

FORMER GREENVILLE RESIDENT DEFENDANT IN LEGAL CONTEST

GREENVILLE, July 2.—George Hill, a former resident of Greenville, was made defendant in an action filed in common pleas court here by the Franklin Tractor company, seeking to recover the sum of \$20,000. Hill was president of the tractor company, which has a factory in the south part of the city, from July, 1919, until August, 1920. As president of the concern, Hill had in his custody the funds and it is alleged that at different unknown times he appropriated for his own use sums aggregating the amount named in the suit. The whereabouts of Hill are unknown, but it is thought that he is in England. He was also named defendant in a suit for \$20,000 by the Rike Krummer company, of Dayton, which is alleged to be due on merchandise.

Suit in replevin was filed in a court of the justice of the peace at Sidney, Shelby county, by the Dayton and Darke County Oil and Gas company, against Dr. H. W. James, formerly an officer of the company, to recover articles which are alleged to be withheld from the company. The articles include a stock certificate book, the minutes of the stockholders and board of directors meetings, and the seal of the company. The company, which was incorporated under the laws of the state of Delaware, has its principal offices in this city, and is conducting extensive drilling operations in the northern part of the county. James, as an officer of the company, had the above named articles in his possession, and upon being ousted from the organization at a recent meeting of the board of directors, has since refused to return them. The suit was filed by R. M. Pease, president, and J. Rolman, treasurer of the company.

Where the Railway Left Off—
The Uintah Railway terminates at Watson, Utah. Between Watson and Vernal stretches 60 miles of arid desert.

And yet the public suffers no inconvenience in traveling between these two towns, because the Uintah Railway maintains an unending passenger service with two Buick cars.

"The 60 mile road between Watson and Vernal is entirely unpaved, across an arid desert, with no habitation save three freight huts," writes Vice-President Robinson of the railway.

"In summer the temperature ranges as high as 110°; in winter as low as zero, with the road often covered with 12 inches of snow. The two Buicks have never been off this route—are operating there today."
