

PROGRESS IN HOUSE ORGANIZATION URGED BY WAYNE CO. MAN

In order to avoid delay in handling problems that will come up in the next session of the state legislature, through the fight for the speakership, now impending, James M. Knapp, representative from Wayne County, has proposed a plan of organization whereby the matter may be settled at once without consuming valuable time.

His proposal is embodied in a letter to E. M. Wasmuth, a copy of which follows:

Hagerstown, Ind., Dec. 4, 1920.

Mr. E. M. Wasmuth,

Indianapolis, Ind.

Dear Sir:

I have been giving the question of the selection of a Speaker for the House of Representatives considerable thought. I have been hoping all along that conditions would be such that would enable the House to enter into what promises to be one of the most important sessions of the General Assembly, without first having had to go through a long drawn out contest for the speakership. It is now about five weeks until the time of the usual pre-legislative session opens, but I believe, that for the best interests of the people of the State, and to make sure of a more harmonious working body, that this precedent be not followed, but that the Republican House members should assemble without delay and decide now who they wished to be speaker. I would suggest however, that consent of all speakership candidates be secured, before such a call is made. Such a plan as this would give the "Speaker To Be" ample time to carefully work out his committee assignments so that he would be ready to announce them on the opening day of the session, and get down to business without the delay that has attended sessions in the past. The people of the State have a right to expect that the prospects for a real constructive legislative session shall not be injured in the outset by petty jealousies and fights that often result from such contests as these. Therefore I am for getting this matter settled at an early date, and then every fellow lend a hand toward giving the State a real constructive legislative programme.

Yours truly,
JAMES M. KNAPP,
Rep. Wayne County.

DEFINITE APPROVAL OF NATIONAL PARK SYSTEM IS SOUGHT

(By Associated Press)

WASHINGTON, Dec. 7.—Definite approval by Congress of a comprehensive plan for development of the national park system will be sought by the National Park Service of the Department of Interior in submitting its 1922 appropriation estimates.

The estimates, which were outlined in a statement today by the Park Service, total \$2,473,594, and provide for construction of roads, sanitary systems, camping grounds and electric lighting plants for the public camps and hotels in addition to the regular expenses of maintenance and administration. The estimates exceed the appropriation for the current year by approximately \$1,500,000—all of which the service plans to use in inaugurating its development program.

"The increase asked for," the statement issued by the park service said, "is admittedly large, but it should be remembered that these pleasing

RECOMMENDED TO SCHOOL CHILDREN

This is the season when children are subject to croup, colds and coughs. Rena C. Marchand, 38 Lawrence St., Salem, Mass., writes: "I used Foley's Honey and Tar with good results. I had a very bad cold and it gave me relief at once, so I recommended it to every child that goes to school." This standard, low priced medicine loosens and clears mucus and phlegm, checks strangling coughing, makes easy breathing, soothes and heals raw, inflamed membranes, and stops tickling in throat. A. C. Luken & Co., 639 Main. —Advertisement.

GREEK PRINCESS ENGAGED TO WED ROUMANIAN PRINCE

Princess Helen.

The engagement of Princess Helen of Greece to Crown Prince Charles of Roumania has been announced. The princess is the daughter of ex-King Constantine of Greece. The crown prince entered into a morganatic marriage with Mile, Zeza Lambino, a Roumanian girl, in 1919.

grounds, the property of the people, comprise an area larger than the combined states of Massachusetts and Connecticut.

The service said it would submit with its estimates figures showing that each year the national parks return to the federal treasury in the form of revenues a large dividend on the investment. These revenues in the 1920 fiscal year were said to have amounted to approximately 35 per cent of the cost of maintaining the parks that year while the revenues this year are expected to amount to 40 per cent of the year's cost. The suggestion is added that should the development program be approved it is expected that the revenues within a few years will be brought to a figure approximating the cost of administration, maintenance and protection.

Doctor Said Lungs Might Last 6 Months

Mrs. Anthony Thought Her Time Had Come. Found Road to Health, Gained 40 Pounds.

"I want to tell others what Milks Emulsion has done for me. Doctors told my husband that I would not live 6 months, and said I had tuberculosis. When I began taking your wonderful medicine I began to get better and am now strong, able to do all my work. Weight 40 pounds more, have a good appetite and sleep fine at night. Before using Milks Emulsion I could not do anything, had to sleep in a chair, had no appetite and thought my time had certainly come."—Mrs. Robert M. Anthony, Box 63, Guil, Ala.

To give your body strength to resist disease, try building it up with Milks Emulsion. A trial costs nothing.

Milks Emulsion is a pleasant, nutritive food and a corrective medicine. It restores healthy, natural bowel action, doing away with all need of pills and physics. It promotes appetite and quickly puts the digestive organs in shape to assimilate food. Chronic stomach trouble and constipation are promptly relieved.

This is the only solid emulsion made, and so palatable that it is eaten with a spoon like ice cream. Truly wonderful for weak, sickly children.

No matter how severe your case, you are urged to try Milks Emulsion under this guarantee—Take six bottles home with you, use it according to directions and if not satisfied with the results, your money will be promptly refunded. Price 75c and \$1.50 per bottle. The Milks Emulsion Co., Terre Haute, Ind. Sold by druggists everywhere.—Advertisement.

Far Sighted Policy is Needed in Internal Affairs, is Report

(By Associated Press)

WASHINGTON, Dec. 7.—Need of a far-sighted government policy with respect to many of the country's internal affairs is emphasized in the annual report of Secretary Payne, made public today at the Interior Department. Lack of a definite aim was said to affect particularly the administration of activities in Alaska, in dealing with the Indian tribes, in preservation of the national parks and forests and again in handling the greater reconstruction problem of maintaining a high agricultural production.

While Mr. Payne criticized the uncertainty which he said surrounded many activities, he commended as a strong constructive step the action of congress in making possible the "superpower survey" of the region between Boston and Washington with a view to the development of a unified system of power generation and distribution. This investigation, made under the direction of the Interior Department, will be completed and the committee's report given to the public about next June, the secretary said, adding that he believed it would deserve public confidence.

Transportation Problem.

On the subject of Alaska, the secretary said the primal problem was transportation and advocated the operation of a government owned steamship line in order to insure development of the territory's resources. Two lines now serve the region, but Mr. Payne indicated their service was not satisfactory. He suggested their consolidation as a means of improving the service but this apparently was impossible.

The government railroad in Alaska is to be a total of 540 miles in length will be completed and in operation in 1922, Mr. Payne reported. He added that it tapped fields of untold mineral wealth and praised the work of the engineers in the progress made.

In connection with Secretary Payne's discussion of Alaskan transportation, Governor Bliss, the territorial executive, urged the establishment of a tonnage tax on all shipping to and in the territory and the building up with the fund thus raised of "regular and reasonable service upon equitable rates and schedules." He advocated also

An Old Recipe to Darken Hair

Sage Tea and Sulphur Turns Gray, Faded Hair Dark and Glossy.

Almost everyone knows that Sage Tea and Sulphur, properly compounded, brings back the natural color and lustre to the hair when faded, streaked or gray. Years ago the only way to get this mixture was to make it at home, which is messy and troublesome.

Nowadays we simply ask at any drug store for "Wyeth's Sage and Sulphur Compound." You will get a large bottle of this old-time recipe improved by the addition of other ingredients, at very little cost. Everybody uses this preparation now, because no one can possibly tell that you darkened your hair, as it does it so naturally and evenly. You dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time; by morning the gray hair disappears, and after another application or two, your hair becomes beautifully dark, thick and glossy and you look years younger.—Advertisement.

Chart Independence Is Urged by Admiral

(By Associated Press)

WASHINGTON, Dec. 7.—The United States should not be subject to the danger of having to rely on foreign countries for charts for American vessels, Rear Admiral Edward Simpson,

Hydrographer, says in his annual report today to Secretary Daniels. He recommends legislation to augment the staff in the hydrographer's office to remedy the present situation.

"With the present force this dangerous dependence on foreign charts in certain localities, notably Europe, Australia and the East Indies, will continue for forty years or more," the report asserts.

In Wichita, Kas., it has been decided to use the churches as polling places in the future, owing to a protest from the women against being obliged to vote in livery stables, barber shops, undertaking parlors and similar places.
