RED STAR
Detroit Vapor Oil Stove

PRICES 10% LESS THAN LOWEST FACTORY-SET PRICES

The "Red Star" is entirely different from ordinary oil burning stoves. It is really a gas range. It generates its own gas from any grade of kerosene, gasoline or distillate. The patented eight and one-half pound double ring flame burner vaporizes all of the heat units of the fuel and utilizes the energy that is usually wasted in odor and smoke. The heavy, iron burner becomes red hot and concentrates an intense heat directly under the utensil. It operates entirely without wicks or asbestos rings.

NO WICKS! NO SMOKE! NO SMELL! NO TROUBLE!

Repeated official tests have proved that the "Red Star" is the quickest, most dependable and economical oil stove on the market.

It is designed and works like a city gas stove. A beautiful stove in any kitchen. Substantially built, easy to clean and to keep clean.
