GERMANY TEACHES MARRIAGEABLE DAUGHTERS DOMESTICS

Class of girls in the Berlin school learning care of young baby with life-sized doll.

Germany's heavy losses during the war have made it imperative that the mortality rate be reduced to the minimum while the country is getting back to normal. One move of the German

authorities along this line is the construction of a school in Berlin where girls of marriageable age are taught domestics, including the proper care of infants, clothes making and home

methods of curing illnesses. Whenever possible live babies are used by the classes for demonstrations of the proper care of infants. A doll is being used in the picture.

A Spring Tonic that will Give You Vigor

Winter is a Season of Wearing Out, While Spring is Mending Time

For centuries the need of a tonic and blood purifying remedy in the spring has been recognized. During the indoor months the bodily organs are taxed to the utmost in digesting heat-producing foods and in maintaining the bodily temperature. The kidneys and liver usually fail to expel all the waste matter that accumulates in winter, and hence Spring finds the blood impure. The nerves get their nutrition from the blood and, therefore, their functions are impaired. The result is a disordered condition of the whole system. If your health is not up to standard, take

Nyals Hot Springs Blood Remedy

It will purify and enrich the blood, tone up the liver and kidneys, aid digestion and restore the nervous system to normal condition. Here is a time-tested and guaranteed remedy that means a new supply of vitality and energy and will make health secure during the warm season. It's both a blood purifier and a tonic.
