

CHILEAN NEWSPAPERS EXPECT CONSIDERATION OF PERUVIAN DISPUTE

(By Associated Press)
SANTIAGO, Chile, Dec. 8.—Chilean newspapers did not expect that the 40-year-old dispute between Chile and Peru for possession of the territory of Tacna and Arica would be taken up by the League of Nations' assembly at its first meeting in Geneva this month. (Bolivia and Peru had requested the League of Nations to revise their treaties with Chile. Bolivia wanted access to the sea and Peru wanted a reconsideration of the Tacna-Arica agreement; but both these requests were withdrawn early in the session, thus preventing the possibility that the league might encroach upon the Monroe Doctrine by considering those questions in the absence of the United States.)

Newspapers here expressed the belief that the League of Nations would not touch any American questions until it was decided whether the United States would enter the league and under what conditions. El Diario Ilustrado said:

"What does the problem of Tacna and Arica, proposed by our northern neighbors, signify to the Society of Nations? It has waited years and can wait longer without any ill resulting to the world and to America. As soon as it is seen its solution is not simple, because our country asks the application of a treaty (the treaty of Ancon) and Peru does not wish to recognize it, the question would be postponed until a less pressing time in world affairs." The newspaper expressed the opinion that it would be very difficult for the league to attempt even "the initiation of consideration of American affairs without the concurrence of the United States."

An interesting point not generally known in connection with Chile's preference to the League of Nations is that it carried this reservation: "The government of Chile reserves the right of considering modifications or reservations to that pact that may be made by nations signatory to the Treaty of Versailles and which have not ratified it up to the present." The date thus referred to was November 4, 1919. This reservation would leave the opportunity open for Chile to adopt reservations subsequently made by the United States.

AUTOMATIC INSURANCE FOR BRITISH WORKERS AS RESULT OF NEW ACT

(By Associated Press)
LONDON, Dec. 8.—Eight millions of British workers become automatically insured against unemployment under the Unemployment Insurance Act of 1920, which has just come into operation.

This new act extends compulsory insurance against unemployment to practically all persons in receipt of remuneration not exceeding £250 a year.

After a "waiting period" of three days of unemployment, beneficiaries become entitled to 15 shillings per week for men, 12 shillings for women, seven and one-half shillings for boys under 18 and six shillings for girls under 18.

To qualify for benefit an insured person must not quit her job without good cause and must not have been discharged for misconduct or have gone on strike. She must also be no refusal of a suitable job offered, and should a dispute arise on the question of "suitability," the insured person may appeal to a court of referees. Not more than 15 weeks' benefit may be drawn in any one insurance year.

Employers are free to set up insurance schemes of their own giving equal or greater advantages. The state rate of contribution to such special schemes or contracts will not exceed 30 per cent of the amount paid to the general scheme, as it is taken for granted that in industries with insurance systems of their own, the rate of unemployment will be lower than in other trades.

243,320 Pensions Paid To Civil War Veterans

WASHINGTON, Dec. 8.—Pension disbursements for the fiscal year 1920, aggregated \$213,293,314, according to the annual report of Commissioner Saltzger of the pension bureau, made public today. The figures showed a decrease of about nine million dollars from the 1919 totals and the report recorded the death during the year of 27,871 Civil War pensioners, leaving 243,320 soldiers of that war on the pension roll, in addition to 290,100 civil war widows.

While no survivors of the war of 1812 were shown, 71 widows of soldiers in that war are receiving government pensions. Only 148 Mexican war survivors were reported and 2,423 Mexican war widows.

Survivors of the world war do not show on the roll. Their dependents alone are carried, such as invalids, widows, minor children and mothers and fathers of regular army soldiers for a period prior to the application of war risk insurance legislation.

KOREAN MALCONTENTS BELIEVED BROKEN UP

(By Associated Press)
TOKIO, Dec. 8.—Armed bands of Korean malcontents have been broken up as the result of important skirmishes which extended over several days near Changtao, Korea. It is officially reported.

The Koreans, who held forest positions, are reported to have fought stubbornly. The Japanese captured three machine guns and 500 rifles. One machine gun was manufactured by an American firm and bore the British crown, the official mark placed on arms used in the British army.

Reprisals were carried out against one village where the inhabitants gave false information which led Japanese troops into ambush. Seventy houses were burned and a number of villagers were shot. In another town 130 houses, several churches and school buildings, as well as other structures, were destroyed and 90 persons were executed, it is said.

BOLIVIAN CITIZENS DEPRIVED OF RIGHTS BY REIGNING FORCE

(By Associated Press)
VALPARAISO, Dec. 8.—More than 100 citizens of Bolivia either have been deported or are unable to enter that country as the result of the revolution there last July, according to a manifesto issued by Bolivian political exiles here. Among the number are President Guerra, who recently went to the United States after being deposed, and others are described in the manifesto, as "some of the most eminent men of the nation," all members of the Liberal party.

Included in the list of those barred from entering Bolivia are: Ignacio Calderon, for many years Bolivian minister at Washington; Ismael Vasquez, vice president of the republic; the Bolivian ministers to Japan, Venezuela, Ecuador and Colombia; Josie M. Gutierrez, consul general at New York; Alberto Palacios, consul at San Francisco; the ministers of foreign relations and war, army officers, senators, deputies and a long list of public functionaries under the old regime.

The manifestos assert that these men are denied the political rights by the "situation of force now reigning in Bolivia and by the violent rupture of constitutional order."

The Bolivian liberals residing in Chile have formed a committee to re-organize their party for the avowed purpose of maintaining high national ideals.

The revolt at LaPaz occurred July 12. Jose Zavaedra, a republican, was proclaimed provisional president. The constituted authorities were deposed and three or four days later many of them were deported in special trains to Chile.

Recent advices received from the Bolivian capital were to the effect the elections would be held soon, and that a constitutional convention would be called shortly afterward.

Argentine Depression Explained to President

RIO DE JANEIRO, Dec. 8.—Financial and economic troubles in the Amazon region, due to the fall in the price of rubber, were explained to President Pessoa this week by a deputation representative of Amazonian commercial interests which journeyed

from the north to reiterate views already placed before the government in written memorials.

The commission suggested the taking of measures to stop the fall in the price of rubber and prevent the product being handed over to foreign trusts. It also suggested the opening of credits to European rubber consuming countries similar to the convention recently concluded with Italy for the purchase of Brazilian foodstuffs.

President Pessoa promised to give the matter earnest attention.

FEW HUNTING ACCIDENTS

HOUGHTON, Mich., Dec. 8.—The 1920 deer season, which came to a close this week, was notable for the small number of hunting accidents. To date but two fatalities have been reported, with only three or four wounded. This is considered a remarkable record in view of the large number of hunters in the woods and a congestion made unusual by the short season of 10 days.

From the hunting period just ended the following facts were deduced: The season was the shortest on record; there were fewer accidents than in any previous year; the number of hunters equalled the quota of a year ago, fully 5,000 crossing the straits into the upper peninsula; the deer slaughter was one of the heaviest in Michigan's history, according to all available reports, in spite of the short season.

The large number of deer killed is expected to strengthen the position of sportsmen favoring a closed season.

(By Associated Press)
WASHINGTON, Dec. 8.—Mrs. Muriel MacSwiney, wife of the late Lord Mayor of Cork, and Miss Mary MacSwiney, her sister-in-law, were the principal witnesses to appear today on resumption of hearings by the commission of the committee of one hundred investigating the Irish question. The two women received an impressive greeting from hundreds of Irish sympathizers when they arrived here last night from New York.

Senator George W. Norris, of Nebraska, and Oliver P. Newman, former president of the Board of Commissioners of the District of Columbia, have been added to the membership of the commission since adjournment of the first hearings several weeks ago and were on hand for the session today.
