

MENSHEVIKI PARTY SAYS RULE OF REDS WILL RUIN RUSSIA

(By Associated Press)
BERLIN, Dec. 24.—L. Martoff and R. Abramowitsch, leaders in the Russian Menshevik party opposed to Bolshevism, who are sojourning in Berlin, have issued an appeal here in the name of their party, calling on the Socialist parties and trades unions of all nations to make a common effort to secure the recognition of Soviet Russia, to have the blockade raised and trade relations with the outside world resumed.

The appeal states that the defeat of General Wrangel is not the victory of Bolshevism but the victory of the Rus-

sian revolution and the whole Russian people.

The Menshevik manifesto declares that the Russian peasant who is fighting communism in his own hamlet, nevertheless furnished the government with troops to repulse Wrangel, as did also the Russian Social Democratic proletariat, both of whom are determined to have "Russian soil cleared of international and Russian reactionaries."

The manifesto then goes on to say: "The time has now arrived when the question of putting an end to further intervention in Russia as a matter of honor with the nations of Europe as well as the United States."

The call asserts that the quickest way to accomplish the downfall of the present soviet regime is to permit it to have uninterrupted sway, as it will then collapse from within, as a result of its anti-socialistic and Utopian policies, and that the redemption of Russia is only possible after the

inevitable and automatic self-defeat of the Lenin and Trotsky government.
