

## RAUSCH WILL HEAD COMMUNITY SERVICE CLUB FORMED MONDAY

Andrew Rausch was elected president of the community service recreation leader's club, organized Monday night. About 60 young men and women joined the club, becoming charter members.

This club is the outgrowth of the recreational leader's institute which has been conducted for about eight weeks. Each individual has been taught methods of conducting recreational activities, and will be at the service of any body or organization wishing assistance on social occasions.

Officers Elected. Other officers of the club elected Monday night include Mrs. L. W. Beach, vice-president; Mrs. J. W. Heagy, secretary; and Elmer Kremling, treasurer. Meeting nights will be on the first and third Fridays of each month. The next meeting comes Friday, April 1. C. B. Root, head of the community service organization here, said Tuesday that persons having completed the institute work and desiring to become members of the club may enter at the next meeting and still be considered charter members.

Miss Winans, who has been assisting in recreational work here for about six weeks, is to take a two weeks' vacation beginning Thursday. Her work here among young men has resulted in the formation of many clubs.

C. B. Root was originally intended to supervise community service activities in Richmond over a period of three months. That time is at an end April 19. Whether or not his time will be extended, he said, depends upon the interest shown by local citizens when a canvass for membership is made.

Council Will Meet. A meeting will be held Thursday by the council, at which time a publicity and a financial committee will be appointed. The committee on publicity will begin at once to bring before the people the necessity of joining the organization if the work is to be continued. Each person contributing \$1 will be recognized as a member, and have the privilege of voting. More substantial sums must come from some individuals and companies, however, if an adequate budget is to be maintained.

After a large membership has been obtained, it is the purpose to secure a secretary to give full time to promoting and continuing the work started by representatives of the community service organization.

At present, many channels of recreational activities have been opened among men and women. With the baseball season close at hand, Mr. Root is hoping to get permission for a ball diamond in Glen Miller park and one near the Joseph Moore school. He has already secured use of the old exhibition park. The Richmond commercial baseball league is coming into form, and promises an active season of fast ball.

## OHIO MAN IS HELD OF FORGERY CHARGE

When Officer Fee was called Scott attempted to destroy two other checks which he had upon his person, but was prevented from doing so.

Scott passed checks bearing forged signatures of H. M. Brogan, Wilbur Ellwell, and two checks upon V. A. Monroe. One of the checks which he attempted to destroy was upon Caleb Duke. Police found \$70.38 when they searched Scott.

The checks which he succeeded in passing were upon the Second National, Union National and American Savings and Trust banks.

## Government Supply of Free Buffaloes Exhausted

WASHINGTON, March 22.—The forestry service asked recently if anybody wanted a buffalo, having a score on hand to dispose of apparently the answer was "Everybody does," for the service has been deluged with requests. One little girl sent a two-cent stamp, expecting a baby buffalo by return mail for her back yard zoo. A farmer wanted 160 acres and five children wanted a family play fellow. Stock men wanted to try cross-breeding. Wild west shows rushed in applications by mail and telegraph and the supply was quickly exhausted despite the warning that a bull buffalo eats two tons of hay a year.

## GERMANY TO REFUSE DEMAND OF ENTENTE AS TO HER PAYMENT

BERLIN, March 22.—Germany's reply to the demand of the entente for payment before March 23 of one billion marks, gold, to apply on reparations obligations will be in the negative, it was unofficially stated today. The German government's answer to the allies, now being drafted, will be presented within forty-eight hours, as the time limit set expires Wednesday.

The allied reparations commission in a note sent March 16 demanding fulfillment by Germany of Article 235 of the peace treaty notified the German government that it must pay one billion gold marks before March 23, and that she must complete the payment of twenty billion marks gold by May 1. Germany was given until April 1 to submit a proposal to pay the balance of the twenty billion marks otherwise than in cash, having the privilege to bring forward a plan for a foreign loan, the proceeds of which should be payable to the commission. It was announced by the commission, however, that Germany had virtually refused to pay the balance, asserting that the twenty billion marks have already been paid in full. The allied representatives stated that the greatest sum they could compute a having been paid by Germany against this account could hardly reach eight billion marks by May 1. It is, therefore, the initial payment of 1,000,000,000 marks and a balance of at least 11,000,000,000 marks that the allies are demanding of the German government.

## CHANGED OUTLOOK IS NEED OF AMERICAN LIFE, SAYS MORGAN

Expressing his belief that the need of American life was a changed outlook in both business and economics, Arthur E. Morgan, of Dayton, O., newly elected president of Antioch college, explained the purpose of the new Antioch policy in teaching at the Rotary club Tuesday noon.

He discussed the practice of colleges to either teach students to live or to earn a living. Naming the two divisions as colleges for culture, and colleges for technical training, he said that the purpose of the training courses being maintained at Antioch were to combine theory and practice, so that a student completing the six years of work, would be fully equipped for business life.

"Unless men are equally prepared in both theory and practice," said Mr. Morgan, "he is not master of his calling. We overcome parties preparedness by giving each student a half day of theory, then a half day of practice."

"The only way to teach responsibility is to let the student stand the consequences when he makes a mistake. If he is a machine shop student, we allow him to purchase a second-hand automobile and repair it. When he loses money on it, if he does, he has to stand the loss. That's the consequence of responsibility. It teaches business management and administration."

Mr. Morgan spoke of the young man entering into the employment of a large corporation. "Throughout his training he must conform to certain ways of doing things, all ready prepared for him. By the time he has reached a place where he can manage things, he is a confirmed conformist. It is our plan to teach men to manage their own businesses, stand upon their own feet, not compete successfully with other business men."
