

JOINT CLUB MEETING WILL FOLLOW FORUM WEDNESDAY EVENING

Attendance at the second Chamber of Commerce forum meeting is being urged in cards mailed to members by the secretary-manager. The meeting will be in the Chamber of Commerce assembly room in the K. of P. building, at 7:30 o'clock Wednesday night. Several articles of the 14 points in the program of work adopted at the first meeting have been industriously promoted, and it is expected added impetus to the program activities will result from the meeting Wednesday.

The latter half of the meeting will be given over to a joint meeting of the Rotary club, Kiwanis and Chamber of Commerce, to hear an illustrated talk on "Community Chest," by Elwood Street, secretary, American association of Community Welfare organizations, Louisville, Ky. A joint committee from the three local organizations invited Mr. Street here for the illustrated talk.

INTEREST REVIVED IN HORSESHOE PLAYING

Indorsement of a move to establish horseshoe courts in the parks of Richmond was made by Mayor Zimmerman Monday morning, the movement to be carried on through the park boards and recreational committees of the city.

Efforts are being made by the Indiana State Horseshoe Pitchers' association to revive interest in the blacksmith's game. If the game is well received by the public, local teams will be affiliated with the state body. Homer Marsh, state president, in a letter to the mayor states that in one city eight 10-men teams have been organized. Business men and everybody is trying to get in. The park board has built four large, and two women's courts, he states.

WHITE FROCKS ARE SUMMER FAVORITES

The white frock is always the favorite of summer months. It is cooler than colored frocks and it launders perfectly. The stains of grass, mud and picnic accidents hold no terrors for the girl who wears white, for her frock may be boiled and made as fresh as new. This dainty frock is plain with trimming of hand hemstitching, which gives it an exclusive air.

The system of preserving green food by ensilage was invented in France.
