convention today. The building was crowded with the delegates but the doorkeepers expressed belief that all escaped.

TOKIO, Oct. 5.—A spacious "foreign style" building erected on the vacant space opposite the big Tokio central railroad station a stone's throw from the Imperial palace gives notice to the Orient that Christianity will make a concerted effort through the World Sunday School convention, to increase the roll of converts to Christianity among oriental peoples. It is in this building that the Sunday School delegates from all over the world, will hold their religious deliberations, Oct. 5 to 14, meeting together for the first time as a convention in a land where Buddhism, Shintoism, Confucianism with their multitudinous sects hold chief sway upon the people.

Buddhists Advertise.
Simultaneously, so it is announced, Buddhist leaders of Japan intend to promote the cause of Buddhism. They are planning during the visit of the Christian Sunday School workers to hold a mass meeting and in a general way to introduce to the visitors the history, principles and tenets of Buddhism. It is also proposed to hold meetings of the Buddhist Juvenile Union at the same time the Christian visitors will be here. The priests, it is stated, have agreed to throw open all the temples and museums connected with the temples and monasteries, to the foreigners who will come here in connection with the Sunday School convention.

More than 130 specialists in Sunday school work will be speakers at the Christian Convention of which Justice J. J. MacLaren, of Toronto, Ont., is to be chairman.

The first evening of the convention will be known as "Tokio evening" with addresses by Viscount Tajiri, the mayor of Tokio, Baron Shibusawa and others, and messages are expected to be read from Lloyd George, President Wilson, the prime minister of Canada and other world leaders.

The central theme of the convention will be "The Sunday School and World Progress" and the idea will be to show the relation of the Sunday School and religious education to the new world and to world reconstruction.

CHURCH SHUNNED, EX-ARMY CHAPLAIN MAKES HIS LIVING ON VIENNA STREETS

The chaplain, with his instruments, before the Hofburg, Vienna.

A familiar figure on Vienna streets is a former Austrian pastor. He held a pulpit before the war and when Austria called for soldiers he enlisted as an army chaplain. When he returned from the war his parish had deserted the church. Now with a harp and a trumpet and bell he plays before the Hofburg—former royal palace—and at other points.

wrecked the safe in the office of the Farmer's Cooperative company, at Roseburg, west of this city. Persons nearby were awakened by the explosion of the dynamite, but the thieves made their escape before the sheriff arrived.

FORT WAYNE—Automobile and motorcycle races held at Centralia park, this city, caused the death of two persons and the serious injury of another. A wheel off of the racing car of Paul Augspurger, killed Robert and Eugene Skillman, 6 and 9 years old, respectively. Harry Wyatt was cut about the head and arms when the motorcycle crashed into a fence.

IMMIGRANTS CHOKED ELLIS ISLAND GATES

NEW YORK, Oct. 5.—The tide of immigration from Europe into the United States is rapidly mounting towards pre-war levels. Six months ago more aliens were sailing away from America than were sailing in, but now the food has turned and there are more than twice as many alien arrivals as departures.

With the sudden influx the immigration problem has become one of the most serious questions the next congress will have to deal with.

For weeks Ellis island, the great gateway, has been choked. The detentions are so many that the island is congested to double its capacity. One night a week or so ago 3,319 immigrants were detained in quarters with sleeping accommodations for 1,500—the largest crowd in the history of the island. A night with 3,000 is nothing unusual now.

Rushed Through "Examinations."
Ships have been forced to tie up for days before discharging steerage passengers. Thousands of examinations have had to be made at the docks instead of the island. Cots were still being installed today to take care of the excess, and a staff of extra inspectors was being recruited. Frederick A. Wallis, the new commissioner, who has done much to "humanize" Ellis island since June, only recently got authority from Washington to increase the force to something like adequate proportions.

The destitute and the diseased are clamoring for admission in numbers not before equalled. On the other side of the Atlantic the bars seem to be all down and passengers are taken aboard ship without regard to whether the United States will regard them as "undesirables." The hospital on the island, with a capacity of 650 beds, now has 575 patients, many with disease that will lead to their exclusion. Cases of idiocy and imbecility and senility are not infrequent—although the law excludes these, they were taken aboard ship on passports issued by American consuls.

Nobody tells the truth all the time, but your batting average ought to be around .750 at least.

Death Ends the Career Of Camden Merchant

CAMDEN, O., Oct. 5.—John Henry Bohn, a resident of Camden since 1842 died at his home here October 3, at the age of 83 years. He was one of the pioneer business men of the town, having been associated with his father in the drug business here since in the year 1860. He retired from active business in 1917, because of failing health.

He was married to Mary E. Francis June 28, 1860. This union resulted in the birth of one daughter, Mrs. Cora E. McCord.

Mr. Bohn was a member of the Odd Fellows and Mason lodges. The oldest business man of our community has passed away, leaving a life of cleanliness, honesty and right living. He leaves an invalid wife, a faithful daughter and a host of friends.

The funeral will be held at the home Tuesday afternoon at 2 o'clock, conducted by his lodges and the Rev. Mr. Gear of the Presbyterian church.

If you don't know what to think of a situation, don't think anything.

Teeth Shine

When the film goes—watch and see

Learn now how teeth look—how they feel—when you combat the film.

Get from your druggist, without cost, this ten-day test. Note the instant results, then look in ten days.

Millions have already done this. Leading dentists everywhere advise it. Now show your home folks what clean teeth really mean.

The war on film

Dental science, the world over, is fighting a war on film. Film is that viscous coat you feel. It clings to teeth, enters crevices and stays. And most tooth troubles are now traced to it.

Those troubles have been constantly increasing. The ordinary tooth paste does not end film, so the tooth brush has proved inadequate. Millions know how well-brushed teeth have discolored and decayed.

It is the film-coat that discolors, not the teeth. Film is the basis of tartar. It holds food substance which ferments and forms acid. It holds the acid in contact with the teeth to cause decay.

Millions of germs breed in it. They, with tartar, are the chief cause of pyorrhea. And, despite all brushing, few escape these troubles caused by film.

New ways to fight it

Now dental science has found ways to fight film, day by day. Able authorities have proved the methods efficient. Leading dentists everywhere now urge their application.

The methods are combined in a dentifrice called Pepsodent. To millions it has brought a new era in teeth cleaning. And to every home a ten-day test is offered free, so all may quickly know it.

Quick, visible results

Anyone can see and feel what Pepsodent is doing. No old method of brushing ever brought such effects. So we let this test convince you.

One ingredient is pepsin. Another multiplies the starch digestant in the saliva, to digest starch deposits that cling. The alkalinity of the saliva is multiplied also, and at once. That is to neutralize mouth acids which cause tooth decay.

Two factors directly attack the film. One of them keeps teeth so highly polished that film cannot easily adhere.

The effects of Pepsodent come with every application. We constantly combat, in efficient ways, the teeth's great enemies. And millions of teeth are given new protection and new beauty.

Millions now show the effects

In every circle nowadays you see glistening teeth. Ask the owners. You will find, we think, that they are using Pepsodent.

Go get this free tube and try it for yourself. Note how clean the teeth feel after using. Mark the absence of the viscous film. See how teeth whiten as the film-coats disappear.

Then let the children use it. Their teeth need it most. Very few children reach the age of 15 without some tooth decay.

Let the man who smokes see how it takes the stained film from his teeth.

Let all find out how much cleaner teeth feel, how much safer, when brushed in this new way. Then this ten-day test may bring to your home some lifetime effects.
