He made a plea that religious training be kept within the province of the hearth and voiced a hope for a revival of religious reverence in the trying times ahead. The president-elect also asked that the public welfare agencies of the nation be kept democratic and expressed disapproval of the practice of the rich in withdrawing their children from the public schools and entering them in private institutions. He reaffirmed his hope that great good would be accomplished by the new public welfare department to be proposed by his administration and said he had found sentiment in and out of the congress strongly supporting the plan.
