

AUSTRALIAN CHEMIST FAVORS EATING ONLY WHOLE WHEAT BREAD

(By Associated Press)
ADELAIDE, Australia, Nov. 19.—Dr. Hargreaves, a distinguished Australian chemist, declared at a conference of master bakers here that the nations which eat white bread are getting close to the border line of neuritis. He advocated brown bread, saying that modern science demanded that wheat should be milled whole.

He said that, undoubtedly, campaigns in favor of whole meal bread will be shortly launched in the United States and England, but it behooved Australia to take prompt action.

The members of the conference agreed with the doctor's observations, but said that Australians, with the exception of cranks and dyspeptics, refused to eat brown bread.

GOLD VALUE SLUMPS; PROSPECTORS QUIT

(By Associated Press)
DENVER, Colo., Nov. 19.—The Black Hills prospector, that unique character who has furnished many a theme for novels built around man's quest for gold, practically has disappeared from South Dakota. B. C. Yates, of Lead, S. D., declared today in an address before the twenty-third annual convention of the American Mining congress.

Passing of the prospector has been due primarily to the fact, according to Yates, that "the gold taken from the mines does not have sufficient value to pay the cost of production." He described the gold industry in the Black Hills as being "in a state of disintegration."

"In every mining community of the hills are to be found empty houses and deserted prospectors' cabins," he said. "The gold industry," he continued, "is face to face with a grave crisis, brought about by the world war and the shortsighted policy adopted by the government of breeding without feeding the one industry absolutely essential to the life of any civilized nation at all times."

**Fears of Plane Disaster
Dispelled by Discovery**
(By Associated Press)

HAVANA, Nov. 19.—Fears that the hydroplane, Santa Maria, which left Key West at 4:30 o'clock yesterday afternoon for this city had been lost, were dispelled early today when reports were received that the machine had landed at Santa Cruz, a small port 15 miles from here. The captain, pilot and mechanic and six passengers carried by the plane were reported safe.

The trip from Key West to Havana can usually be made by an airplane in 90 minutes, and when the machine failed to arrive, there was some uneasiness here. It developed, however, that the pilot of the machine found the sea off the harbor of Havana too rough and made for Santa Cruz, the harbor of which is land locked. Wire communication between Havana and Santa Cruz was interrupted during the early hours of last night and this prevented an early report of the machine's arrival there.

The greatest snuff-taking country in the world is France, though it shows a decline in the habit.

Boy, 12 Years Old Reaches Highest Note

(By Associated Press)

NEW YORK, Nov. 19.—Among boy prodigies, Edward Rochie Hardy, 12-year-old Columbia freshman, may boast the mastery of a dozen languages and Samuel Rzeschewski, 9-year-old Polish chess wizard, recently checkmated 19 West Point strategists in a row—but neither of them can sing. Robert Murray, 12, of Tacoma, Wash., can. Yesterday before a group of famous metropolitan stars including Mme. Frances Alda, who "discovered" the youth last summer, Murray not only reached with ease the high notes in arias of Gai-Curiel and Te-trazini fame, but, to the astonishment of his hearers, he transposed those high notes to a higher key and breathed them with equal facility and resonance. The singers who heard the performance asserted this was the highest note ever reached by the human voice.

Southern Governors Attend Negro Education Conference

(By Associated Press)

ATLANTA, Ga., Nov. 19.—A citizen's conference having as its aim the improvement of facilities for the education of 12,000,000 negroes in southern states opened here today with a number of southern governors and state superintendents of public instruction in attendance. It continues tomorrow.

The meeting was called by United States Commissioner of Education Claxton and in addition to state officials, the presidents of white and negro industrial schools, colleges and universities and prominent men and women of the South were invited.

Two sessions of the conference will be devoted to a discussion of colleges of agriculture and mechanical arts for negroes as set forth in a report by Dr. Walton C. John, of the Federal Bureau of Education, who has just concluded a survey of these institutions. Industrial education in schools other than the land-grant colleges, which are supported, in part, by federal funds, and the training of teachers for negro schools will be discussed at other sessions.

Visitor Offers Suggestion To Improve Streets of City

The first recognition of the desire of Richmond's citizens to make this a first class city in every particular, as far as the proposed Chamber of Commerce can do so, came in the form of a letter to the Palladium received Friday. The letter follows:
Richmond Palladium,
Mr. Editor. Dear Sir:

Clipping enclosed. If the city would have crosswalks swept free of snow it would help.
Very truly,
C. M. Van Sicken,
(Soap Salesman)

Enclosed in the same envelop was a copy of the ad, "Let's make Richmond the best place in the world to live in!"

Rabbit Bone is Souvenir Taken by American Woman

(By Associated Press)

PARIS, Nov. 19.—Sadi Lecointe, the winner of the Gordon Bennett Cup race for aviators was just ready to go up from the Buc Aviation field the other day when an American woman stepped up and asked:
"Won't you take me up?"
"Surely," replied Sadi, "where do you want to go?"
"To Gambais, I do wish to see that Landru villa."

Sadi obliged, landing within 100 feet of the villa made famous by the disappearance of 11 women to whom Landru had promised marriage. When she left she carried away a souvenir in the shape of a piece of rabbit bone found in the yard.

"Nothing is sacred for these Americans," Landru said when he heard of the occurrence.

**TURKS ISSUE ULTIMATUM
DEMANDING GEORGIAN LAND**

(By Associated Press)

CONSTANTINOPLE, Nov. 19.—The Turkish Nationalists have issued an ultimatum to the Georgians demanding the cession of the provinces of Kars, Ardahan and Batum and the free use of the Georgian railway. The Georgian government is reported to have replied that it was ready to turn over the use of the railway to the Turks provided they did not insist on the cession of territory.

RHINOCEROS HORN IS PRESENTED TO MUSEUM

NEW YORK, Nov. 19.—The horn of an Indian rhinoceros, presented to Pope Gregory XIV in 1590 to protect him against poisoning by its putative medicinal properties, has been donated to the American Museum of Natural History in this city.

The horn, given to the pope by the prior and brothers of the Monastery of St. Mary of Guadalupe in Spain, was credited with sweating in the presence of poison, by way of warning, and it powdered and taken internally, with acting as an antidote.

The tip is missing. It was cut off in 1591 and administered to the pope in his last illness.

Paris Business Houses Set Nov. 25, "Loan Day"

(By Associated Press)

PARIS, Nov. 19.—November 25 has been decided upon by the presidents of all the Chambers of Commerce of Paris, as "Loan Day." On that day, the Chambers of Commerce have resolved, all the receipts taken by business houses in Paris shall be invested in the new six percent loan.

"Apart from payments for goods sold previously, you shall bring to the state in exchange for loan certificates, all the money spent by the public that day, whether for nourishment or for amusement, for clothing or for lodging."

PUSH HARD COAL MINING
(By Associated Press)

PHILADELPHIA, Nov. 19.—Production of anthracite is now going forward at a normal rate, and has been doing so since operations were resumed following the "vacation" strike of the mine workers last September, said a statement issued today by the Anthracite Bureau of Information.
