GRAFT CHARGE MADE IN CONNECTION WITH CHINESE RELIEF FUND

(By Associated Press)
SHANGHAI, Feb. 1.—When people were dying by thousands and the full horrors of winter-time famine began to be felt in the great belt of seven provinces in northern China, where no harvests have been gathered this year, Chinese newspapers that are printed in the International Settlement of Shanghai, openly published the charge that misuse was being made of famine relief funds by Peking government officials.

One of these papers, The Sin Wan Pao, asserted that famine relief funds were being diverted to the uses of a political clique at Peking and the paper urged that the strictest foreign and Chinese supervision be imposed upon disbursement funds.

It was after these charges had been made public that the Shanghai Famine Relief Association and the Shanghai Missionary Association telegraphed messages to Peking in connection with famine relief work.

In the messages of the Shanghai Famine Relief Association, addressed to President Hsu Shi-Chang, the government was asked to announce without delay a definite policy for carrying out famine relief work. The telegram emphasized that the charitable public, both Chinese and foreign, require a clear statement from the government as to what steps it intends to take to meet present conditions in the north and it was made plain that immediate action was expected.

Measures the Peking government adopted to obtain famine funds included surtaxes of certain kinds and increased railroad fares on government lines.

The message that was forwarded by the Shanghai Missionary Association was addressed to the British and American ministers and requested them to urge the Chinese government to issue an early report on famine relief surtaxes and intimate how and when the funds will be employed.

Before the message was authorized a report on conditions in famine areas.

Just the Punch You Need

You cannot take the same laxative twice from the same box of "Just One," because there isn't another one like it in the box. You cannot keep ponding the same organ or set of organs and getting them all irritated or calloused so that they cease to respond. You automatically change laxatives with every dose you take.

PROPOSES NEW IDEA TO PROTECT SUFFRAGE

(By Associated Press)
SHREVEPORT, La., Feb. 1.—Former Governor R. G. Pleasant of Shreveport, an appointee of Governor Parker to the forthcoming state constitutional convention has proposed a novel plan for insuring suffrage protection with guarantee of white supremacy, without limitations being directly specified as to race, color or sex. Mr. Pleasant said today the proposed law would bar from the electorate that group of the world's inhabitants coming from the south of the twentieth degree of North Latitude, which the former governor stated, "is credited with none of the civilization of the world." Under this plan, the electorate would be denied to a whole geographical class on account of its intellectual limitations and would be confined to persons whose ancestors developed civilization, he asserted.

It is the only medicine that ever touched me." Nerve-Speed When Needed

Lack of Reserve Force Cause of Most Failures in the Daily Affairs of Life.

To feel weary without having earned it by hard work throws the mind into disorder and confusion. A hundred people describing their weary condition would each tell it differently. One can't think, another is drowsy, the next feels weak, others are irritable, moody, depressed, apprehensive, as the case may be. To this great class of sufferers comes Reolo, one of the grandest reconstructive agencies ever devised for definite accomplishment. It intensifies the activity of the vital processes, provokes increased flesh, stimulates the production of red corpuscles, contributes to the defense of the system against depletion and consequent exhaustion and in many other ways arouses the functional processes to make you feel that something has touched that once flickering vital spark you thought was about to go out. No amount of description can adequately convey the difference between the feeling of lack of nerve speed and the rebound, the freedom, the liberation from depressions that cause so many men and women to fall in their tracks, to go to sleep at the switch or stand still when the order is to go ahead. If you would really like to get acquainted with your real self get a \$1.00 box of Reolo today. Ask any of the clerks at A. G. Luken Drug Co., or any other leading drug store.—Advertisement.

QUALITY JEWELER

Furniture Value and Prices

It is, we feel, with pardonable pride that we invite you to examine our stock of high-grade furniture.

Every effort has been made to adapt the line to present-day buying conditions under the limitations of the changed financial situation.

We're not saying anything about the original selling price because it has ceased to mean anything. What we would call a \$75.00 price somebody else might call a \$100.00 or \$125.00 one.

The best way to judge is to see for yourself.

In marking the prices down to meet present-day values we have taken its loss on stock. The prices asked are therefore prices at the level of today.
