

## CORK RUINS PROTECTED BY BRITISH

Regulars Stand Guard Over Twisted and Blackened Wreckage Left by Fires of Sunday—Vast Damage.

### TERROR GRIPS PUBLIC

LONDON, Dec. 13.—British regulars stood guard today over twisted and blackened ruins left by the fires which Saturday night and yesterday swept virtually unchecked through the city of Cork, Ireland. Estimates of the loss run as high as \$15,000,000.

Hours of terror were spent by the people of Cork during Saturday night, the wildest disorder prevailing throughout the city. It is said several lives were lost, and despatches declare two brothers named Delaney were called from their homes and shot, one of them fatally.

Two districts of Cork were swept by the flames. In the business section, along St. Patrick's street, from Cook to Saylor, hardly a shop was left unscathed. This was the shopping center of Cork and in untroubled times boasted many prosperous stores. South of St. Patrick's street, the fire ran uncontrolled along Winthrop street and other narrow thoroughfares as far as Old George street. Thus an area of three blocks in this part of the town was reduced to masses of debris. It was not in this district, however, that the loss of the fire was centered.

**City Hall Ruined**  
The magnificent city hall of Cork, located on the southern end of the Parnell bridge that spans the River Lee was also laid in ruins. In addition the Carnegie library, just across Anglesa street, to the west, was burned, and the Corn Exchange, just behind the city hall and to the south, was at least partially destroyed. Reports say Albert quay, lying along the southern bank of the river, is a mass of desolation.

Dispatches reaching London today say that Cork was quiet and that orders had been given the regular soldiers to shoot loiterers on sight. Damaged premises have been plundered in some instances, but it is said that the military is in absolute control at present. Rumors relative to the loss of life are conflicting and are, for the most part, vague and conjectural.

**Retains Not Received.**  
Exact details of the events leading up to the conflagration of Saturday night have not as yet been received here. Some reports tend to question the accuracy of earlier dispatches, but others repeat the story told in first reports. All indicate that the disorders and fires had a direct connection with the attack made upon the lorry carrying police auxiliaries.

Some newspapers are frankly skeptical of these reports and suggest the fires might have been caused by the explosion of stored explosives such as were found in the city of Dublin on Saturday. Others indicate their belief the fires were a reply to the establishment of martial law in southeastern Ireland, and it is remarked that dispatches have not furnished proof that the fires were set by men bent on destruction.

Monsignor Daniel Cohan, bishop of Cork, is said to have announced in his cathedral last evening his intention to excommunicate any one participating in further ambaudances of crown forces in his diocese.

### Bogert, Old Resident Here, To Be Buried Wednesday

Albert R. Bogert, 80 years old, died at 8 p. m., Sunday at his home, 21 North Sixth street, of a complication of diseases. He was born July 10, 1840 in New York, but had been a resident of Richmond for the past 50 years.

Mr. Bogert is exceptionally well known in this community. He was in business here for about 40 years, 20 of which he spent in the confectionery business at Sixth and Main streets. He retired about five years ago.

One daughter, Mrs. Edward Schwegman, survives.

Funeral services will be conducted at 2 p. m. Wednesday, from the home. Burial will be in Earlham cemetery. Friends may call at any time. Services will be private.

### Funeral of Fred W. Jones Is Held Here Monday

Funeral services for Fred W. Jones, 49 years old, formerly a resident of Richmond, but who died in Indianapolis, where he had been living, were conducted from the home of his mother, Mrs. Paulina Jones, 115 West Main street, at 2 p. m. Monday. Burial was in Earlham.

Following the result of autopsy by Deputy Coroner Christian, of Indianapolis, which disclosed that Jones' death was due to natural causes, the reason is being sought for his presence in the territory where the body was found. Dr. Christian's report gave credence to the lungs as the cause of death. It was discovered that Jones was suffering from nephritis and heart disease. The bottle which was found at the side of the dead man, at first thought to contain poison, contained aromatic spirits of ammonia, used by persons for relief from shortness of breath.

### ALL G. O. P. LEGISLATURE OPENS IN MICHIGAN

LANSING, Mich., Dec. 13.—Michigan all-Republican state legislature will convene Jan. 8. The session will be the first one in recent years in which the democratic party is not represented. Two Democrats were members of the last legislature but neither of them made the run this year.

## HARDING AND ROOT CONFER ON LEAGUE OF NATIONS PLANS

(By Associated Press)  
MARION, O., Dec. 13.—Advice on the plan for an association of nations was sought by President-elect Harding today from Elihu Root, former secretary of state and more recently a conferee with leading European statesmen in the formation of a world court under the Versailles league covenant.

The conference, regarded as one of the most important to be held by Mr. Harding in his "meeting of minds" here, is understood to have concerned chiefly the question of how far the machinery of the present league may be used in building a world peace concert acceptable to the United States.

**Favored Reservations.**  
Throughout the league fight, Mr. Root advocated acceptance of the Versailles covenant with reservations and during his world court conference abroad he expressed much faith in the league machinery of the covenant.

Details of his talk with Mr. Harding today were not revealed, however, both he and the president-elect saying his recommendations were entirely confidential.

In asking Mr. Root's advice, Mr. Harding is understood to have sought in particular for suggestions on the practical working of the league as observed by the former secretary of state during his visits to Europe.

**Talked With Hoover.**  
Questions on the same subject were put by Mr. Harding yesterday to Herbert Hoover who recommended that the league machinery with changes be used in rearing the proposed association of nations.

The visit of Mr. Root again brought his name into prominence in gossip about the cabinet selections of the incoming administration. It has been suggested in various quarters that Mr. Harding might ask him to again become head of the state department but their meeting today furnished no outward evidence to support or discredit that report. Dr. John Hasley Hill of New York, also had an appointment with Mr. Harding today to discuss the league and various other subjects.

## STATE DEPARTMENT URGED TO PROTEST MEXICAN CONDITIONS

(By Associated Press)  
WASHINGTON, Dec. 13.—The state department today was petitioned to protest to the Mexican government against alleged "vice conditions" in Tia Juana, Mexico, across the border from San Diego, Cal., and until such conditions were corrected, to deny passports to Americans desiring to go there.

The petition was signed by the mayor and officials and 24 civic and public welfare organizations of San Diego, and was presented by representatives of the Methodist board of temperance, American Federation of Labor, Anti-Saloon League and other national organizations, who declared that San Diego was "suffering seriously" because of Tia Juana's misbehavior. Asking the department to "take cognizance of conditions which allow practically free passage between San Diego and Tia Juana," the petition declared "fully ninety per cent" of arrests made in San Diego were "traceable to evils in Tia Juana." Until these conditions were corrected, the petition said, it would be impossible for San Diego to free itself from prostitution and traffic in drugs.

Discussing the passport situation, the petition said: "One-day permits are granted free of charge and may be obtained without difficulty and, according to reports, the passport offices have even been kept open on holidays and Sunday at certain times to accommodate applicants for passports."

## MUNICIPAL CHRISTMAS TREE IS SET ASIDE

A municipal Christmas tree, brilliantly lighted and decorated as has been the custom for the past few years, will be placed this year at Ninth and North A streets by the city, according to action taken at the board of works meeting Monday morning. The tree probably will be in place a week before Christmas.

Ed Hollarn, city park commissioner; Al Schneider, city street commissioner; Dell Davis, city engineer; and James Dillon, superintendent of the light plant were appointed to secure the trees and have it placed and decorated.

Plans are to have the large cedar tree illuminated with electric lights and the decorations to reflect the holiday spirit of the city. Mayor Zimmerman was especially interested in the erection of the tree and all the members of the board concurred. The board lamented the fact that the tree could not be placed on Main street, but after discussion decided this was impracticable.

The tree will be taken from Glen Miller park and the plan is to have a tree planted for every one that is taken out, thus insuring a supply of trees for future city use.

## Postpone Argument in the Armour Profiteering Case

(By Associated Press)  
NEW YORK, Dec. 13.—Argument on a demurrer on the indictment charging Armour and company, of Chicago, and certain officers of the packing concern with profiteering, set for today in federal court, was postponed until Saturday.

## BLAZE RUINS BEST SECTION OF OHIO TOWN

Business Block of College Corner, O., Practically Wiped Out by Blaze of Unknown Origin.

### HAND ENGINE IS USED

COLLEGE CORNER, O., Dec. 13.—Fire of unknown origin wiped out the largest business block in this town early Monday morning. The blaze was discovered shortly after 2:30 a. m. Total loss is thought to be \$100,000.

The Park Hotel, Selsor's Restaurant, Kubacki's clothing store, Robert's butcher shop, H. L. Baker's grocery and department store, and Barkey's drug store were completely destroyed by the conflagration.

Residents of the town manned the village hand engine and employed chemicals in fighting the blaze.

Fire departments at Oxford and Connersville, Ind., were called but did not arrive until nearly 5 o'clock. By that time the buildings were practically a total loss.

The blaze is thought to have originated in the rear of Selsor's restaurant although the exact source has not been determined.

### Employ Hand Engine.

The hand engine crew fought the blaze with water obtained from the railroad tank and with the chemicals they had at hand. They were powerless, however, in checking the progress of the fire, which spread rapidly through the block. An explosion thought to have been caused by the bursting of a barrel of oil in one of the stores, smashed the plate glass window in Miller's Furniture store, directly across the street from the ruined block. The fire brigade succeeded in saving the furniture store from further damage.

The fire did not spread to the residence section as the business block stood apart with some space between it and adjoining buildings.

Harry Earhart, a local man, suffered a broken arm when the roof of the Tark hotel caved in carrying him down with a mass of debris. Several persons suffered minor burns.

The Richmond fire department was called about 1:30 p. m. but as the Richmond department does not carry a pump it was unable to respond to the call.

The hotel was next to the last building to burn and the occupants had plenty of time to escape in safety. With the exception of a small amount of furniture, the hotel property and buildings were total losses. The amount of loss to the hotel is estimated at \$8,000. No plans had been made Monday afternoon for re-establishment. Between 15 and 20 persons were regular patrons of the hotel. It is thought that these persons will be lodged by the residents until other arrangements can be made.

Kubacki's clothing store had laid in an unusually heavy stock for the Christmas trade and it is estimated that between \$30,000 and \$40,000 worth of stock was destroyed in addition to the wrecked building. Robert's meat shop had a splendid equipment, including a refrigerator of the latest type and other modern fixtures, all of which are a total loss. It is estimated that the loss to the owners of the meat shop would exceed \$6,000.

Baker's department store and grocery also had a large stock on hand, and it is thought the loss to that store would approximate \$15,000. Only a few hundred dollars' damage was suffered by Selsor's restaurant, as the equipment was not complete.

The damage to Barkey's drug store will total \$2,000, it was thought Monday.

None of the owners who suffered losses in the blaze have made any plans for reorganization with the exception of the clothing store. The tentative plan of that establishment was to open a store in some portion of the wrecked building. There are no vacant rooms in the business section of College Corner and no vacant residences in the town.

It is said that the fire was discovered by a number of truck drivers who gathered in the business section early Monday morning preparatory to making their cross-country trips carrying live stock.

### Entire Village Out

Breaking out in the restaurant, the fire spread next to the drug store, thence to the butcher shop and next to the clothing store. The blaze then wound its way to the hotel and spread from that structure to the department store.

The entire village turned out to witness the conflagration, which lighted the sky for miles around, and to help in combating the flames. Farmers within a radius of 10 miles, seeing the blaze, drove to town with families hastily aroused from their sleep.

Many bucket brigades were formed. College Corner possesses seven deep wells and a long line of citizens passed bucket after bucket of water in a futile effort to stem the tide of the mounting flames.

## Call Railroad Official to Explain Woman's Death

(By Associated Press)  
CHICAGO, Dec. 13.—H. C. May, general manager of the Monon Railroad, was called by the coroner today in an effort to clear up the mystery surrounding the death of Mrs. Minnie Viola Reynolds, wealthy young widow, whose body was found in her gas filled apartment Saturday.

## HUNGARIAN JAILED FOR MANUFACTURE OF CORN WHISKY

Police raided the home of George Sito, 535 North Eighteenth street, early Monday morning and found a five gallon still, three or five gallons of mash, a bag and a jar containing small quantities of what was said to be corn whisky. George Sito and Louis Karko, Hungarians, appeared before Mayor Zimmerman in police court Monday morning.

Sito was charged with the manufacture, with intent to sell, of corn whisky and "raisin jack." He denied the charge, saying that the apparatus was left at his house by a boarder several weeks ago, this person having returned to the old country.

### Denies Knowledge.

Patrolmen Bundy, Shores and Ratliff made the arrest. According to the testimony of Bundy in court, Sito denied the knowledge of such an apparatus around his premises. A search was made and the still found in a shed in the rear. Further search of the house showed an opening in the floor of a front bed room occupied by Sito. Under the floor were found the jar, jug and several gallons of mash. Sito refused to explain this discovery.

Evidence showing that corn whisky and "raisin jack" had been made and sold by Sito, was said to be in the hands of the prosecutor, but was not introduced. Mayor Zimmerman assessed a fine of \$100 and 30 days.

Sito is married and the father of five children, according to his testimony. He was said to have been idle for the past few weeks. Karko was dismissed, as there was no evidence of his connection with the affair.

The court ordered the still destroyed.

## TEN DOLLARS SAVE ONE STARVING CHILD SAYS WILSON APPEAL

(By Associated Press)  
WASHINGTON, Dec. 13.—President Wilson today called upon his "fellow countrymen" to contribute funds to save three and one-half millions children "facing starvation in Central Europe." The president announced that he would adopt 20 of these children as his temporary wards, and said that \$10 contributed through the European Relief council would save the life of a child.

"Three and one-half million children are facing starvation in Central Europe," said the president's statement. "It is estimated that they can be fed over until the next harvest by money and service equivalent to \$30 per child. The countries involved can furnish two-thirds of this cost in the personnel and machinery for distribution but for the other one-third they must look abroad and they are looking to us."

The countries involved can furnish two-thirds of this cost in the personnel and machinery for distribution but for the other one-third they must look abroad and they are looking to us."

**Have Been Generous.**  
"Since 1914 our people have given with unparalleled generosity and they should not be lightly called upon for additional charities. But there is a life and death situation in Central Europe where orphans, destitute, famished children, pitiful consequences of the war, must die unless aid is sent. Ten dollars contributed through the European Relief council will save the life of one child. For concerted effort there have been combined in this council, eight well known organizations, namely, the American Relief association, the American Red Cross, American Friends Service committee, Jewish Joint Distribution committee, Federal Council of Churches of Christ in America and Knights of Columbus, Y. M. C. A. and Y. W. C. A."

## Eastern Textile Mills Reduce Operatives Wages

LAWRENCE, Mass., Dec. 13.—First announcement of actual reduction of textile operative wages by large mill corporations was made today by the Pacific Mills and the Arlington Mills of this city. Their 10,000 workers constituting one-half of the operatives of this textile center were notified that a readjustment had been made, effective Dec. 20. In accordance with the custom the amount was not stated but it was understood to approximate 22 1/2 per cent, as suggested by a manufacturer's conference last week.

## Weather Forecast

**MOORE'S SPECIAL FORECAST**  
The extensive Pacific storm will continue to control the weather with rain and strong winds tonight. The wind will shift westerly tonight or Tuesday and cold blustery weather will ensue with local rains or snow. A decided cold wave is now over-spreading the northwest and will gradually increase in size and move southward across the plain, central and southern states to the Florida peninsula and Gulf regions, this week. The first breath of this cold weather will be felt here Tuesday.

**For Indiana, by the United States Weather Bureau.**—Rain and colder tonight. Tuesday unsettled and colder, probably rain or snow in north portion.

**Temperatures Yesterday**  
Maximum..... 54  
Minimum..... 21

**Today**  
Noon..... 57  
Far Wayne County, by W. E. Moore.

—Rain tonight. Tuesday cold and blustery with occasional rain or snow. Weather Conditions.—General rains now cover the Mississippi valley as the great western storm advances. This storm now has a diameter of over 3,000 miles and extends from Alaska to Texas, and from the lakes far into the Pacific ocean. It is the most extensive storm that has existed since last spring. Zero weather is rapidly overspreading western Canada and also moving south into the United States.

## New Governors Sit for Pictures at Conference

Above, Governors-elect J. A. O. Preuss, left, and Charles R. Mabey. Below, Ephraim F. Morgan, left, and William D. Denny.

These portraits of four of the men who will become the chief executives of their states the first of the year were made while they were attending the annual conference of governors at Harrisburg, Pa., recently. J. A. O. Preuss will succeed Gov. J. A. A. Burnquist as governor of Minnesota. Charles R. Mabey was elected to succeed Gov. Simon Bamberger of Utah. Ephraim F. Morgan was elected governor of West Virginia, to succeed Gov. John J. Cornwell. William D. Denny of Delaware becomes governor in place of Gov. John G. Townsend, Jr.

## Attempt to Shorten the Alien Embargo, Contested

(By Associated Press)  
WASHINGTON, Dec. 13.—Advocates of legislation providing for a two-year suspension of immigration were prepared to wage a determined fight on the amendment to the immigration bill shortening the embargo period to one year when the measure came up for debate today in the house.

Early passage of the bill is looked for after the fight to eliminate the amendment, arrangements for which were made at a conference yesterday of advocates of the longer prohibition period, called by Chairman Johnson of the immigration committee.

## STOLEN CAR FOUND IN EATON; MEMBER OF GANG CONFESSES

EATON, O., Dec. 13.—Eaton figured in the unearthing of an alleged gang of automobile thieves operating in Hamilton and Butler county, in that one of the cars allegedly stolen was located and recovered in Eaton, the car having been purchased in Hamilton by a local man.

Operations of the ring extended to Richmond, and an investigation by police officials of Hamilton in the Indiana city Saturday resulted in the arrest of a man residing in that city, for alleged connection with the ring. The car recovered here Saturday, a Ford coupe, was in the possession of David Snavely, driver of an oil truck for the Standard Oil company. He surrendered the car without protest. He declared he traded another Ford car for it and gave \$150 to "boot."

**Statement Verified.**  
His statement was borne out by a check for \$150 that had been cashed, canceled and returned to him. The check was drawn in favor of "Charles Bates," indorsed by "Bates" and reinforced by "Gus Fenebock" or a name similar, the name not being altogether legible.

Exposure of the alleged ring came after the arrest of two men in Hamilton, they confessing and implicating others, according to the Hamilton official in a statement here to Chief of Police Willard Armstrong, who played an important part in recovery of the car that allegedly had been stolen in Hamilton.

**Snavely Discharged.**  
Snavely was cited to appear Saturday evening in a court in Hamilton, which he did, accompanied by Police Chief Armstrong. The canceled check, a satisfactory explanation of the deal whereby he got the car and the admission of one of the men under arrest that Snavely's statement was true, resulted in his discharge, although he is expected to appear as a witness in Hamilton at the proper time.

The official from Hamilton stated that more than a half hundred cars, the majority of which are Fords, had been stolen in Hamilton and Butler county, for which the alleged ring, that has been exposed has the credit, according to Chief Armstrong.

## Artificial Gas Rates Boosted at Winchester

(By Associated Press)  
INDIANAPOLIS, Dec. 13.—Artificial gas rates at Union City, Portland and Winchester, were ordered increased to \$1.50 a thousand cubic feet by an order issued today by the Public Service commission on the petition of the Union Heat, Light and Power company.

## CONTROL OF DANZIG BY POLAND IS ASKED BY COUNCIL OF LEAGUE

(By Associated Press)  
GENEVA, Dec. 13.—Military control of Danzig by Poland has been recommended to the council of the league of nations in a report from the military commission. This recommendation, should it be adopted, would be in line with a request from the Polish government some time ago, it being alleged at that time that military control of the port of Danzig was necessary to insure the transport of food, munitions and raw materials to Poland.

The council has decided to refer the report, along with a suggestion by Viscount Ichij of Japan, that a military commission study the best means to defend the town, to the high commissioner, who will be asked to send in a report.

Separate action by the premiers of France and Great Britain on matters before the assembly of the league of nations are made the subject of sharp comment by the committee on admission of new states. Lord Robert Cecil, representative of South Africa; M. Rowell, of Canada, and Dr. Nansen, of Norway, agree in criticizing the action of those governments in announcing policies regarding such questions as the admission of Armenia though others channels than their representative to the assembly meeting here, who are charged with such problems.

**Comment on Action.**  
Rene Viviani, of France, who has been said to be most particularly annoyed by the declaration of the British and French premiers to the effect that Armenia should not be admitted to the league, was not present today. Comment on the incident continues to be one of the predominant features of the meeting, the opinion being expressed that if powers desire to continue to treat such questions in the old form of diplomatic action, they are not ready for the league of nations.

Leon Bourgeois, of France, has presented a report from the committee on an international court. The plan finally adopted by the committee differs from Elihu Root's plan chiefly in the fact that jurisdiction of the tribunal would be voluntary instead of obligatory.

United States Senator Medill McCormick watched proceedings during this morning's session from the press gallery.

## COURT MARTIAL TRIAL OF WILLER'S BEGINS

(By Associated Press)  
NEW YORK, Dec. 13.—Trial of John A. Willers, formerly captain of Company 1, 48 U. S. Infantry, on a charge of desertion, was begun today before a general court martial at Fort Jay. It was alleged that he deserted his command at Camp Sevier, Greenville, S. C., soon after the armistice was signed.

At the time of his arrest here last Tuesday, Willers was alleged to have confessed to have been connected with the German spy system. Military officers who have investigated his record said that this phase of the case would not enter into the desertion trial. He also is charged with taking \$5,000 of his company's funds. Willers' arrest was brought about when he was identified on Fifth Avenue by an officer who served under him during the war. Willers' uncle lives in Lafayette, Ind.

## MAY DECIDE GAS HEARING LATE TODAY

Presentation of Financial Statement Closes Testimony—Argument by Both Sides—Plant's Income Disputed.

### ACCOUNTANT APPEARS

INDIANAPOLIS, Dec. 13.—Income of the Richmond Light, Heat and Power company available for return on its property amounted to \$41,000 for the first ten months of this year and the last two months of 1919, according to statistics presented today when the public service commission resumed hearing on the Richmond gas case.

This income would provide a gross return of 4 percent, according to the company, which placed a value of more than \$500,000 on its property, but the city officials at the hearing contended that the return could be approximately 7 percent, they placing the value at \$535,000.

### Accountant Testifies

Benjamin Perk, accountant for the city, also contended that the company's report, with numerous deductions which he argued should be made by the commission, would produce an income of \$45,000 available for return. The presentation of the financial statement closed the testimony in the case and was followed with argument by both sides in the case. It was expected the case would be completed late in the day.

## WATER RATE HEARING SET FOR DECEMBER 23

Hearing on the petition of the Richmond City Waterworks for authority to revise its rates for water service to customers in Richmond and Spring Grove will be held before the Public Service commission of Indiana in the State House at Indianapolis, Thursday, Dec. 23, at 10 a. m.

According to Howard Dill, superintendent of the city waterworks, a raise of 25 per cent over the rate that was in effect Jan. 1, 1917, is being asked. A raise of 7 percent since 1917 has been granted by the commission, but according to the company's auditors, this is not sufficient return on the investment, it is said.

The action the city will take in this matter could not be learned, as City Attorney Reller was in Indianapolis.

## TAKE INITIAL STEPS TO FRAME MEASURE PROVIDING REVENUES

(By Associated Press)  
WASHINGTON, Dec. 13.—Initial steps in the framing of new revenue legislation for the coming year were taken today with the opening of hearings before the house ways and means committee, on tax questions and the nation's revenue needs.

Dr. Thomas S. Adams, tax expert and economist of the treasury department, told the committee that the first problem for it to decide was whether the level of taxes should be retained at \$4,000,000 annually. He expressed the belief that no reduction could or should be considered.

### Demands Statement.

Before Dr. Adams began his testimony Chairman Fordney and Representative Gardner, Democrat, of Texas, had a lively tilt when the Texas member demanded that a statement be included in the record, showing the exact purpose of the hearings.

Mr. Fordney finally announced that the committee proposed to gather information on which to base contemplated revision of the tax laws. He said he planned to continue the hearings to December 23, and then adjourn to January 6, when tariff questions will be taken up.

Mr. Gardner objected to this plan on the ground of the terms of office of five of the members of the committee would expire on March 4.

## Farm at Easthaven Saves State \$47,413

(By Associated Press)  
INDIANAPOLIS, Dec. 13.—Operation of the thousand-acre farm at the Eastern Indiana Hospital for the insane near Richmond saved the state \$47,413 in the year that ended last Oct. 1, according to a report made today by the examiners of the state board of accounts.

Easthaven hospital realized a net profit of \$47,413 through the operation of its two farms totalling 1,050 acres during the past year, according to a report made by Dr. S. E. Smith, head of the institution, Monday.

This sum is a surplus above operation costs and means a clear saving to the state of Indiana. Dr. Smith told of the complete equipment of the institution which permits it to conduct its running without outside aid. There are 350 acres of land in a farm adjoining the grounds and a 700-acre farm, known as Wayne farm, about one and a half miles north of the hospital. 16 herd of 80 thoroughbred Holstein cows furnished over \$10,000 worth of milk during the year, according to Dr. Smith. There also are 65 feeding cattle which are used for beef.

## Rev. Tressel, of Baltimore, Is Dead, Says Message

Rev. E. L. S. Tressel, 76 years old, of Baltimore, Md., uncle of Rev. Osborn Tressel of this city, is dead, says a message received here Monday. The funeral will be Monday. The cause of his death is not given.
