

RIDGEVILLE BANK MEN IDENTIFY PICTURES OF KNOWN CRIMINALS

WINCHESTER, Ind., Dec. 11.—Officials of the Ridgeville State Bank, robbed a week ago, by six men, have recognized from photographs shown them by a representative of the Burns Detective Agency, at least one and perhaps two of the men implicated in the robbery, who are alleged to be professionals, in that line. C. B. Brooks, cashier of the bank and one of the officials, also one of the patrons, who were forced to enter the bank vault at the time of the robbery, have said that the resemblance was strong, as regards one of the leaders of the gang, when photographs were shown by the detective. The detective at work on the case in Ridgeville, now, is the same one who was assigned there about 15 years ago when the bank was robbed of about \$8,000 and who afterwards aided in the arrest of the famous Slater, a confessed burglar, who admitted to participation in the Ridgeville robbery, prior to his arrest. Slater, is now dead. He was taken in charge, at Lima, Ohio. The robbery of the bank 15 years ago was the second time the bank was burglarized.

An affidavit has been filed in Squire Coates' court for assault and battery by Lawrence Sipe against his brother, Virgil Sipe. It is alleged that Virgil and his father, Franklin P. Sipe, had a misunderstanding which resulted in a family fight, the mother having to separate them, after the father had received severe punishment. The Sipes reside near Saratoga. They will be given an early hearing.

Germany, Poland, Near East to Receive Christmas Mail
(By Associated Press)
NEW YORK, Dec. 13.—Christmas cheer for the peoples of the war-torn nations of Europe, refugees in the Near East and American soldiers abroad is going forward through this port in greater volume than ever before. Post office officials here estimate that the volume of the 1920

Christmas foreign mail will approach twice the amount of previous years. Thousands of packages have already been received here from all parts of the country and postal officials prepared for an unprecedented rush during the first two weeks of December. The bulk of the mail, officials state, is being sent to Germany and Poland and comprises principally foodstuffs and clothing. Italy and the Balkan states will also receive large shipments with smaller amounts going to France, Britain, Norway, Sweden, Belgium and the Latin-American countries.

In addition to the Christmas packages going direct by parcel post and by express, various American relief organizations are planning to bring something of the season's spirit to many thousands of destitute children. The Near East Relief has made elaborate Christmas plans for the refugee youngsters in the Near East and the Red Cross has planned cheer for children in the various districts in which it is operating.

At some points in the interior, wages for cooks are even lower. Many of them live in mahogany houses, at that.

American Sergeants Ration Changed by King George
COBLENZ, Nov. 25.—Sergeant Guyon of "B" Troop, American Forces in Germany, has the distinction of having had his ration changed by direct orders from King George. When the American army polo team from Coblenz was in England recently, Guyon had charge of the ponies at Aldershot. The king visited the field and was attracted by the ponies' blankets bearing the letters "A. F. G." He approached to inspect them and addressed Guyon.

"Well, how are you getting along in England?"
The British Tommies nearby standing rigidly at attention, were petrified by Guyon's reply: "Oh, pretty well King, but say, this tea we have for breakfast is fierce; can't you fix it up so we can have coffee?"
The king laughed and addressing one of his aides said: "See to it that these men have coffee hereafter." And the Americans had coffee.

CHICAGO, Dec. 13.—Ammonia gas bombs will be used by Chicago police to drive criminals into the open when they barricade themselves in buildings. Chief of Police Fitzmorris announced today. The gas will be contained in regulation army hand grenades. Dead plugs will be used to cork up the grenades and a four-inch fuse attached will melt the lead when lighted, and release the gas, according to the scheme devised by city engineers.

Such procedure, it is stated, would release the sum equivalent to about \$200,000,000 which banks throughout the country are now keeping in their coffers. Pro-government newspapers state that this solution is being carefully studied by the president.

Periodical monetary crises in Brazil are said by business bodies to be largely due to the lack of elasticity

in the credit system and the inadequacy of the present volume of circulating currency for the increased volume of trade.
