

## LONDON RESTAURANT OWNERS BEWAIL NEW ATTITUDE OF DINERS

(By Associated Press)  
LONDON, March 3.—Proprietors of fashionable West End hotels and restaurants are bewailing the slump in their receipts which they declare has taken place.

"We have the same number of people dining each night," said the manager of one of the best known restaurants, "but our receipts are 50 per cent below those of a year ago. The difference," he added, "is chiefly a matter of wines. During the war, and before the war, it was customary for a small party here to have a magnum of champagne. Now they are satisfied with a bottle of Chablis or some other wine which costs much less than champagne."

**New Patrons Appearing.**  
"Apart from the greater expense," said a famous bon vivant, "it must be admitted that dining out is not as pleasant as it used to be. The restaurants where there used to be refinement and charm, not only in the surroundings but in the people themselves have been invaded by a new type of diner."

"The conversation and behavior of these new clients have rather vulgarized some of the best restaurants," the old frequenters prefer to dine at home or at their clubs. Two nights ago I saw a man in what used to be one of the most fashionable and refined of London restaurants dining with his serviette tucked all around his collar. That sort of thing rather spoils the charm of dining out for patrons of the old school."

**Champagne Sales Drop.**  
"As far as the best brands of champagne are concerned the sale is dead," said the head of a large firm of wine merchants in Pall Mall. "We are selling very little champagne to our private customers who are instead drinking port, sherry, Marsala and claret. People cannot afford champagne. They could when it could be had at from eight to nine shillings a bottle, but what with increased taxes and high prices generally, they naturally fight shy of paying from 16 to 20 shillings for a bottle of champagne, which is now demanded of them."

## MANDATE DISPUTES TO BE HELD OVER

WASHINGTON, March 3.—Further steps in the controversies between the American government and the allies and the council of the League of Nations over mandates for former enemy possessions will be left to President Harding and Charles Evans Hughes, his secretary of state. Decision of this administration to take no further action was made known today at the State Department after receipt of the replies from the council and Great Britain to the American notes dealing with the mandates for the Pacific island of Yap, held by Japan, and for Mesopotamia, to be awarded to Great Britain. Officials said there was insufficient time for them to prepare answers before the change of administrations Friday. They also indicated it might be regarded as presumptions if they acted.

## HAS HE FOUND A CURE FOR ASTHMA?

Simple Prescription Gives Instant Relief. Makes Breathing Easy.

In New England, where Bronchial Asthma, Bronchitis and other diseases of the throat and lungs are so prevalent, remarkably successful results are being reported following the use of a new form of treatment known as Oxidaze, a physician's prescription. Oxidaze is a harmless but powerful combination of curative essential oils concentrated and compressed into a small tablet. One of these tablets slowly dissolved before going to bed seems to have the effect of releasing the muscular constriction of the bronchial tubes, opening up the air passages and regulating spasmodic lung action. This enables the patient to breathe easily and naturally while lying down and to get a comfortable night's sleep.

So much interest has been shown that local druggists, including A. G. Lukken & Co., have secured a small supply and state that they are authorized to refund the money paid for the first package if in any case this new treatment fails to give relief. Oxidaze is pleasant to take, contains no harmful habit forming drugs and is not expensive. This makes their test an easy matter.—Advertisement.

## Making Places for Dimples

Wonderful Effect of Reolo in Filling Out Hollow Cheeks With New Firm Flesh.

Regardless of what and how much you eat, if the nervous system is unstrung and the iron has been burned

out of the blood, the long, drawn face and haunted expression will remain. But put Reolo into your blood, let the nerve centers come in contact with it, and then you have started upward. There is one component of Reolo that actually provokes an increase of flesh, in combination with this element there are ingredients that increase red corpuscles enormously in certain anemic conditions. In a day or two the appetite improves in a way that is a revelation to those who found it hard work to eat, and soon the bluish pallor of the skin is replaced with the pinkish hue of health. You now not only feel well, you look it, such is the remarkable influence of Reolo in but a few short days. But this is not all. Reolo has intensified the activity of the vital processes to such an extent that the old feeling of exhaustion after effort is completely gone. It is certainly a most comfortable and satisfactory feeling of reassurance, and there is no other condition to be compared with it.

Ask any of the clerks at A. G. Lukken Drug Co., and any other leading drug store about Reolo. They are selling it and recommending it upon the strength of what they see every day, men and women the very picture of health who six weeks before were nervous and bloodless dependents. Get a \$1.00 box of Reolo today and live.—Advertisement.
