There is no further necessity to diet in order to keep your weight down or reduce the fat you have already acquired. The famous Marmola Prescription has been put up in tablet form, and is now sold by all druggists at one dollar for a good size box. To get rid of fat at the rate of two, three or four pounds a week, just take one of these little tablets after each meal and at bedtime until you have removed your weight to where you want it. No wrinkles or flabbiness will remain. Use Marmola Prescription Tablets according to directions a few weeks and get results without going through long sieges of tiresome exercise and starvation diet. Get them at any drug store or send the price to the Marmola Co., 93 Garfield Building, Detroit, Mich., and receive them by mail, prepaid, in plain, sealed cover.

Heart Problems

Dear Mrs. Thompson: In order to provide a little food for thought to those persons who object so strongly to "paint and powder," I want to tell you why I believe in them. I had been married very young (am just thirty now) and was devoting my entire time to the care of my two children and my home and husband. I made all the children's clothes and my own, even made my hats. I did all my own work and a lot of outside work, I mean such as keeping the lawn mowed, etc. I never had a thought in my head of anything outside my four walls and was like a child in my ideas of the world. As far as putting any time or thought on improving my personal appearance, I never dreamed of such a thing. A wife's duty was to give all her time to her home and children; such was the conception which I had acquired. Then gradually things began to happen. My young husband began to join lodges and was away from home several evenings a week. I had sole care of the children, sick and well. My husband began to be abusive and it was plain to see his love was not the same. It became almost more than I could stand.

Well, I began to see life in a different way. I began to think that maybe there was something more than giving all one's thought to people and never expecting anything in return. There was a reaction. I determined to devote some time to myself. I did not neglect my children, but I did spend less time keeping my house clean. My health was poor, owing to

the way I had been living. I began to buy ready-made clothes, and pretty ones. I studied myself and learned to dress myself becomingly. I gave pretty hair and I learned to do it in attractive ways. But I had no color and so I used a good rouge, cleverly, and a good powder. Also I did everything possible to bring out every hint of prettiness.

The result? My husband began to notice me; began to feel proud of me and fell in love all over again. My children adore me because I am so young and don't look like the "other kids' mothers", and I am the best pal they have. Children like to have a young mother, and they like to have her look young, too. As far as painting and powdering, I say if they are used with discretion and cleverly they are just as commendable and necessary to a woman's well-groomed appearance as a neat, becoming gown. How many women who criticize paint and powder wear false hair? Wouldn't it be funny if they all answered truthfully?

MRS. M.

David L. Day, now 88 years old, of Cheyenne, Wyo., recently visited his old home at Paris, Ky., covering the entire distance by automobile. In 1858 Mr. Day left Paris, driving a pair of Oxen to a wagon to try his fortune in the far west.

German Taxi Rates Mount; Hundreds of Idle Machines

(By Associated Press.)
BERLIN, Oct. 29.—Taxicab and droschky drivers in Berlin, as numerous now as before the war, have so little to do that many of them stand all day at their places without a single fare. They have increased their prices 10 to 15 times the old rate but the cost of living has kept pace with the increase and some of them are in abject poverty. There are a few smart equipages, the obvious pride of the owners, but most of their vehicles present a battered, forlorn aspect.

A droschky driver, whose tall hat was dirty and broken and whose clothes were patched in many places, perked up eagerly at the prospect of a fare but when he discovered only a questioner lapsed into his customary lethargy.

"I've had only three fares in two days and have not earned enough to feed my horse," he said.

"Before the war we were very busy. People then went pleasure riding, and always called a cab to go to their offices. Now the Germans cannot afford it and the majority of the foreigners have their own automobiles."

On either side of the parkway down the middle of Unter den Linden hun-

dreds of taxicabs and droschkies are parked, waiting for customers. They take their turn at calls from the hotels and they consider they are lucky to get one "long-haul" customer a day.

Chicago's normal annual factory output is valued at \$3,000,000,000.
