

WINCHESTER PEOPLE RETURN FROM EUROPE; VISIT KRUPP WORKS

WINCHESTER, Ind., Oct. 27.—Mrs. G. E. Leggett and Mrs. W. D. Clark arrived Monday after a three months foreign trip. They landed in New York Saturday morning, on the Lapland, having sailed from Southampton, October 14. With a party of fifty women, delegates and guests of the National Council of Women of the United States, under the direction of Mrs. Myra Kingman Miller Merriman, National Secretary, of New York, Mrs. Leggett and Mrs. Clark toured Europe prior to and after attending the quinquennial convention of the International Council of Women, held at Christiania, Norway, September 8-16. While in Cologne and Hamburg members of the party were courteously treated, but met with many thrills and narrow escapes. They spent Sunday in Essen and visited the Krupp Gun Works, finding every furnace running full blast. In Florence the hotel Bayliff, where the party stopped one week later, was badly damaged from the earthquake. The women report an abundant crop in Europe.

Dutch People Cling To Ancient Ceremonies At Parliament Opening

(By Associated Press.)
THE HAGUE, Oct. 27.—The Dutch people cling to the pageantry that surrounds the movements of their queen on state occasions though sturdy democrats in their business life. The opening of the Dutch parliament exemplified this.

This parliament opening is a quaint old ceremony. The queen rides in a gilded carriage through the streets of the Hague to the old Knights hall in Parliament Square and, with her crown on her head, and her gold-braided prince-consort at her side, sits on her throne for once each year.

At this ceremony the Dutch cabinet ministers are compelled by tradition to wear giddy uniforms resembling an old time minstrel man in an admiral's hat. For some reason this tradition decreed that the ministers on this solemn occasion must wear long white duck trousers which contrast strangely with their tremendous black, gold and orange hats, shaped like an inverted gravy dish.

After this one day of pomp, the ministers and members of parliament put on their working clothes and get down to business, while the queen, who prides herself on being a typical Dutch woman with domestic tastes, lays her crown aside for another year.

This year's ceremony had one note of discord with its ancient pomp. Through the crowds who watched the parade, marched a number of discontented minor government employees of the post and telegraph department, carrying placards asking when this parliament was going to raise their pay.

Society Ladies Adopt New Hair Curling Method
Since the introduction of the silmerine method in this country, it has become quite "the proper thing" among society women, who have readily adopted it in place of the destructive curling iron. The waves and curls acquired by the new method are far more natural in appearance, and the hair of course is glossier and prettier than could be if the life were cooked out of it.
The liquid is pleasant to use, being neither greasy nor sticky. It is a simple thing to apply with a clean tooth brush before doing up the hair. The lovely wavy effect in evidence in about three hours is all that one could wish for. It costs little to use liquid silmerine, as a few ounces from the drugist will keep the hair in curl for weeks.—Advertisement.
