Making the Automobile Business Stand the Test

It's a big job, but after all it's the big jobs that pay the best in the end. Consequently, Eastern Indiana's largest and fastest growing automobile dealers made the Automobile Business during the past month of March break away from its "wait till later to buy" mood and put over a big sales month in New and Used Cars. Prospective car owners are now buying; automobile factories throughout the country will soon be operating full 100% and once more one of the largest businesses in the world will be back to normal and ready to supply the great demand which is now being created for cars.

"Get Rich Quick"—Get Wise Quick

It's human nature to want to get rich quick. That's why thousands of people lose in the aggregate hundreds of millions of dollars yearly through some scheme labeled "Get rich quick!"—which later bears the epitaph, "Smashed up quick!"

If those who foolishly invest in wildcat schemes, or who place their money in irresponsible companies offering high rates of interest, do not get rich quick, they at least get wise quick.

Profit by their experience. Build up your savings fund systematically in a strong institution such as Dickinson Trust Company, where safety is assured and where your money will be available when needed.
