DAUGHTER WINS "MOST BEAUTIFUL" TITLE WITH BEAUTY INHERITED FROM MOTHER

Miss Clare Boothe, right, and her mother.

Miss Clare Boothe of Greenwich, Conn., recently was voted the most beautiful girl on the Riviera. She was, at that time, in Nice. She later went to London for a brief visit. Miss Boothe's striking beauty seems to be a family trait, judging by the photo of her mother.

Lost Costume Results in Arrest of Junkman

A pair of boots, a flimsy costume, and a wash boiler proved the undoing of Henry Wagner, Second and Williams street, who saw these reposing outside a local theatre Thursday afternoon. He loaded them in his wagon and drove away.

One of the dainty actresses, frantic with the loss of her stock in trade, notified the police who began an investigation which led to the recovery of the articles in time to prevent an embarrassing moment in the show. Wagner was fined \$2 and costs and sentenced to one day in jail for petit larceny, the jail sentence being suspended.

Wagner stated he thought it was junk. TEACHERS GET WAGE RAISE. HARTFORD CITY, Ind., April 1.—The city school board has adopted a scale of increases in wages for teachers of the public schools. Grade teachers will be paid according to the amount of preparation they have had. High school teachers will be paid according to the length of time they have taught here.

THE FORUM

I wish, on behalf of the Chinese "famine sufferers" at home, to express my heartiest gratitude to you and to your paper, for an article on "Starvation in China," which was published on March 15, 1921 of your paper. Such sympathetic spirit of yours towards China will lead to closer friendship between China and the U. S. A. I wish for the sake of humanity and of friendship between China and the United States you will please make further publication of the Chinese famine news, if any more opportunity will be offered you; or use your best way to call the attention of the people on the severity of the famine in China and the urgent needs of help needed.

We have a popular proverb in China which runs as follows: "If you have received from any person the favor of a little drop of water, afterwards, in expressing your gratitude, you must offer your fountain to him." The Chinese realize how much the Americans have done for them, and that China has been and is receiving from America, but is not able as yet to return. However, she is looking forward with great anxiety to the day when she will be able to do the "return" business.

I am, yours truly,
A. G. WAUNG,
Chinese student at A. G. Ham college.

SUBMITS STATEMENT ON DANCE PAVILION

Timothy Nicholson has submitted the following pertaining to the proposed establishment of a dance pavilion in Glen Miller park:

"In a recent issue of The Survey, the leading sociological journal in this country, were given some of the results of a two years' investigation of dance halls in hundreds of American cities, by John Phelan.

"One hundred and eighty replies to letters addressed to city mayors and clerks were received. In addition many other sources were consulted, including clergy, juvenile courts, probation officers and other social agencies. The testimony of all these is uniform in branding the dance hall as one of America's greatest social problems; and the verdict is borne out by the various reports of vice commissions, senate investigations and city recreational surveys.

"State laws are becoming more strict in regard to dance halls. Forty-six city ordinances stipulate that halls used for dancing shall be brightly lighted; 'shadow' and 'moonlight' dances are strictly forbidden; provisions for separate and proper toilet facilities for men and women is emphasized.

"In several cities no dance is allowed without the presence of a special policeman and dance matron, both in uniform, to enforce the law. Other city ordinances forbid all close dancing, such as 'coast to coast', 'face to face', 'bunny hug' and 'shimmy', and all jazz music is specifically barred.

"Some city ordinances forbid dances to be held within a given distance of a church, a school, or a public library, and at least one city demands that 66 per cent of property owners within a radius of one square must have consented to the use of a hall for dancing before permission for such use is given.

"If the dance hall is such a nuisance, I cannot believe our citizens will permit the establishment of one in our beautiful city park.

"Respectfully,
"TIMOTHY NICHOLSON."

—roofing
for your
building
?

The selection of a good material is an essential part of a building's construction or repair. Roofing is supposed to protect the interior of a building and the material contained in it.

Cheap roofing will crack, or rot and consequently leak. The leak may damage the contents of your building, and the cost to you may be many times the value of even the highest-priced roofing.

As a responsible distributor, with a reputation to maintain, we recommend

RU-BER-OLD ROOFING

We know from knowledge and experience with roofing materials, that Ru-ber-old is made of the highest grade felt, and the best saturating compound and the best coating compound. It costs a trifle more, but it lasts—some buildings covered 20 years ago are still in good condition.

Ru-ber-old will not crack, rot, run rust or warp, and will not leak. Sparks "fall dead" on Ru-ber-old because of its fire-resisting qualities.

We can tell you some interesting things about roofing. Come in and talk over your problem.
