

TREES WILL ENRICH OWNERS AS WELL AS HONOR WAR VETERANS

Uprightness—standing for truth like a tower;
Dignity—symbol of honor and power;
Beauty that blooms in the ultimate flower!

STEPHEN THAYER.
BY LEOLA ALLARD.

If you are short of sentiment, and think more about money than you do about the service that your soldiers gave you, even that is no excuse for being a tree slacker. Your help is wanted in planting trees along the nation's highways in memory of the services of all soldiers of the world war. It will pay you in dollars, if that is any argument. Property with shade trees brings a higher price than property without. Roads with trees give comfort to you and your children and your children's children. Doesn't that appeal?

Shelter and shade are two of the blessings the trees give us. In these days of the scarcity and high price of fuel for our homes and schools, trees are an asset as wind breaks. A group of trees on the windward side of your building keep it warm against the cold blasts.

Welcome Shade.

The heat of summer is bearable with scattered trees and their shade along your paths. The attractiveness of any place is enhanced by trees.

With a little care you can plant memory trees on home grounds, street, school lawns, or parks.

Trees cool and purify the air. Public forests have been used for health resorts because of the trees. If you plant a few trees together, happy groups here and there, they will reward you without fail.

Without bird life agriculture is a failure. In central Spain all the trees were cut down at one time because the birds ate seed and the farmers thought they were a nuisance. They lived in trees, so the authorities said the trees had to go. By this act Spain lost about 200 years of agriculture. In the last ten years it is reforested, but trees need time to grow—worthy ones.

Need trees. There is no question about the need, the value, the absolute necessity of planting trees in America. Any small argument against it is overcome by big arguments by people who know the tree subject. If you are uncertain about it, take the word of the country's intelligent men whose business it is, and has been for many years, to find out about trees.

There is but one question left—HOW MANY trees will you plant?

If there is anything you want to do, if you haven't been told about trees, you are welcome to write the American Forestry association at Washington, and you will be sure of a courteous reply, and a quick one.

Called by Death

EATON, O., June 6.—Following his death Wednesday at Lisbon, O., at the home of his daughter, Mrs. F. J. Jackley, formerly of Eaton, the funeral of Abraham Detrick, 82, Civil war veteran, was held here Saturday. The Rev. E. W. Fitch, Barron Street Christian church, officiated at the services, along with the G. A. R. post. Burial was in Mound Hill cemetery. The decedent had made his home with his daughter the last 20 years. After a long residence in Eaton, the Jackley family moved to Lisbon a year ago.

The daughter and one son, Dean Detrick, of Cleveland, survive.

EATON, O., June 6.—Funeral services for William C. Dove, 81, Civil war veteran, former public official and prominent citizen, were conducted Sunday afternoon in the Christian church, with the Masonic fraternity in charge, assisted by the pastor, the Rev. Hiley Baker, and the Rev. J. F. Burnett, of Dayton, formerly of Eaton. Burial was in Concord cemetery, where Masonic burial rites were observed.

One son, Ivan J. Dove, of York, Pa., survives.

EATON, O., June 6.—Funeral services for Mrs. Eliza Conger, 85, who died Thursday at the home of her son, J. E. Conger, near Sugar Valley, were conducted Sunday morning in the Sugar Valley Methodist church, followed by burial in Mound Hill cemetery. Two sons and two daughters survive.

Japan is so mountainous that only about one sixth of its land is cultivated.

HERE'S WORLD'S SMALLEST CHURCH

Arguments have been heard the world over regarding the location of the largest church in the world, but it has remained a mystery until now as to the smallest one. The latter is located in Monte Casino, near Cincinnati, Ohio. It will accommodate only three persons and was built for the monks who inhabited Monte Casino by Father Otto, a monk stonemason.

World's smallest church at Monte Casino, near Cincinnati, Ohio.

The Home Garden

The necessity of spraying fruit trees to take care of the remaining crop, especially of apples, and to assure healthy foliage and a good crop next year, is emphasized in a statement issued by the agricultural experiment station of Purdue university recently. The regular schedule should be observed with only slight modifications. The statement is part of a series of "Special care in a poor crop year will pay because of the greater value of the fruit produced, and many trees that now appear to be barren will show a comparatively large amount of fruit later."

A more important reason for careful spraying, even where a profitable crop is not in sight, is the effect that spraying will have on next year's crop. Only healthy foliage can produce a sufficient storage of food materials for a crop next year. (Fruit buds for next year's crop will be formed this summer.) In other words, the amount of food material stored this season will determine the amount of bloom and the set of fruit for next season, and to a larger extent whether or not the fruit will mature properly next year. Foliage can only be kept in a healthy condition by protecting it against insects and disease through proper spraying. Entire crops have been known to be destroyed by severe attacks of apple scab during the late summer of the previous season when spraying had been neglected. The trees were defoliated, making it impossible for them to produce strong, healthy fruit buds. Such trees may bloom, but the fruit either does not set or falls during the June drop.

"If no spray has been applied since the bloom, the trees should be sprayed now and the regular fourth summer spray applied between June 25 and July 15. However, if blight and bitter rot are known to be in the orchard, affected varieties should be sprayed with Bordeaux mixture."

"These diseases are carried over on the twigs and branches of the trees and protection of the foliage and twigs will materially assist in their control on the fruit next year."

With an Autographic Kodak

the date and title may be written on each film at the time the picture is made.

This autographic feature is exclusively Eastman—and every Kodak has it. Photography expensive? Look at the price tags in our Kodak window—or better still look over the line. Expensive? You never got such lasting pleasure at so small cost.

CHARGES OF GRAFT AND SCANDAL STIR JAP PUBLIC OPINION

(By Associated Press)

TOKIO, June 6.—Several scandals in official life have aroused public opinion in Japan and have called forth severe condemnation from some of the metropolitan newspapers. The graft charges made in connection with the running of the South Manchuria railway and the alleged illegal sale of opium in Manchuria which were exposed at the last session of the Diet have now been followed by a series of sensational scandals in Tokyo in connection with the sale of gas to the public, the operation of the customs at Yokohama and the building of highways and other public works. Officials of the Tokyo Gas company have been arrested on the charge of bribing members of the Tokyo city council, many of whom are facing trial for accepting bribes. Similarly, contractors are alleged to have offered bribes to official employees.

Pilot THE CAR AHEAD

Pilot individuality is striking because each car is built as though it were for a particular individual. But there is more than good style in the Pilot Six-Fifty—there is lasting quality, and dependability, and still more important—economy!

whilst at Yokohama government servants are charged with conniving in the smuggling of watches and jewelry generally.

Gas Price a Factor

The gas scandal has excited the public most for the high price of gas authorized has hit the pocket book of every household.

Ichiro Tokutomi, the distinguished editor of the Kokumin Shimbun in an editorial compared the Hara ministry to the former Tammany Hall organization of New York. He wrote: "The Hara ministry is Tammanyizing not only Tokyo City, but the whole of Japan. Even the colonies beyond the seas are being corrupted. Why is it that against such glaring facts, no powerful voice of protest has yet been raised in the interest of justice?"

EATON GRAND JURY IN SPECIAL SESSION INDICTS PRISONERS

EATON O., June 6.—Sitting Saturday in special session the May grand jury returned three indictments, after examining five witnesses.

Raymond Lumford and Emanuel Brewer, half-brothers, were indicted jointly on a charge of grand larceny. Pearl Murray was indicted for non-support of wife and children.

Judge A. C. Risinger called a special session of the jury because of the fact that the three men indicted are in jail in default of \$500 bond each and their cases would not have been acted upon until the meeting of a new grand jury in next October.

Murray to Address Lodge.

The Rev. Thomas Murray, pastor of Eaton and Eldorado Universalist churches, has been secured to deliver the memorial address at the annual memorial and decoration services of Waverly lodge, Knights of Pythias, to be held Sunday in Mound Hill cemetery.

Odd Fellows Memorial.

Tribute to the memory of departed members was paid by Eaton lodge, Odd Fellows, at its annual memorial and decoration services Sunday afternoon in Mound Hill cemetery.

Frank I. Brown, of Dayton, delivered the memorial address. The Rev. Hiley Baker, Christian church, offered prayer and the Rev. J. E. Yingling, United Brethren church, pronounced the benediction. The Rev. Ernest W. Fitch, Barron Street Christian church, presided as master of ceremonies. The program was interspersed with music by the Lewistown band.

Members of the lodge, including Canton Nonpareil, and visiting brethren formed a procession at Odd Fellows hall and marched to the cemetery. About 200 were in line.

Company Members to Shoot.

Captain C. M. Karns and ten members of Co. K, First Infantry, Federal guards, left Sunday morning for Camp Perry for six days' rifle practice, to qualify for the state team shoot the latter part of June.

The members going to Camp Perry were: Sergeants John Callaway, Ivan Long, Marion Wyson, Corporal Savannah Wehrley and Privates Lewis Brown, Wilbur Stanton, Charles Davis, Charles Cobin and Raymond Cole.

Waterproof concrete houses or bungalows with vaulted roofs which are planned to make them cool in summer and warm in winter, have been constructed in Buckinghamshire, England, in two weeks' time.

CENTRAL AMERICAN UNION ENDORSED BY STATE DEPARTMENT: PEACE IS SEEN

Cross-shaded states are four now in the union. Lighter shaded states are expected to join it later.

For economic and geographic reasons, Guatemala, Salvador, Honduras and Costa Rica have formed "the Federal Republic of Central America." Nicaragua and Panama are expected to join the federation later. A new canal to relieve the Panama canal and an improvement in railroad communication between the countries and through them are two big results expected from the union. Secretary of State Hughes has said that if the proposal for the confederation were accepted by all the peoples concerned, "it would, in the opinion of this government, be a happy result."

Speedy Disarmament Urged By Friends in Indiana

WASHINGTON, June 6.—Many Indiana people and particularly congregations of Friends, have been writing recently to their senators and congressmen urging speedy action on the proposal for a conference of the great nations looking toward disarmament. Some of the letters make the provision that disarmament should be brought about only in such a way as is consistent with public safety. While Senator New has taken a great interest in maintaining an army and navy of high efficiency, he believes in the reduction of cost of armament as much as possible. He gave a practical demonstration of this feeling at the last session of the congress when he introduced the bill to reduce the army to 175,000. The efforts when he introduced the bill to reduce the army to 175,000. The efforts which he initiated have already resulted in an enormous saving.
