

AMUSEMENT COMPANY IS WELL PATRONIZED

Managers of the World at Home Shows, exhibiting this week at Athletic park, under the auspices of the American Legion, stated today that the attendance at the shows on Monday night was the greatest they have played to this season.

Members of the company stated that all of the attractions were well patronized last night and that most of the shows and rides did a capacity business until a late hour. The company and the American Legion boys are hoping for continued fair weather for the rest of the week.

The shows all are said to be novel and entertaining amusements.

The American Legion amusement committee and the management of the World at Home Shows issued a statement explaining the gate admission of ten cents. The Legion engaged an extra attraction to be presented as a free act and the public is given the benefit of the free performances, which take place each night at 8:30 and 10:30 o'clock. Band concerts start promptly at 7 o'clock and all shows and rides commence at 7:30 o'clock.

To be in style in the Congo the women wear anklets weighing as much as 12 pounds.

The Theatres

MURRAY

A well known stage and screen player was engaged as leading man for Alice Calhoun, the popular Vitagraph star in "Closed Doors," which will be shown at the Murray theatre Thursday.

He is Harry C. Browne, whose career includes long engagements on stage, screen and comic opera. He spent nine years in stock and repertoire companies, including Shakespearean classic and modern plays. These prepared an excellent foundation for later achievements. He was made lead in the first road production companies of "Arizona," "Zaza" and "Magda," winning for himself an enviable reputation and calling his work to the attention of some of the greatest stage stars of the day.

Edith Tallaferro engaged him as her lead in "Rebecca of Sunnybrook Farm." This engagement was followed by one opposite Lillian Russell in "In Search of a Sinner." Francis Starr next called upon the talented leading man to appear with her in

MURRETTE
Charles Meredith, appearing in the leading male role in "That Something," the feature attraction which comes to the Murrette Theatre, starting Wednesday, may generally be found, when not busily engaged by

the demands of his profession, in some mountain canyon bent upon his favorite pastime—trout fishing. He has always been an ardent follower of the reel and line and delights in a recreation that takes him into the wilds; one that offers him an opportunity to be close to nature and to for-

Who says that "bargain" tires are what the people want

MOST everybody knows the easy-going sort of man who never takes a tire seriously until he gets a blow-out.

How long he will resist universal tire education is a question.

But this is sure—

More people are finding out every day that between leaving things to luck and getting *real economy* there is a big difference.

Many a car-owner has come to U. S. Tires because he couldn't afford to keep on *paying* that difference.

Probably seven out of ten users of U. S. Tires came to them only after they'd had enough of "discounts," "bargain offers," "clearance sales of surplus stocks" and other similar appeals.

They have found *economy*—and they stick to it!

They pay a *net price*—not "something off list" that may not mean anything in the first place.

They get *fresh, live tires, being made and shipped* while this message is being written.

No matter where they live there's a nearby U. S. Dealer with his nearby U. S. Factory Branch.

U. S. Tires keep *moving*.

No opportunity to get old and dried out. No shifting here and there trying to find a market.

Every U. S. Tire a *good tire*, wherever you find it anywhere in the country.

Because the U. S. policy is a *good policy* that serves the car-owner a the time.

Doing the very best for him that human good faith can do.

THE U. S. CHAIN TREAD

One of the few tires of which it may be said that they deliver economy year in and year out and tire after tire.

The U. S. Chain Tread gives sufficient traction on all ordinary road surfaces. It is probably the handiest, and by all odds the most popular, of the whole U. S. Fabric Tire line.
