SHIPPING ASSOCIATION ENDS SEVENTH WEEK OF SUCCESSFUL WORK

CENTERVILLE, Ind., Feb. 28.—With the distribution of the receipts from the ninth car of livestock Saturday, the Centerville Livestock Shipping association closed its seventh week of successful operation, the officials announced.

The Indianapolis weight of the car was 18,610 pounds, a shrinkage of 110 pounds or less than six tenths of one per cent on the home weight of 18,720 pounds. Average cost for shipping was 44.2 cents a hundred and one shipper, who had no shrinkage, had a cost of only 40 cents a hundred.

45 Cents Maximum.

"Our costs average between 42 and 45 cents a hundred," said E. C. Gaiser, of this city, who is acting as manager. "That includes all freight charges, fees at the Indianapolis yards, commission, feed, and deductions for the general fund, insurance fund and manager's fees for the shipping association. The total cost to any shipper, is not over 45 cents per hundred for hogs so that he gets the Indianapolis price less than amount." Charges are figured on Indianapolis weights, of course, but they have checked closely with our

own weights. The average shrinkage is about one per cent, always under two per cent."

Figures taken from the accounts of the association showed that, in the seven weeks of operation, eight cars, one of more a double decker, had been shipped, with a total weight of nearly 170,000 pounds of stock. There were 685 hogs and 28 cattle.

Shippers Satisfied.

"The shippers seem satisfied with the service of the association," said the manager. "Every load we have sent out has had new shippers, and 41 farmers have used the association since it was formed. Several have joined the farm bureau simply in order to obtain the advantage of the shipping facilities. A few of the earliest shippers are repeated now, as they finish more stock, indicating that they were satisfied with the first trial. Our cost for handling the stock in Centerville amounts only to eight cents a hundred, and any member of the farm bureau, in this township or any other, is privileged to use the association."

"The largest number of shippers we have had in any one car is 14," said Gaiser. "There were six in the last car and there are always two or more."

PARK LAKE MAY BE FLUSHED WITH ENGINE

Ed Hollan, superintendent of parks, and Fire Chief Miller will go to Dayton, Tuesday in an attempt to secure a fire engine to be used in flushing the lake at Glen Miller park. It is thought by the city officials that this plan will enable them to clean the bed of the lake at considerable less expense than by dredging, as was first planned.

The board of works at its meeting Monday morning granted Mr. Hollan and Mr. Miller power to act in securing the engine if they could secure a suitable proposition.

Would Hasten Delivery.

The contract with the Midwest Engine company, of Anderson, for a feed water pump for the light plant was executed by the board. The Westinghouse company was asked to anticipate their delivery of the 5,000 k. w. turbine as much as possible, delivery being guaranteed by June 1.

Councilman White appeared before the board and spoke in behalf of the property owners along Northeast Third street, from Main to Richmond avenue. He stated that the street should be widened and improved. The board expressed a similar idea and action on the improvement of the street probably will be taken up at the next meeting of the board.

At Vicksburg, Miss., it was once the practice to fire cannon every morning and evening, with a view to purifying the atmosphere.

FATHERS DAY TO BE CELEBRATED BY CLUB

Fathers of the local Rotarians are invited to accompany their sons to the weekly Rotary meeting, to be held in Grace M. E. church Tuesday noon.

Where a member's father is dead, the member is privileged to bring some active or retired business man 70 years old or more.

Plans are being made that will bring a smile to the lips of the old Richmond residents. The old time fiddlers will play songs popular in an earlier day, and songs such as "When You and I Were Young, Maggie," will be sung by the club.

Corn beef and cabbage, corn bread, hominy, ginger bread, and other good old-fashioned dishes will be served.

Those to speak include the Rev. F. A. Roell, E. G. Hill, and the Rev. W. E. Minter. It is probable Timothy Nicholson will be on the program. Will Reller will respond to the speeches.

GARMENT FITTING IS TAUGHT BY SCHOOL

With the vocational dress form making classes promoted by the Richmond night school completing its work, letters are being mailed from the vocational department announcing the opening of a short course of eight les-

sons in fitting and cutting of garments.

It is believed that the new course will be especially beneficial to persons who took the course in home made dress forms. In the new work, the dress forms made will be used.

The classes will be organized on a 15-student basis and will be given in centers most convenient for those who enrolled. Hibbard school will be the first center for the new course, according to present indications. Starr and Baxter schools will also be points at which classes will be held.

The first four lessons use the one-piece house dress with set in sleeves as a lesson problem.

The lessons may be given from 9 to 11 o'clock or 2 to 4 o'clock of Tuesday and Thursday or Wednesday and Friday, depending upon certain details. Mrs. Laura Walters, a practical dress maker, will be in charge of the classes. Enrollments will be received at the office of the vocational director, high school building, either by phone, 5,277, or in person.
