

LEAGUE WILL SADDLE AMERICA WITH WOES OF EUROPE—BORAH

DANBURY, Conn., Oct. 5.—America's entry into any association or alliance of nations was opposed here Monday by Senator Borah, Republican of Idaho.

Opening a four day's speaking tour in support of the candidacy of Senator Brandegee, another of the Republican "irreconcilable" opponents of the Versailles league, Senator Borah declared that the thing which made the United States "powerful for good is its complete freedom and its unembarrassed right to throw its influence on the side of justice and peace in every great crisis of affairs."

"There is today in the world," said Senator Borah, "no influence for peace and for civilization equal to the free and untrammeled America, and the best citizenship of the country, regardless of party, will preserve that influence, uncompromised and untarnished."

Warning From Maine.

"The voice of Maine was the voice of Lincoln speaking through the sturdy and patriotic men and women who have kept the faith."

The real question which the whole league scheme presents to the average citizen is this: Shall we go into Europe and take upon ourselves as a people and as a part of our burdens and obligations the tumult, the strife, the racial conflicts and the imperialistic schemes of the old world, or shall we stay out? Keep that plain, fundamental proposition before you.

"All these schemes lead to but one destination—Europe. Whether you have it with or without reservations, it all leads to Europe."

"Whether you call the scheme a league, a concert of powers, an alliance or an association—they all lead to Europe and place upon the already bended backs of American taxpayers their scheme of exploitation and waste."

Methods Immortal.

"This is the reason why Lloyd George is perfectly willing for us to come in on our own terms. Once there we must assume all the obligations and deal with all the situations which our presence there inevitably incur."

Witness some of the scenes at Versailles, such as the betrayal of China—the deal by which Shantung was bartered away to an unfriendly power. America sat in the settlement and was silent—and if not silent, by reason of its association, powerless. That is the first time in all her history that she connived at the betrayal of a friendly people and broke every pledge, legal and moral, which a people could make.

"And that is the first time that the United States ever sat in on an European settlement."
