## BIG EATERS GET KIDNEY TROUBLE

Take Salts at First Sign of Bladder Irritation or Backache.

The American men and women must guard constantly against kidney trouble, because we eat too much and all our food is rich. Our blood is filled with uric acid which the kidneys strive to filter out; they weaken from overwork; become sluggish; the eliminative tissues clog and the result is kidney trouble, bladder weakness and a general decline in health.

When your kidneys feel like lumps of lead; your back hurts or the urine is cloudy, full of sediment, or you are obliged to seek relief two or three times during the night; if you suffer with sick headaches or dizzy, nervous spells, acid stomach, or you have rheumatism when the weather is bad, get from your pharmacist about four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush and stimulate clogged kidneys; to neutralize the acids in the urine so it is no longer a source of irritation, thus ending bladder disorders.

Jad Salts is inexpensive; cannot injure, makes a delightful effervescent lithia-water beverage, and belongs in every home, because nobody can make a mistake by having a good kidney flushing any time.—Advertisement.

## TWO SKIN ANIMAL SCARFS ARE MOST FASHIONABLE FOR LATE FALL WEAR

Have you noticed the great number of animal scarfs which are making their appearance with the new fall tricotine suits and frocks? None could be more comfortable. There may be one or two-skin chokers with tiny heads, bushy tails and soft little paws. The favorite fur is stone marten, but fox, mink, marten, otter and kolinsky are also popular. There are any number of ways of wearing these little scarfs and there is nothing which adds such an air of complete finish to a costume as a smart little fur neckpiece. The one picture is of stone marten, a two-skin scarf, with a pretty marking.

## Heart Problems

Dear Mrs. Thompson: I am a girl 14 years old and large for my age. There was one of my second

## Uneeda

cousins visiting my grandmother last night. Grandma told us to go after another girl so we could have a good time. When we got back we sat on a cot on the porch. He sat in the middle with an arm around each of us and he kept squeezing us. The other girl laid her head on his shoulder, and he kept trying to make me, but I would not.

The next morning he was waiting for me and we went out on the front porch again. I had on a big string of pearls over a yard long and he put them around his neck and mine. Then grandma came out and he took them from around his neck. Soon he got up and played with the cat.

That night we went to a dance with the other girl and every chance we had he held the other girl's hand. I stayed at the girl's house that night. The next morning he was there by nine o'clock for her to take him to the depot. They wanted me to go with them, but I couldn't. I had to stay at home and keep the children so mother and daddy could go to preaching. He told me good-bye and said to tell the rest good-bye for him. They brought me home on their way to the depot.

He lives at Birmingham, Ala. He told me while I was at grandma's if I would come down next summer the first thing he would do would be to

come after me. Does he love me for a sweetheart? I do not want to marry one of my own kind and I am not going to do it. He is eighteen. I am not thinking of marriage until I am somewhere in the twenties. Please give me the information you can. I will appreciate it. I surely did hate to see him leave. I cried four times the day he left. Mother said I could go down there next summer. He has a sister fifteen. He has it right for me to go.

Your cousin seems to think love-making the important thing in life.

It was cheap and ill-bred for him to make love to you, and I can not see how he had the nerve to make love to the other girl in front of you. Do not think of him as a sweetheart, because you may rest assured he has a number of them at his home in Birmingham. Since his people are your relatives it would be all right for you to visit there. You should, however, have an invitation from his mother first. I think, however, it is unadvisable for you to go. The boy would
