Judge Declares Wives Should Read Newspapers

(By Associated Press)

ATLANTIC CITY, N. J., Oct. 14.—"If I were making the laws of this country, I would make it a cause of divorce if the wife didn't read the newspapers."

Thus spoke Judge Horace Stern of Philadelphia, today, in an address on "The Woman and the Newspaper" before the Council of Jewish women, who are holding their first gathering of the year here.

"It's such a wonderful thing," continued Judge Stern, "to have the news served up to you every morning at the breakfast table, news gathered from all over the world, and it would seem to me criminal indifference to neglect knowing the serious things going on in the world."

three of thirteen murderers have slipped their neck from the noose is an invitation to the gunmen to go back to their profession.

"In my opinion the big reduction in murders this year, recently made the subject of a report by the Chicago crime commission is in part at least the result of the thirteen hanging

sentences which served as warnings to the gunmen.

"When the gunmen, who are watching the cases, carefully note the final result of the sentences they may be expected to smile at the law and begin murdering again."

The hangings were scheduled for 8 o'clock this morning.

ing to the Canal record 10,212 ships had passed through.

CAMEL CITY, U.S.A.
(or, Winston-Salem, N.C., according to the map!)

Greetings, Pete!

Here I am tonight in Winston-Salem where more tobacco is manufactured than in any other place on the face of the earth! And, W-S is some speed city, as well as the largest in North Carolina! They're rushing up a million dollar hotel, got a corking league ball team, regular skyscraper buildings and as much action as you look for in New York!

When I knocked off for the day, I bugged around like a hungry bee in a buckwheat field—up and down long streets of R.S. Reynolds Tobacco Co. factories!

As the Reynolds enterprise proved out more and more gigantic and I talked with more men about it, I got the real and true answer as to why Camels are so good and so entirely different from any other cigarette! I'll spin it for you, old top—listen—

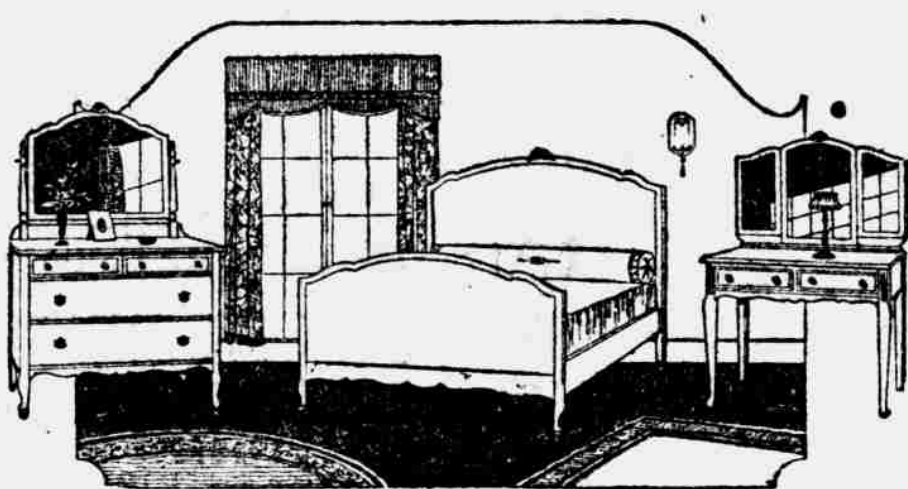

Every man I talked with made the one big point that the officials and the more than 350 Reynolds foremen have an intimate knowledge of the tobacco business; that (putting it into a North Carolina expression) they were virtually "born and raised in a tobacco patch"; that they know tobacco; how to grade it; blend it and how to manufacture and sell it!

And, what's most important of all, Pete, these Reynolds folks sure give men what they want—the best that can be produced! Why, Peter, it took months to perfect Camels Turkish and Domestic blends—and that refreshing flavor—and wonderful mild, mellow body—before a single Camel Cigarette was sold! Guess that will repay your interest, old liberty bond!

Tomorrow, I'm going to meet some of the Reynolds folks. Got to see inside of those factories!

And, you know me!!
