

ROUTINE BILLS AND PREPARATORY WORK TO OCCUPY CONGRESS

(By Associated Press)
WASHINGTON, Dec. 6.—Passage of the annual appropriation bills and preliminary work on matters to be rushed by the new administration were expected to occupy much of the time for the last session of the Sixty-sixth Congress which began today to continue until the inauguration of President-elect Harding on March 4.

Sessions today were limited to the usual formal ceremonies in the Senate and House. Tomorrow the annual message from President Wilson will be received and congress then will get down to the real work of the session. Receipt from Secretary Houston, of the annual federal appropriation estimates, aggregating several billions of dollars, was one of today's events.

Day's Program Arranged.
Adjournment until tomorrow out of respect for the house members who have died since the closing of the last session in June, and to await the President's message, was arranged to follow today's routine. This included the chaplain's prayer, roll calls of membership and adoption of resolutions to notify the President and each body of today's assembling. Senator Lodge, of Massachusetts, the Republican leader, had charge of these resolutions in the Senate, and Representative Mondell, of Wyoming, still on crutches from a recent accident, acted similarly in the House.

These were the only immediate changes resulting from the November election, none of the new Senators or Representatives taking their seats until after March 4. The session beginning today, however, was the last for many members, including prominent veterans, who retire with sine die adjournment next March.

Consider Kendrick Bill.
The Senate's unfinished business, pending and awaiting debate, with protracted discussion in prospect, included the Kendrick bill to regulate the meat packers and other adjuncts of the livestock industry. The bill was expected to be the vehicle for numerous speeches and other debate by senators on political events, domestic and foreign, and many other subjects. The house also had many bills waiting on its calendar.

Although all pending bills when Congress adjourns in March will be general legislation was planned for the present session by leaders. The appropriation bills, originating in the house, were to be given right of way, in the hope of passing all by March and having the decks clear for other legislation in the proposed special session of the new Congress next April. Many new bills and resolutions were ready for introduction, however.

Will Follow Harding.
With general expectation that wishes of President-elect Harding and other Republican leaders would prevail regarding legislative action during the present session, no immediate move regarding American international relations was contemplated by the Republican leaders. There was much speculation today among returning members of Congress whether President Wilson would return the Treaty of Versailles to the Senate.

Treaties before the Senate foreign relations committee, without prospect of early action, were the Polish treaty, the proposed Anglo-American-French pact, for protection of France and the treaty with Columbia. The Austrian treaty has not yet been submitted by President Wilson.

Revenue and taxation questions are to have early consideration of Senate and House leaders and committees, but general sentiment appeared to be for deferring action until after President Harding's inauguration. Preliminary work on bills to revise tariff and internal revenue probably will be started during the present session, however, to expedite action at the new session.

DEC. 15 LAST DAY FOR PAYING INCOME TAXES

Fourth installments of income and excess profits taxes due this year must be paid Dec. 15, and must be in the offices of Collectors of Internal Revenue or branch offices by midnight of that date to avoid penalty, according to statements sent out Monday.

An impression is said to exist that taxpayers have 10 days grace on such taxes due Dec. 15. Such a provision was contained in the 1917 revenue act, but was removed by the revenue act of 1918. No extension can be granted under the law.

Payment of the fourth installment may be made in cash or by money order or check. The Bureau of Internal Revenue urges that whenever possible payment be made by check or money order. This method helps the collector's office and avoids congestion. Check or money order should be made payable to "Collector of Internal Revenue."

According to the commissioners, bills will be sent to taxpayers, but failure to receive a bill does not relieve a taxpayer of his obligation to pay on time.

SUCCESSFUL EXHIBIT OF PRODUCTS CLOSES

The exhibit of Richmond-made products which was held at the Y. M. C. A., all during last week ended with a large crowd in attendance Saturday afternoon and night. During the entire week actual count showed that over 9,000 people attended the show, in which 116 manufacturers of the city participated.

Saturday's program was of a musical nature and industrial people of the city were the guests. Over 1,500 of these attended Saturday night. Souvenirs were distributed by several firms.

The success of the enterprise, which is something new for Richmond, is attributed to the members of the committee in charge which consisted of Horace Kramer, chairman, H. Ray Robinson, Howard Hunt, Fred Bartel, T. B. Jenkins, Willard Carr, Eugene Quigg and Clarence Gennett. Secretary Julian Smith, of the Y. M. C. A., was pleased with the support given the show by manufacturers and the interest shown by citizens of Richmond. The displays were removed Monday morning and regular activities of the association were resumed in the gymnasium.

him that Mr. Hoover must be taken into the cabinet because of his admitted ability and his public following, and others who will tell him that Mr. Hoover is too closely identified with advocacy of the league of nations to be satisfactory to those who composed the Republican majority in the recent election. It has always seemed to me unfortunate and unfair to everybody concerned that all this discussing and surmising should have taken place. Senator Harding is entitled to name his own cabinet and stand or fall by it.

Two Policies Possible
In appointing the cabinet, there would seem to be, from Mr. Harding's point of view, two possible lines of policy. One would be to name a cabinet of distinguished men already well known to the public and commanding the public respect—a cabinet which

YOUR RHEUMATISM

Remove Its Cause by Purifying Your Blood.

One of the most important duties of your system is to burn up certain substances no longer of use in your body. One is uric acid, now generally held to be the cause of rheumatism. It inflames the joints, stiffens the muscles, causes pains, aches and lameness.

The system is helped to dispose of this troublesome substance, and rheumatism is permanently relieved by Hood's Sarsaparilla, the one true blood purifier. It is added in many cases by Hood's Pills, which in small doses are a gentle laxative, in larger doses an active cathartic. A grand course of treatment, economical and effective.—Advertisement.

would be received by the public with the feeling that here is a group of men well known to be able and experienced—appointments which would at the outset enlarge and crystallize the favorable attitude the public now has toward the incoming administration. This policy, however apparent its advantages, has also its defects. The men selected wholly on the basis of their individual ability and their individual standing with the public might or might not make a good team. The other policy would be for Mr. Harding to consider that his administration is to be judged not by its

beginning but by its ending. This policy would lead him to appoint a group of younger men, less well known to the public, perhaps, but known to him to have not only individual capacity for their various posts, but to have also the capacity for team work among themselves and for growth in the public estimation.
