

## MARY YOURIS SUES NEW PARIS COUPLE TO RECOVER MONEY

EATON, O., Dec. 17.—Mary Youris filed an action against Timothy and Mary Glenn, of New Paris, for conveyance of real estate and for estate of trust. In December, 1919, the plaintiff avers, at the request of the defendants she loaned them \$2,000 that she had in a bank in Richmond, Ind., with the understanding that the money was to be repaid upon demand, with interest. She alleges no part of it has been paid. She further alleges the defendants purchased a residence at New Paris in New Paris and that the \$2,000 she loaned them was applied on the purchase; that they hold deed and title to the property and are in possession of the premises. She asks the court to declare that she is entitled to a two-thirds interest in the property and that it be declared a lien upon the premises. The plaintiff seeks \$2,120.

## AGONY OF ASTHMA

Now Prescription Gives Instant Relief.  
Makes Breathing Easy

Thousands of people suffer from Bronchitis or Bronchial Asthma who, having tried advertised remedies, inhalers, "Patent smokes", douches, doctors, changes in climates, etc., without permanent benefit believe nothing can ever make them well.

Extensive experiments finally enabled a Worcester, Mass., physician to find a simple, harmless treatment that gave almost immediate relief in even the most stubborn advanced cases and great numbers of former Asthmatics have now used his treatment with wonderful success.

"The doctor's prescription is called Oxidaze and can be obtained from A. G. Luken & Co., and leading druggists everywhere, who sell it on a guarantee of money back on the first package if in any case it fails to give prompt relief."

Many users who for years have been obliged to sit up in bed gasping for breath and unable to sleep report that they now take a dose of Oxidaze when going to bed and can then lie down and breathe easily and naturally and get a good night's restful sleep.

Oxidaze is a safe treatment, easy and pleasant to take, causes no harmful, habit forming drugs.—Advertisement.

## BOGUS CROWN JEWELS SOLD IN HOLLAND

(By Associated Press)  
THE HAGUE, Dec. 17.—Europe's newest scheme for defrauding the traveler is that of selling supposed Russian crown jewels. Knowledge that some very valuable Russian jewelry, confiscated by the Bolsheviks, has actually been sold in Holland recently has prompted a number of shrewd confidence men to take advantage of Dutchmen desiring to buy something cheap.

The Hague police swooped down the other night on a group of men in a little cafe, who, with their intended victim, were negotiating for the sale of 34 "pearl" necklaces and several packets of loose "pearls" which were whispered to have been surreptitiously sent to Holland from Moscow and, therefore, were for sale cheap.

Only one of the necklaces was found to be genuine. All of the others, and

also the loose packets, were made up of imitation pearls. The real one, according to the police, was used as "bait."

## EFFORTS TO FLOAT STEAMER POLIAS FAIL

(By Associated Press)  
ROCKLAND, Me., Dec. 17.—The concrete steamer Polias appears likely to remain a monument on the Maine coast to one of the war innovations in marine architecture. The freighter is scarcely lodged on Old Cilleys Ledge, near the southwestern entrance to Penobscot Bay, where she was stranded in a storm last February, resulting in the loss of eleven of her crew.

Repeated efforts to float the vessel, which cost the government \$950,000 to construct, have finally been abandoned and wrecking gear has been removed. The Polias still rests on an even keel, giving her the appearance of being afloat, but with every tide she fills with water pouring through holes punched in the hull by the jagged rocks.

Her position has not changed since

she struck the ledge while bound from Seaport for Norfolk after completing the third trip since her launching. No trace has ever been found of the bodies of the eleven seamen who put off in a boat without the master's permission. It is supposed the boat was smashed against the side of the steamer. Captain Cogland and the other 28 members of the crew were rescued the next day by coast guardsmen.

There may be a million dollars worth of merchandise loaded in trucks, hurrying to freight depots and wharves, stopped dead by the upraised hand of this Guardian of the Law.

There may be financial giants and dignitaries of the highest rank fusing and fuming in luxurious limousines because of the delay.

That doesn't matter. The only thing that does matter is the safety, the welfare of the public—of everyone; whether that person has but a few pennies jingling in his purse or a bank account that mounts into dizzy figures.

That is the duty of the traffic cop—and he does it. He doesn't stand alone. It isn't his star, shiny buttons or size that give power to his commands. It is the force back of him—the will—the wealth—determination of a great city.

Calumet has no equal—no superior. It received highest awards at the World's Pure Food Exposition, Chicago. It was granted highest honors at the Paris Exposition, Paris, France. It is sold at a moderate price. It contains only such ingredients as have been officially approved by U. S. Food Authorities. It is pure in the can—pure in the baking.

Calumet is the biggest selling baking powder in the world today, because—and only because—it is the most dependable, "Best by Test" and never anything else.

Stationed at the buying corners of America for nearly a third of a century, has been a staunch, true guardian of Baking Powder value, the Calumet trade mark, the well known blue and orange Calumet label with the Indian head.

It is the firm, upraised hand against inferior quality—against impurity, uncertainty, unfair dealing and greed of excessive profits. It is the protector of those who are not acquainted with Baking Powder quality—of those who are striving to raise food standards and reduce food costs.

And it does protect. It protects because back of every can of Calumet Baking Powder is an inflexible policy of honesty in manufacturing and honesty in selling. Back of every can is a set purpose to give every buyer of Calumet the highest of quality, the utmost of purity and to do this at the lowest possible cost to the consumer.

Back of every can, are the big Calumet Factories—the largest baking powder plants in the world, the most modernly equipped, the most sanitary. Here a corps of food experts, of chemists and of bakers are constantly testing, testing, testing; proving the purity of every ingredient proving the leavening strength of Calumet—proving its economy—protecting you against all possibility of an inferior or an uncertain leavener; fulfilling in every way our every obligation to the buying public.

The housewife who must count every penny as well as the women of unlimited means gets this protection—no matter where she buys Calumet or when.
