GRAIN PRICES

Furnished by E. W. WAGNER & CO., 212 Union National Bank Building.

CHICAGO, March 31.—Wheat looks lower April 1 to 8. Current wheat guesses 92 to 94 per cent and this means a terrific 660 to 670 million crop. The southwest is selling wheat. Another grain dip is due overnight. Only 30 days from May delivery and Chicago holds 13 million corn. Crop reports on wheat are all good. New York reports another million wheat taken for export. More country longs appear to have sold in corn and oats. It may be late Friday before we get a grain rally which must be near.

RANGE OF FUTURES

Furnished by E. W. WAGNER & CO., 212 Union National Bank Building.

CHICAGO, March 31.—Following is the range of futures on Chicago board of trade today:

BRINGING UP FATHER BY McMANUS

MODEL STATE FARMS GOVERNOR'S AIM FOR INDIANA INSTITUTIONS

(By Associated Press)

INDIANAPOLIS, March 31.—Model farms at state institutions that will be an inspiration and a guide for the community is the plan of Governor McCray that prompted the call of his "farm conference" April 7 at the state capital.

The boys then lit out for another bank, presented their \$5 to the receiving teller and asked for a certificate of deposit and on receiving the same wended their homeward way. The certificate called for just \$5.

That night the paying bank was "195 over." This led to a check up. The cause was discovered on examination of the checks. In the mean time that precious certificate of deposit was examined at the farm home that evening and found to be \$495 short of expectations. Bright and early the next morning the boys were back in town. Being unable to convince the teller that they had given him a \$500 bill, they ambled over to the first bank, where they found \$495 awaiting them.

The teller who relates this story tells it as being his "funniest banking experience."

Farm Wages Cut Down.
A young man who has been canvassing farmers for work for two or three days says that he called on a farmer on the Greensfork pike, who told him that he had just secured a man and his wife to occupy the tenant house and to get busy on a basis of \$25 per month. A cow is to be furnished, and it may be also a few chickens, but so far no pigs were mentioned, nor is the new man provided with any kind of rig to use in going to town. The young man now seeking work is an experienced man, has some friends in Richmond and recently came here from West Virginia, where he was employed on the state farm, as he claims. This shows conditions so widely at variance with those of a year ago that it is a story which makes its own application.

Another Wool Pool.
The general plan for marketing the Indiana wool clip this year is to do so through the Ohio Wool Growers association.

Plan Pure-Bred Herds.
In time it is planned to have a purebred dairy herd at each of the state farms. Better class of other stock also is planned to be obtained for the institutions.

Some of the farms at the state institutions, are generally regarded as badly located from a strictly agricultural point of view, but improvement of these by the men in charge is planned by the governor. In some places, the farms have not the inherent producing qualities of others, but the model farm at these places is on the program as well as those of better grade land.

PREBLE GIFT CORN SHIPMENTS READY
NEW PARIS, O., March 31.—Arrangements have been completed for shipment of the gift corn which was contributed by townships in the north end of Preble county for foreign famine relief. Mr. Ed Clark announced Thursday morning.

A car has been ordered and will be placed, probably Friday, at Eldorado. Corn which was delivered at West Manchester and at New Paris, will be trucked at Eldorado for loading.

Instructions for billing out the car have been received by Hugh Mitchell, secretary of the farm bureau. As soon as the car is set, its number will be telegraphed to Columbus, and from there sent to Chicago, from which all billing will be done by the central office.

Only 309 automobiles were reported stolen in France last year, while more than 50 percent were recovered. Arrests were made of 225 persons suspected of the thefts.

The Farm and The Farmer

By William R. Sanborn

Once upon a time two young farmers tripped gaily into a Richmond bank. They tripped gaily because they had a check for \$500, paid them in a deal by another farmer. The paying teller handed them a \$5 note, at which one of the young men remarked that this was the first time he had ever seen a \$500 bill.

The boys then lit out for another bank, presented their \$5 to the receiving teller and asked for a certificate of deposit and on receiving the same wended their homeward way. The certificate called for just \$5.
