HATS WITH PETAL BRIMS FOR WEAR WITH NEW SKIRTS WITH PETAL HEMS

The prevalence of the petal hems on the new frocks for spring may have had something to do with the new hats with petal brims, but whatever the cause the effect is very charming, as is proved by this dainty chapeau. It is a late spring model made of blue straw braid. Its only trimming is a bit of floss embroidery on the crown and streamers of narrow silk ribbon which fall over the shoulder. Simplicity and youthfulness form its main attraction.

EMMELINE PANKHURST KNOWN AS ORGANIZER

Emeline Pankhurst, the noted English woman who appears in the coliseum Friday evening, Feb. 11, at popular prices, is now regarded as the real force that has brought suffrage to so many women in so many countries recently.

The older suffrage organizations and the "old line suffragists" continued their propaganda along the traditional lines.

Mrs. Pankhurst saw that nothing would be accomplished in that way. She therefore, with her daughters, organized the militant movement that destroyed all precedent and fixed the attention of the world.

The methods adopted by the militants were distasteful to them personally but it is directly through the activities that their methods aroused that the women of England, America, Germany, Denmark and other countries which have recently given women suffrage were given their civic rights.

Mrs. Pankhurst, a modest and unassuming woman, will speak for the first time in Richmond on Monday evening and women from all over the county will be present to hear her.

Art and Artists

The Arts and Crafts exhibit which will open at the Public Art gallery Wednesday, Feb. 16, promises to be as exceptional a collection of historic laces, needlework, pottery, Persian rugs, and imported weavings as has ever been on exhibit here.

An array of historic pieces of lace and needlework both rare and exquisite, some of them lovely creations fashioned by the famous lace makers of the Old World, are coming from New York for the exhibit.

Among the collection of weavings which are to be shown will be 61 pieces of Swedish weaving, all of them imported. Mrs. Paul Comstock is arranging an exhibit of Persian rugs which will be composed of rugs loaned by local persons.

Besides a number of pieces of pottery by local people there will be included in the pottery group, some by the Overbeck sisters, Mercer pottery. A collection of the brilliant colored Durand pottery from New York.

In one part of the gallery good taste in furnishings will be illustrated by a room which Miss Florence Williams and Mrs. Ida Carpenter are arranging.

In addition to having charge of the pottery exhibit, Miss Bessie Whitridge and Miss Elizabeth Jay will also have some of their pottery and needlework to exhibit.

PREPARE TENNIS GROUNDS (By Associated Press)

PHILADELPHIA, Feb. 8. Work of preparing the Germantown Cricket club grounds for the national lawn tennis singles championships next September will begin as soon as the weather permits. Famous Old Recipe for Cough Syrup

Easily and cheaply made at home, but it beats them all for quick results.

Thousands of housewives have found that they can save two-thirds of the money usually spent for cough preparations, by using the well-known old recipe for making cough syrup at home. It is simple and cheap but it has no equal for prompt results. It takes right hold of a cough and gives immediate relief, usually stopping an ordinary cough in 24 hours or less.

Get 2½ ounces of Pinex from any druggist, pour it into a pint bottle and add plain granulated sugar syrup to make a full pint. If you prefer, use clarified molasses, honey, or corn syrup, instead of sugar syrup. Either way, it tastes good, keeps perfectly, and lasts a family a long time.

It's truly astonishing how quickly it acts, penetrating through every air passage of the throat and lungs—loosens and raises the phlegm, soothes and heals the membranes, and gradually but surely the annoying throat tickle, dreaded cough disappears entirely. Nothing better for bronchitis, spasmodic croup, hoarseness or bronchial asthma.

Pinex is a special and highly concentrated compound of genuine Norway pine extract, known the world over for its healing effect on the membranes.

Avoid disappointment by asking your druggist for "2½ ounces of Pinex" with full directions and don't accept anything else. Guaranteed to give absolute satisfaction or money promptly refunded. The Pinex Co., Ft. Wayne, Ind.

Asthmatic Sufferers

May Know Health Again

Tuesday Health Talk No. 1
By G. C. WILCOXEN, D. C. Ph. C.

Health turns the Clock Backward

Among the so-called incurable chronic diseases is asthma. Sufferers from asthma have come to look upon their condition as something to be endured, rather than conquered. The sufferer from asthma seldom dying in an attack, but the suffering is agonizing.

The structural condition of the spine in the region of the collarbone is invariably the same in every sufferer from asthma. Pressure upon spinal nerves at this point affecting the bronchial passage has the effect of weakening the bronchial functions and bringing on the asthmatic condition. Chiropractic spinal adjusting restores the spinal joints to alignment, removes the pressure on spinal nerves of supply to the bronchial region, and with the cause removed, the asthmatic sufferer is once more in normal health.
