

RICHMOND PASTORS, LAYMEN, IN FAVOR OF BILLY SUNDAY'S WORK

Enthusiastic endorsements of "Billy" Sunday were given by pastors and laymen who visited him in Cincinnati, Friday, in a brief symposium preceding the night lecture of Dr. M. A. Honline, at the East Main Street Friends' church, Sunday. Rev. H. S. James, chairman of the Ministerial association evangelistic committee, which made the Cincinnati trip in an effort to get Mr. Sunday's assurance of his coming to Richmond, led in the testimonials.

He said: "We made a trip to see Mr. Sunday on March 15, and we thought everything had been settled for his coming to Richmond in the spring of 1922. Mr. Sunday, however, received unfavorable reports from some source from Richmond after our trip and we had to go to see him again last Friday. If there are any of you who cannot boost for him, please don't knock."

Backus Indorses Work.
Rev. A. H. Backus spoke next: "There's a man sent by God and his name is 'Billy' Sunday. One of the most remarkable evidences of his power is shown in the manner in which men who were opposed to his coming to Cincinnati have been won over after feeling the mighty pull he makes on the hearts and souls of men."

Rev. E. Howard Brown said: "The great crowds swarming into the tabernacle and the great messages delivered by Mr. Sunday appended very strongly to me. It was a grand sight to see the thousand young men and women responding to the invitation song and going to the front of the tabernacle to accept the gospel."

Walter Dabney said: "As a layman and member of the party that went to see Mr. Sunday, I wish to give my endorsement to bringing him to Richmond."

Dennis Favorably Impressed.
Dennis Dennis said: "I was very favorably impressed by the Sunday meetings. I believe that to bring him here will not only mean help to us, but that the influence of his meetings will be felt from Muncie to Dayton."

Rev. R. W. Stokes spoke: "What ever we say or don't say about Mr. Sunday will never make or unmake him, for he is already made in the country."

Rev. A. F. Mitchell: "I have believed in 'Billy' Sunday as an agent for good for many years. I endorse most heartily the utterances just given."

HONLINE

(Continued from Page One)

much attention to the problem of the future son or daughter-in-law as they do to the pedigree of their barn yard stock, for the same laws of nature govern both. Organism can only become in adult life what it was in its germ form. But good heredity may amount to little in a bad environment, as also may bad heredity be kept in check by a good environment. It is gloriously possible to make passably good citizens out of the most of us.

"Nature and nurture are two processes going on all the time. Nature begins before birth and nurture starts at birth. Nature gives us the raw product and nurture gives us the finished product. Physical and social environment cannot be avoided. We react to stimulation."

Elements in Children.
"In each child there are four elements: physical, intellectual, social and religious. It is the development of these that we should covet. Religion is already in the child, but we must fan it into flame. It is there just the same as chaff whistles, and will come out when the times comes. Mother nature gives us these endowments for use. Otherwise we lose them. If the child's religious powers are not developed they tend to die out. We know by statistics that 90 per cent of the persons who join the Protestant church in North America do it before the age of 25."

"This teaches us when we must expect to encourage the religious nature in the human being. If a person hasn't joined before 25 the chances are against it. My plea is for the child and his rights which have been ordained from the beginning of the world."

John Johnson presided. A quartet number was given by Mrs. Bartel, Miss Nussbaum, Ben Bartel and Ernest Renk. The Rev. L. E. Murray was in charge of the devotional. E. T. Albers, secretary of the State Sunday School association, spoke for a few minutes telling of the coming state Sunday school convention to be held in Lafayette June 14, 15 and 16. He urged a large attendance from Richmond and Wayne counties.

Afternoon Lecture.
Painting in the historical incidents in the evolution of the world toward the modern comprehension of the Bible and the Christian religion, Dr. M. A. Honline set the stage for the following seven lectures, at his first lecture given at 2:30 o'clock Sunday afternoon. Approximately 700 persons

attended despite the inclement weather. Dr. Honline's lecture was almost wholly educational in character. With a sureness born of apparent familiarity with his subject, he traced the progress of the Christian religion from the year 313, when it was legalized in the Roman empire through the period before the Bible was translated.

"For 1,000 years western Europe was dominantly Christian without the Bible," said Dr. Honline, leading up to the many translations which followed that of John Wycliffe's new testament in England, in 1385. "Wycliffe had to perform the work writing long-hand with goose quill and a poor grade of paper. When he had finished copies could not be given to common people because they cost about \$200 each, in our money."

Tells of Translations.
Rapidly then, Dr. Honline told of the translation of 1525, the pentateuch in 1530, translations in 1535, 1537, two in 1539, another in 1557, one in 1560, and finally the King James version in 1611. He called attention to the fact that England had nine translations within less than 100 years.

"The Bible has played the most important part in three world revolutions: intellectual, religious and political. Today we are engaged in a social revolution and if its problems are to be solved it must be done according to the words of Jesus Christ."

"I want to plead for a systematic study of the Bible. Not as a pastor, for I am not a pastor, but as a student of history."

Holding in his hand a copy of the Bible, Dr. Honline concluded with: "Let England stand for her manufacturing, and France for her paintings, but let America stand for this old book."

Harrison Scott presided. Lee B. Nussbaum led in congregational singing. Mrs. Fred Bartel sang a solo. The Revs. H. S. James and A. H. Backus were in charge of devotional services.

News of the Counties
MILTON, Ind., April 18.—The Alumni association of the Milton schools met recently at the high school with Wallace Warren acting president. The following committees were appointed: Banquet, Miss Gussie Miller, Mrs. Samuel Hoshour, Olin Davis and Miss Marie Snyder; entertainment, Ernest Jones, Neil McMahan, Albert Newman, Miss Ruth McCormick and Miss Margaret Ohmit; invitation, Mrs. Ernest Doty, Walter Higham, Miss Dorothy Hoshour, Walter Turner, Katherine Snyder and Ernest Doty.

EATON BUSINESS MEN MAY SETTLE STRIFE

EATON, O., April 18.—Believing the local telephone war a detriment to business and the general welfare of the community, business men of Eaton have taken steps looking to an amicable settlement of the differences between the Eaton Telephone company and a patron's organization that is waging the war.

Charles Frech, chairman; V. V. Brumbaugh, W. O. Gross, A. H. Christman and L. O. Baker constitute a business men's committee, named in a meeting, to effect, if possible, an adjustment of differences.

Committee Meets Factions
The committee had a separate conference Saturday with a committee from the telephone directorate and a committee from the opposition. The committee expects to meet early this week, to which both the factional committees will be invited. The committee hopes to get concessions from

each side that will result in a satisfactory settlement of the situation. The organization of former patrons is made up largely of farmers. The war was lately extended to Eaton, when a committee was set to work to induce business houses and homes to give up their telephones. Reports on the result will be given in a meeting of the organization Wednesday night.

John Markey, R. J. Scheid and Jacob H. Sherer formed a committee that presented to the county commissioners Saturday a resolution of the organization requesting the commissioners to have removed all telephones in the court house that they deem unnecessary "so as to curtail the expenses of the county."

MADRID, April 18.—Sixty persons were injured, 10 seriously, when two trains collided Sunday near the Torrejon station. Ten coaches were destroyed by the impact.

Armistice Car Will Be Exhibited With War Relics

(By Associated Press)
PARIS, April 18.—The railway carriage in which the German representatives signed the armistice is, with Marshal Foch's consent, to be given a place of honor on the terrace of the Invalides, beside the trophies of the Crimean war.

It was originally intended to present the historic relic to the Louvre Museum but it has been decided that in view of its military significance, it should be exhibit at the Invalides.

DON'T SUFFER WITH NEURALGIA

Use Soothing Musterole

When those sharp pains go shooting through your head, when your skull seems as if it would split, just rub a little Musterole on your temples and neck. It draws out the inflammation, soothes away the pain, usually giving quick relief.

Musterole is a clean, white ointment, made with oil of mustard. Better than a mustard plaster and does not blister. Many doctors and nurses frankly recommend Musterole for sore throat, bronchitis, croup, stiff neck, asthma, neuralgia, congestion, pleurisy, rheumatism, lumbago, pains and aches of the back or joints, sprains, sore muscles, bruises, chilblains, frosted feet—colds of the chest (it often prevents pneumonia). It is always dependable.
