CHICAGO, Dec. 16.—Since Dec. 8, March wheat has ranged \$1.56 to \$1.67. The effect of the bearish Dec. 14 report should disappear tomorrow. May corn at 68½ looks discounted. New York claims 3,000,000 wheat taken, with the British absorbing 1½ million. Wheat and corn should dip a little overnight and again should become a buy. Primary corn receipts will run about 3,600,000; fairly good but not really large. Winnipeg message says largest short interest in wheat in many years. Minneapolis wheat premiums unchanged. United States business news as usual, bearish, talking hard time for 1921. New winter wheat report due 11:30 a. m. tomorrow. Acreage may be 36,000,000. Conditions 90 per cent or above. Basis of a 19 corn yield promise should exceed 600,000,000, which is very large. Rye report also due.

Paul Farnas Testifies
on Situation in Ireland
(By Associated Press)
WASHINGTON, Dec. 16.—Pedra Colum, Irish poet and writer, and Paul Farnas, an American Quaker and member of the committee of the Society of Friends that went to Ireland to investigate conditions were the principal witnesses to appear today before the commission of the committee of 100 investigating the Irish question.

The purpose of the movement for Irish independence, the committee was told yesterday by Laurence Ginnell, former Irish member of the British parliament, is to establish in Ireland an "ideal co-operative commonwealth" based probably he said, on socialistic doctrines derived from the ancient Briton laws. Other witnesses described what they declared to be the distressing economic conditions in Ireland, brought about chiefly, they said, by the leasing of large tracts of land by the British authorities to "favored cattle raisers."

MRS. UPTON MAY
BE FIRST WOMAN
CABINET MEMBER
(By Associated Press)
Mrs. Harriet Taylor Upton of Warren, O., is being spoken of by many as a possible member of President-elect Harding's new cabinet, especially if the education bill, which is pending, is passed. Mrs. Upton is vice chairman of the executive committee of the Club for Women's National Committee and second in position only to Will Hays.

Junior High Notes
At the meeting of the Garfield council Wednesday a resolution submitted by the physical education committee that a "smoking" census of the school be taken was adopted. The census will be taken of the boys only, it was announced.

It also was recommended that pupils using the gymnasium after school be charged so much a term, the money raised to be used for buying apparatus. The school board furnishes apparatus for class work but not for games. The assessment to each student would be 20 cents for boys and 10 cents for girls.

The Garfield dramatic club will stage a play at the chapel exercises Friday afternoon. The play is under the direction of Miss Williams, Miss Harris and Mr. Beck.

The straw hat is not so cool to wear as a soft felt of a light color.

INDIAN CHIEFTAIN SEEKS GOVERNMENT AID FOR REDMEN

Chief Arthur Bonnacamp.

Chief Arthur Bonnacamp of the Osage Indians is in Washington trying to persuade the government to extend government leases on oil lands, held by his people, for 25 years. The wealth of the Osage Indians is greater than that of any other tribe. Their income is derived from oil and minerals discovered on government property, now leased to them. It is these leases they want extended.

The Farm and Farmer

By WILLIAM R. SANBORN

The five-acre corn contest in Morgan county was won by H. F. McClellan, of Monroe township, with a record of 102.2 bushels to the acre. His close second is O. R. Lambert, of Adams township, with 101.03 bushels, while Allan Bryant, of Gregg township, scores third with 97.3. The interesting point to Wayne farmers is this: McClellan planted his corn 3x4 by 3x4. Lambert planted 3x6 by 3x4, while Bryant, the low man, planted 3x6 by 3x6. It will be seen that this gave McClellan a chance to gain a little yield, by raising a few more stalks to the acre.

A report from Brazil is to the effect that the heavy rain on last Monday broke the longest drought in twenty years, in that section.

The farm federation of Elkhart county, has just completed organization, with a membership of more than 600. C. S. Masters, of Greenfield, has given the entire fall to the work, in the pay of the state federation. He had some lively local help, of course.

Corn Crib and Wood Pile.
The farmer with a wood lot and plenty of corn is assured of a warm fireside, if the worst comes in winter weather. Should corn decline in the prairie states to a slightly lower level on farm values, the coal men will have competition in fuel, according to a western editor.

Anent this comment is the following from the Chicago Tribune:
The senate committee on reconstruction and irrigation in a preliminary report today declared that coal profiteering has become a national disgrace, especially since the issuance of coal priority orders by the interstate commerce commission.

This relates, of course, to the
