

BEAUTY CHATS

THE PRETTY HOSTESS

There are various ways of achieving popularity, but I should say that a short cut to it would be to learn how to be a charming hostess. This surely is an art that every girl can pick up for herself without a great deal of effort.

First of all, it does not require a lot of money to be a good hostess. That's a great mistake which many girls and grown women make. I remember when I was a youngster saying to my mother, "It's always like a party when we play at Eleanor's house, but they never have anything to eat." And that about summed up the situation. Eleanor adored having children play in her yard and Eleanor's mother had a way of smiling at us, and of sometimes joining in our games, that pleased us more than treats of cakes or candy.

You can be a popular and a charming hostess without going in for elaborate refreshments or expensive decorations. I've often suggested to girls who wanted to draw about them a circle of friends, that they be at home at tea-time some afternoon every week—so that people will know they can drop in for a cup of tea and some pleasant chatter at certain times. Not expensive, this method, is it?

Learn the little arts of hospitality, like to see your friends and the other friends they might want to bring—and show you like them—and you'll achieve popularity as a hostess, and as a person. Make your house pleasant and restful in spirit, and you'll draw people around fast enough.

Brown Eyes.—The weight of a girl of 14, who is five feet, four inches in height, should be about 118 pounds.

W. F. A.—A girl of 15 should be

wearing her hair down her back. The style of hair dressing that you mention, is not to be recommended at any time. If you feel that you would care to try putting the hair up occasionally, as a novelty, you will find an attractive style for a young girl in the "Beauty Chats" of August 25.

Susy.—You should weigh about 110 pounds. There is nothing that can be done for thick lips, which I could advise, except to keep your teeth looking healthy and your skin clear then forget your lips—as they will be more pronounced if you are self-conscious, while they will not be noticed if you cultivate other features and forget the poorer ones.

A good actress needs very little make-up; she depends upon her art to interpret the character she is taking. All inquiries addressed to Miss Forbes in care of the "Beauty Chats" department will be answered in these columns in their turn. This requires considerable time, however, owing to the great number received. So, if a personal or quicker reply is desired, a stamped and self-addressed envelope must be enclosed with the question.—The Editor.

Heart Problems

Dear Mrs. Thompson: I have been keeping company with a certain young man for two years. For the last year we have been engaged, and during that time we have worked hard, planning our future together. I have bought pretty linens, bedding and pieces of furniture for our home, while he has been saving to build. We already have our lot bought and quite a little to pay for the building.

Lately my fiancé has not been well. He worked so much overtime that he thought he only needed rest. He stopped his overtime work and spent only eight hours a day at the office. He still felt so tired, however, that he went to a doctor. The doctor says that he is tubercular.

You haven't any idea how we feel. We expected to be married at Thanksgiving time, stay in a furnished apartment for a few months and in the spring build.

The doctor says that my fiancé can be cured, but he advises us not to marry. It will break my heart not to do so and I feel that it is my duty to stand by the man I love.

What would you advise?

Follow the advice of the physician.

Since he says your fiancé can be cured, you have a great deal to be thankful for. It seems to me that you will be happier in the end if he spends a few months or a year getting well and you busy yourself during that time with your work, continuing your preparations for a little home of your own. If you and he married he would feel great responsibilities, from which he will be relieved if you remain single.

Both of you must keep from worrying. Tuberculosis can be cured, and you must have faith that it will be in this case.

Home Face Peeling Becomes Popular

No complexion treatment yet discovered seems to have become so generally and so immediately popular as the mercolized wax process. Evidently the reason is that this method actually gets rid of a bad complexion, which can hardly be said of any other. To temporarily hide or bleach the defective skin with cosmetics cannot compare with the effect of literally removing the skin itself. Mercolized wax takes off the offending surface skin in flour-like particles, a little at a time, until there's none of it left. The new complexion thus produced exhibits a healthy glow and girlish beauty obtainable in no other way. This wax, which you can get at your druggist's, is applied at night in the same way you use cold cream, and washed off next morning.

Here is one thing that actually does remove wrinkles, and remove them quickly: Powdered saxolite, one ounce, dissolved in one-half pint witch hazel. Use as a face wash.—Advertisement.

96% of the crop. Full of starch and short on gluten. Makes ordinary flour.

4% of the crop. Strong in gluten. Makes the finest flour.

Only 4% Measures Up To Enterprise Standards

The big hard wheat crop you hear so much about this year is long on quantity but very short on quality. Only four per cent of it is fit to be milled into Valier's Enterprise Flour.

Rain and warm weather made the grain outgrow its strength. It has too much starch and water in it and not nearly enough gluten.

The wheat that is good enough to be milled into Enterprise Flour grew where there was less moisture. It ripened into thinner, harder grain, strong and full of gluten. But it is only four per cent of the crop. It is very scarce and hard to find.

We have to have such grain, for no other will mill into flour capable of producing the same fine results that you have always had with Enterprise. So we paid the price and got it.

Naturally Enterprise costs a few cents more this year, but those few cents will be many times repaid. You won't be annoyed by needless, expensive failures and you'll get more bakings per sack than with ordinary flour.
