YOU'REX—

May indeed be termed a new discovery in precious metals. It expresses the highest achievement in the art of silver plated ware.

In "YOU'REX" you get a silver plated knife that will not rust or wear black, that can be sharpened the same as a steel knife without showing black around the edges, and guaranteed for all time.

We guarantee that this silver plate will give absolute satisfaction and we agree to stand behind and replace every piece of goods bearing the

"YOU'REX" TRADE MARK

that does not give satisfactory service in any household.

The silver plate on "You'rex" is not only equal to but better than that on any other brand on the market. It is scientifically applied and last better than on steel, as the "You'rex" grips it better.

You'rex has the tensile strength and flexibility of steel and retains its cutting edge but does not turn color like the baser metal.

Of course, rough or long continued usage will scratch the silver off the cutting edge of a You'rex knife just as it does off any other good silver plated knife, but with You'rex you can not tell the difference without examining it very closely.

YOU'REX IS KNOWN IN FOUR BEAUTIFUL AND ATTRACTIVE PATTERNS
