

PREMIER OF SPAIN OUTLINES PROGRAM OF HIS GOVERNMENT

(By Associated Press)
MADRID, Oct. 5.—Announcement of a governmental program of wide scope and of great importance was made by Premier Dato today during a session of the cabinet council, at which King Alfonso presided. The premier's ministerial declaration of policy stated, among other things, his intention to apply when necessary for full preventive and repressive measures, but he declared he would at the same time, introduce reforms, reorganize social and economic laws and pay close attention to the solution of industrial conflicts through the ministry of labor.

Bills in preparation dealing with workmen's insurance and the housing problem. The civil code will undergo alteration with a view of modernizing that compilation. Development of the Spanish zone of Morocco with respect to railroads, agriculture, mining, hospitals and courts will be undertaken vigorously and an educational system will be established in which the creeds of the natives will be respected.

Waterpower development will be undertaken and plans will be taken to reach an agreement with Portugal relative to the use of waterfalls in the Tagus and Duero rivers. Similarly, a program of afforestation and irrigation will be initiated. Every effort will be directed to prevent profiteering.

Organic changes were foreshadowed by the premier in his speech relative to the army and navy. More opportunities will be offered soldiers to gain promotions. The navy will be brought more in line with the requirements of Spain as a maritime nation.

Financial reforms will be immediately begun, he said, to equalize revenues and expenditures. A new import tariff is being drafted to safeguard agricultural and industrial interests.

PRESIDENT REBUKES SPENCER FOR SPEECH

WASHINGTON, Oct. 5.—President Wilson today wrote to Senator Spencer, Republican, of Missouri, that the statement recently made by the senator that the president had promised American military aid to Roumania and Serbia in the event of the invasion of those countries was "false."

Senator Spencer's address was delivered in Missouri and when it was called to Secretary Tumulty's attention, Mr. Tumulty gave out a statement to correspondents of St. Louis newspapers declaring that the Senator's statement was "absolutely and unqualifiedly false." Senator Spencer in turn issued a statement saying he did not believe the President had authorized such a denial.

The President's letter was in reply to this statement. It follows: "I have just been shown your statement that my secretary's denial of the previous statement by you that I had promised American military aid to Roumanians and Serbs was issued by him without my knowledge and sanction, and that you did not for a moment believe that I made any such denial or that the matter was ever called to my attention."

"I wish to say that your statement was called to my attention by Mr. Tumulty and that I requested him to issue the denial to which you refer. I reiterate the denial. The statement you made was false."

OFFICERS SEEK TO IMPLICATE ZELENSKO

(By Associated Press)
PITTSBURGH, Pa., Oct. 5.—Examination of Florian Zelenko, who was arrested here Sunday night with a quantity of explosives in his suit case, was continued today by Federal agents.

The government officers questioned the suspect for eight hours yesterday, in an effort to connect him with the Wall street explosion, but the nature of some of the information obtained will not be made public, they said, until the story can be checked up. They indicated, though, that with new "leads" received from other cities early this morning, it would require about a week to verify Zelenko's story.

Will Confirm Stories.
In their confirmation of the prisoner's story, the agents said, they would question him relative to the charge of the Columbus, O. police that he is wanted there in connection with the theft of 55 pounds of dynamite, Sept. 21, last, and would endeavor to confirm the story of the New York woman who is said to have told authorities there that Zelenko had frequently carried quantities of dynamite in his pockets.

About 500 workmen were present at the meeting.

LARGE CROWD HEARS BRILLIANT SINGER

When Mary Ann Kaufman Brown sang at the Murray theatre Tuesday morning under the auspices of the Woman's club, every seat in the house was filled and many in their eagerness to hear the brilliant singer stood up in the back of the theatre and on the stairs, some holding children in their arms during the whole performance.

That she satisfied the expectation of her audience was shown in the prolonged and enthusiastic ovations given her. Not only does she have a beautiful voice and flawless technique, but her stage presence of charming graciousness as well. She sang Caesar Franck's "Le Mariage Des Roses" with exquisite expression, and was encored heartily. After the song a large bouquet of roses was presented to the singer.

Mr. Palm Delights.
Augustus O. Palm delighted the audience with his playing and his quiet, unassuming manner. "Lyrique Algerienne," one of his own compositions, received much applause and a request was sent up by the audience that he give another selection, before the close of the program.

Bizet's "Aria of Micaela" from Carmen, was magnificently sung by the soprano. Throwing her whole personality into the song, she carried the audience with her. Her range of expression was wonderful. Mary Ann Kaufman Brown does not have to depend upon her voice entirely to please, though well she might. The stage setting with gay and tasteful lamp beside the piano, made an artistic background.

"The Surf Song" by Winter Watts was very popular. The singer's enunciation is excellent and every word can be heard no matter how softly sung.

DR. PURDY EXPLAINS GERMAN CONDITIONS TO ROTARY MEMBERS

"There is nothing the German people, as a rule, fear more than Bolshevism," stated Dr. Alexander C. Purdy, of Earlham, speaking before the Rotary Club at the weekly luncheon at the Arlington Hotel Tuesday noon. "The task of the world is to get hold of the new sentiment which is growing up among the younger generation of Germans and lead it towards democracy," he stated as his conclusion. Dr. Purdy, who recently has returned from Europe, where he spent five months in relief work, spoke on "Conditions in Central Europe." He endeavored to answer some questions that were asked.

Conditions Deploable.
He stated that one might be led to believe that conditions were good if they took a short trip through the country, but that upon investigation it was found that the plight of the people was pitiable in many places. Germany is not utterly broken as is Austria, he stated.

The chief difficulty is food. People do not have enough to eat. Although German crops were good the past year only 55 per cent enough food was raised to feed Germany. German children look from two to three years older than they really are because of lack of nourishment.

"If raw materials could be obtained Germany would rapidly return to a good economic basis. At the present time only about one out of every seven factories is operating," said Dr. Purdy.

Two new members were elected to membership in the Rotary Club, Tuesday, Walter Doan, to represent the undertaker, and Guy Means, as automobile distributor. Julian S. Smith had his membership transferred from the club in Texas of which he was a member. Dr. J. J. Rae welcomed the new members with a short talk outlining the ideals of the club.

A committee of Rotarians will accompany the "Know Your Own City" trip Friday afternoon, which is to be conducted by Dell Davis, city engineer.

ANTI-SOVIET FORGER JOIN UKRAINIAN ARMY

(By Associated Press)

CONSTANTINOPLE, Oct. 5.—Forces commanded by Gen. Baron Wrangel, head of the anti-Bolshevik government of South Russia have joined the armies led by General Meko, the Ukrainian chief, which have been operating against the soviet troops in the region of Kharkov. The junction was effected at Sineieukova, a village 25 miles southeast of Ekaterinoslav, and the Bolsheviks who have been trapped in that vicinity since the anti-Bolshevik forces have been approaching each other during the past fortnight were captured.

Soviet Confused.
General Makno's flying raid on Kharkov, which resulted in the capture of that city, has contributed to the confusion of the soviet armies in Southern Russia, the position of which along the Dnieper river has become more critical. Insurgent bands are reported to be in the rear of the Bolsheviks and are said to have captured Vikolav, near Odessa. It is rumored cholera has appeared among soviet troops in Kharkov.

Barefooted conscripts of the Bolshevik army continue to surrender in large numbers without resistance, but the Bolsheviks regulars and student regiments continue their retreat.

AMERICA WILL PAY TRIBUTE TO JENNY LIND, ON OCTOBER 6

NEW YORK, Oct. 5.—America will pay tribute to Jenny Lind on Oct. 6, the 100th anniversary of the birth of the Swedish nightingale, whom P. T. Barnum brought to this country in 1850 on her spectacular concert tour of nearly two years. The centennial is to be commemorated throughout the music-loving world. In Sweden, in England and in other countries where she sang, fitting plans are under way to honor the greatest singer of her time.

Her admirers in New York City will celebrate the event in a unique way. They will give a historical concert—reproduce the first concert Jenny Lind gave in this country, bringing back the stage picture and atmosphere of that memorable night of September 11, 1850. The proceeds will be given to the same charitable institutions to which Jenny Lind gave the proceeds of the original concert.

Copy of the Gown.
Frieda Hempel will appear in the role of her famous predecessor. She will wear an exact copy of the gown worn by the nineteenth century diva; will sing the same arias, and play her own accompaniments to the same group of songs on the same piano Jenny Lind played them. A piano autographed by the Swedish Nightingale on the night of her debut.

The centennial concert will be given in Carnegie Hall on the evening of October 6. Castle Garden, the scene of Jenny Lind's first American triumph, has been transformed into the aquarium and thus is deprived of the honor of housing another memorable audience.

It is contemplated to hold a centennial exhibit, however, in the old circular building in Battery Park from Oct. 1 to Oct. 10. Many of Jenny Lind's personal belongings and interesting relics associated with her tour here will be shown. The old concert grand piano will have its place of honor.

On the afternoon of Oct. 6 the park commissioners of New York City will present to the aquarium a marble bust of Jenny Lind and a portrait of the famous singer, both made for her when she was in this country.

Other American cities where Jenny Lind sang are arranging to celebrate the day.

Jenny Lind was born in Stockholm of humble parents. She sang from childhood, and famous teachers became interested in her. At 12 her voice entirely failed. Four years later it came back and her remarkable career began. Her first operatic role was Alice in Meyerbeer's "Robert le Diable." Having been acclaimed in her own country and in Norway, she carried her conquests to the continent and to England.

She was probably the most talked-of person in public life in all Europe when Barnum, without having seen her, persuaded her to make a tour of the United States. No sooner was the contract signed than the new impresario, according to his autobiography, "began to prepare the public mind for the reception of the great songstress."

40,000 at Landing.
The steamer Atlantic that brought her to this country was saluted at Sandy Hook and again as she plowed up the Narrows. Forty thousand people assembled at the landing and on the surrounding piers to greet her. Triumphant arches marked her pathway. Crowds surged around her hotel and clamored for her appearance. Auctions for the sale of tickets brought thousands of buyers. Genin, a hatter—"a Mad Hatter" they called him—paid \$225 for the first New York ticket. His unheard-of extravagance made him famous. The highest price paid for a single ticket was in Providence, where the bit of pasteboard was knocked down to Colonel Ross for \$650.

The Nightingale gave about 135 concerts in this country—more than 35 in New York City. Everywhere audiences fought to gain entrance to the concert halls. Everywhere they stormed her with applause, and everywhere admirers and charity seekers besieged her. Extra concerts had to be given to satisfy the throngs and Jenny Lind herself added more extra concerts for charity.
