Mabel McKinley—Niece of the Late President of the United States—Takes Nuxated Iron for Health and Strength And Says She Regards It as The Ideal Tonic For All Weak, Run-Down Nervous Women

Dr. George H. Baker, formerly Physician and Surgeon Monmouth Memorial Hospital of New Jersey, Explains Why Iron Is One of the GREATEST OF ALL STRENGTH BUILDERS

Says: He has found nothing in his experience so effective for helping to make strong, healthy, red-blooded women as Nuxated Iron.

Every woman who wishes to possess health and strength and beauty, should

carefully read the statement of Miss McKinley who, after her cure of Nuxated Iron, tells of the results she obtained.

Miss McKinley says: "While I had often heard of Nuxated Iron, I made up my mind to give it a trial and made a remarkable value for building up the health and strength."

"Following the strain imposed by months of the war, I was unable to find time for the various army encampments, together with my social engagements and charitable pursuits, I found it impossible to keep up my health and strength, and I feared I would soon die."

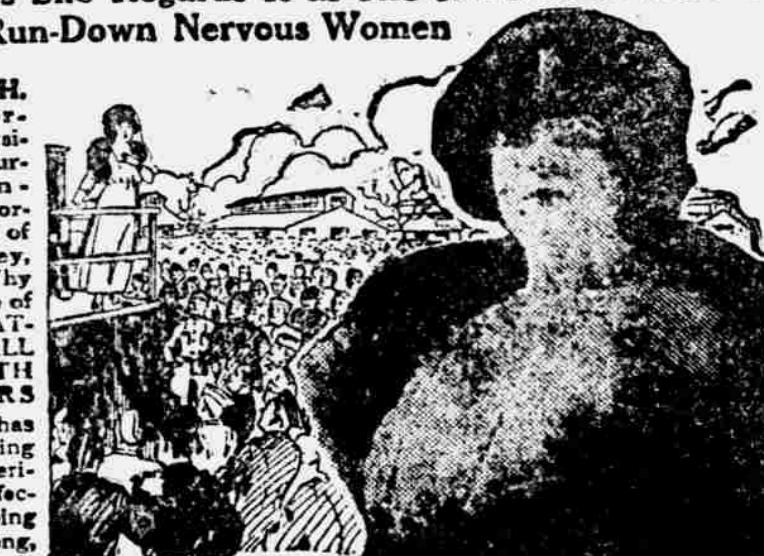

"It seemed utterly impossible for me to drag everything and go away for a complete rest, but I realized that as my condition was so bad, I must have a complete rest, so I began to take Nuxated Iron, which would

enable me to continue my activities."

"I had always been a strong and tonic person, but for the most part, I found only acted as a temporary stimulant and usually left one worse off than ever. However, when I took Nuxated Iron, I was so impressed by its effects that I gave it a fair trial to Nuxated Iron, I consented to begin its use, with the result that after a few days the weakness and exhaustion were gone, and I was again possessed by a feeling of renewed strength and vitality. In less than three weeks my whole system was tinged with energy and power and I was overjoyed to find that I was once more in superb physical condition."

"Nuxated Iron has accomplished so much for me that I regard it as the ideal tonic for all weak, run-down women. As a strength, health and blood-builder, I am convinced Nuxated Iron has no equal."

In a statement, Miss McKinley's statement, regarding the efficacy of Nuxated Iron, Dr. Ferdinand King, New York Physician and Medical Author, says: "It is my opinion

Miss McKinley has a voice of unusual quality and it was following her work singing for the soldiers that she became weakened and run-down and had recourse to Nuxated Iron. Once more in superb physical condition, Miss McKinley says she is convinced that Nuxated Iron has no equal as a Strength, Health and Blood-Builder.
