

PASS SOLDIER BONUS, REPEAL FULL TRAIN SWITCHING CREW LAW

INDIANAPOLIS, Ind., March 3.—Breaking into its lists of preferred bills the house suspended rules and passed the senate bill providing that an additional \$200,000 shall be taken from the common school fund in June and January for the benefit of poor schools in southern Indiana. There was little debate and the bill goes to Governor McCray, who has announced he will approve it, making the money available for continuation of the present school terms.

The house also passed the Newman bonus bills today by a vote of 79 to 14, under suspension of the constitutional rule. It is estimated that \$16,800,000 would be required to fulfill provisions of the bill. World war veterans would receive \$10 for each month in service.

Repeal Train Laws. Although strenuously opposed in speeches that occupied the greater part of the morning session the two house bills providing for the repeal of the full train crew and full switching crew laws were passed in the senate today.

That the repeal of the laws would unnecessarily endanger human life was the main argument of opponents of the two house measures. The supporters said the laws requiring a certain number of men in each crew uselessly burdened the railroads with expense.

The Cann resolution for a text book investigation was dispatched with speed. The minority report on the resolution charged that the changes were unwise and unwarranted, and cost the public \$650,000.

GLEN MILLER LAKE WILL BE DRAGGED

Dragging of Glen Miller park lake, as was first planned by the board of works and city engineer will be carried out, according to action taken at the meeting Thursday morning. Efforts to secure an engine to flush the lake and wash out the accumulated mud, failed.

Work on the cleaning of the lake will be started as soon as apparatus can be placed in operation at the lake, it was stated. The work must be completed by the first of May.

Boys will be restrained from playing baseball in the Seventh street, Tenth street and Starr parks, according to an order issued by the board of works, on recommendation of Ed Holman, park superintendent. A resolution favoring the widening of Third street was passed and appraisers appointed to prepare an estimate of the property that will be condemned. The chief widening will be near Richmond avenue where the street will be widened 35 feet, it is said.

Advertising space on trash cans in the business district will be advertised and sold by the city. The motion favoring this was presented by Dell Davis, city engineer.

A repair wagon for the city street department is to be built. Wheels from an old fire wagon will be used and a body of considerable size built. The resolution favoring the construction of a sanitary sewer in the alley between Ratliff and Ridge streets, from School to Stevens, was up for final hearing and no objections being presented, passed the board.

HOME RULE BILL IS UP FOR SECOND TIME

With the Knapp "home rule" bill ready for its second reading in the senate at Indianapolis Thursday, Senator McNamara expressed himself as confident that the measure would be laid before the house for action some time Thursday afternoon. The bill will be called by Senator Aldrich.

Because of a large amount of other work ahead of the bill the senator stated, it could not be called earlier. The measure was received from the printers Wednesday. Every effort is being exerted by the friends of the measure to insure its passage.

St. Andrew's Church Holds 40 Hour Praying Service

St. Andrew's church will begin its 40 hours prayer service next Thursday night, March 10. Services will continue until Sunday night March 13, and be in charge of Francis P. Prior, of Cincinnati.

Prayering will be each morning and night during the three days of service. Several priests will be in attendance.

The oldest police matron in the United States in point of service is Mrs. Fannie Hines, who has served in that capacity with the Detroit police department more than a quarter of a century.

VIOLATION OF FOOD LAWS ARE PREVALENT DECLARES INSPECTOR

Proper protection of foodstuffs is being urged by W. A. Hunt, Richmond food inspector. Noticeable violations of the law are prevalent according to the city official. Grocery stores display cookies, crackers, doughnuts, dried fruits and similar articles uncovered, he declares. Restaurants with pies on counters in front of crowds, meat markets with meat in open counters, on top of show cases or large portions of meat hanging on hooks on the wall are all violations of the law, it is said.

C. V. Stainsby, state food inspector, was in Richmond Wednesday and made a survey of food handling establishments.

Orders Prosecutions. The state inspector ordered that prosecutions be made if the law was not adhered to. The food handlers of Richmond are well acquainted with the law in regard to exposure of foodstuffs and cannot shift the responsibility for violations, according to Mr. Hunt. Warnings have been issued and prosecutions are expected to follow.

Inspector Hunt made 38 food and drug inspections during the past month. Twelve establishments were notified to make changes according to the state board of health. The number of weights and measures inspected totaled 169. Of this number 156 were sealed, four adjusted, nine condemned and three re-inspected.

Pastor Resigns to Mingle With Labor

(By Associated Press) KANSAS CITY, Mo., March 3.—The Rev. Joseph Meyer, Jr., pastor of the Budd Park Christian church here, today arranged to lay aside his ministerial garb indefinitely and enter a Kansas City factory next week as a laborer in order that he might learn about men.

The minister's resignation was placed in the hands of his congregation last night. He explained that he believed a close association with men who toil physically would make him a better pastor.

WOMEN URGED TO JOIN C. OF C. BY MRS. ROACH

Mrs. A. W. Roach, who is commanding the women's teams in the Chamber of Commerce membership campaign, and who is identified with the women's organizations in this city, expressed herself as follows on the advisability of women joining the Chamber of Commerce:

"If it is important that men should support such a community organization, it is just as important that the women should, too. Today women are as much, if not more, interested in civic improvement than men. Heretofore, they have been on the 'sidelines,' as it were, as they had no vote—not direct voice in matters of government. Now they have the right of franchise, and the Chamber of Commerce is the one organization through which their views on many matters pertaining to civic improvement may be expressed.

"Furthermore, the women will have their own division in the Chamber of Commerce, thus furnishing an organization not only for their own activities in matters of civic betterment, but one in which they will have the privilege and the right to expect the

support of the many hundreds of men who are members of the Chamber.

Women Will Help. "Women are becoming more identified each day in business pursuits which will be subserved by such an organization. In civic uplift, welfare work, better sanitation, improved housing, and many other matters that will receive the attention of the chamber the women will not only help, but be helped by the organization as a whole. The building of a Woman's club or a Y. W. C. A. or the more complete use of public school buildings as neighborhood centers are subjects in which the women should receive the support and co-operation of such a community organization as our Chamber of Commerce is to be.

"Women are joining such organizations in very many of the cities throughout the country.

"There are many reasons why women should join the Chamber of Commerce. There is no valid reason why they should not."

Army Appropriation Bill Sent to President Today

WASHINGTON, March 3.—The army appropriation bill was completed today and sent to the president. The house accepted the compromise agreed to by the senate for an army of 150,000 men during the next fiscal year.

Senate Favors \$15,000,000 For Disabled Vets' Care

WASHINGTON, March 3.—The senate today sent to conference a bill providing approximately \$15,000,000 for additional hospital facilities for disabled service men.

The appropriation was contained in the sundry civil bill but after the senate had been advised that the measure probably would fail, it was decided to include the hospital item in a separate bill.

Employment agents in many of the larger American cities report that lack of work has caused many girl stenographers and clerks to turn to domestic service.

NEW COMMUNITY SERVICE REPRESENTATIVE ARRIVES

Election of officers for the community service was postponed until about the first of next week at a meeting held at 4:20 o'clock Wednesday afternoon.

Frank L. Traenkle, another community service representative from the New York office of the national organization, arrived Wednesday afternoon and already has started work arranging for indoor sports to be promoted among the men of the city.
