

BERGDOLL ON STAND IN SOLDIERS' TRIAL HELD IN GERMANY

MOSBACH, Baden, March 23.—Grover C. Bergdoll, deserter from the American army, took the stand Tuesday in the trial of Carl Neuf and Franz Zimmer, Americans, who, with the aid of four Germans, attempted to arrest Bergdoll at Eberbach last January. Bergdoll testified that Zimmer leaned against the automobile and pointed a revolver at him. Neuf, he further testified, aimed his revolver at him and fired, the first bullet hitting a young woman, Lima Buff, and the second entering one of the automobile tires.

Zimmer denied having drawn a weapon; he said if he had he would have fired.

Neuf made a long statement detailing the nature of his activities as a detective for the American military forces at Coblenz. He asserted that he had succeeded with the aid of the German authorities in apprehending numerous American deserters in various sections of Germany.

Commended by Germans.

Two German police officials from Coblenz testified that the German authorities were frequently called upon to cooperate with the American military authorities and that Neuf had often made trips into unoccupied sections of Germany with their knowledge and consent in order to seize American fugitives. The German police officials who worked with Neuf spoke in commendatory terms of the American detective.

WASHINGTON, March 23.—Request that the war department take "prompt and decisive steps" to insure the return from Germany of Grover C. Bergdoll, is made by the American legion's national legislative committee in a letter to Secretary Weeks, made public by the committee. The letter also requests the new administration to obtain the release of the two American army sergeants, who were arrested when they attempted to capture Bergdoll.

"The Bergdoll case as it now stands," the letter said, "is a disgrace to the government of the United States and a cruel and undeserved insult to the 5,000,000 who served America in the World war."

Suburban

HANNA'S CREEK.—The Sunday school at Hanna's Creek is growing, and much interest is manifested. Last Sunday 55 scholars were present. Everett LaFuze and family were Sunday guests of Mr. and Mrs. Ward Long of Clinton. Mr. Harry Ardery and family spent Sunday with relatives at Billingsville. Mrs. Stewart and Mrs. Gilbert, of near Newcastle, spent part

BAD BREATH

Dr. Edwards' Olive Tablets Get at the Cause and Remove It

Dr. Edwards' Olive Tablets, the substitute for calomel, act gently on the bowels and positively do the work. People afflicted with bad breath find quick relief through Dr. Edwards' Olive Tablets. The pleasant, sugar-coated tablets are taken for bad breath by all who know them.

Dr. Edwards' Olive Tablets act gently but firmly on the bowels and liver, stimulating them to natural action, clearing the blood and gently purifying the entire system. They do that which dangerous calomel does without any of the bad after effects.

All the benefits of nasty, sickening, griping cathartics are derived from Dr. Edwards' Olive Tablets without griping, pain or any disagreeable effects.

Dr. F. M. Edwards discovered the formula after seventeen years of practice among patients afflicted with bowel and liver complaint, with the attendant bad breath.

Olive Tablets are purely a vegetable compound mixed with olive oil, you will know them by their olive color. Take one or two every night for a week and note the effect. 15 and 30c.

Ford
THE UNIVERSAL CAR
FORD IN INTERVIEW DECLARES MARCH ORDERS CALL FOR PRODUCTION OF 3100 CARS DAILY

DETROIT, March 5.—These facts about his gigantic business enterprises were disclosed by Henry Ford this week in an exclusive interview with a representative of the Class Journal publications:

That 15,500 employees were working in the Highland Park plant today.

That 2,860 cars were produced in Highland Park and branches daily last week.

That 2,502 engines were built at Highland Park Wednesday.

That there were 95,000 cars in the hands of dealers and 30,000 in process of construction at the branches when the Highland Park plant closed December 24.

That 57,000 cars were sold during January, liquidating the 30,000 completed in the branches and 27,000 of the dealer stocks.

That retail sales for the first half of February were 42,000.

That total production for February will be 35,000.

That sales, on the ratio continued through February will approximate 85,000, assuring liquidation of 50,000 more of the dealer stock.

That dealer requirements for March are 70,000, necessitating a production schedule of 8,100 daily, within 1,100 of the record for daily production.

That working forces and production will be increased steadily until normal production is reached.

That continued operation and increasing production are contingent on steel prices, and that if the company is forced to again shut down it will be due solely to prohibitive steel prices.

That there will be no reduction in the wages on specific jobs and no reduction in the minimum scale.

That the Ford Motor Co.'s reply to reports of financial stress is the announcement of steadily increasing working forces and output scheduled to reach close to normal by the end of March.

That the executives now in charge at Highland Park and River Rouge will constitute the permanent official personnel with official titles in most cases eliminated and concerted efforts being directed to development of Ford products and policies.

That 2,700 men were employed at River Rouge today, 1,700 having been added to the 1,000 which have been working there without interruption throughout the period of depression.

That a production schedule of 100 tractors daily has started at the Rouge plant today, which will be increased as the demand requires.
