

COUNTY OFFICIALS DISPUTE CUSTODY OF ALLEGED MURDERER

WINCHESTER, Ind., July 9.—Falling to gain permission from Prosecutor Clarence E. Benadum, of Delaware county for the re-transfer of James Mabrey, colored, from the Randolph county jail to that of Muncie, attorneys for the prisoner, who is under indictment for first degree murder, filed a petition for a writ of habeas corpus Friday, before Judge A. L. Bales. Mabrey is accused of being one of the four highwaymen who fatally wounded Gus Volda, a Roushmanian, on the night of May 23, when the forger was enroute to Muncie to a farm southeast of the city.

Dr. Xene Y. Smith, former police commissioner of Muncie, and Ross Keith, a Muncie horse trainer, were also indicted by the grand jury as suspects in the Volda killing. In the complaint Mabrey alleges that he was placed in the custody of Sheriff Lundy Fisher of Winchester, on July 3, and that this action was unlawful, inasmuch as no court order permitting the transfer was granted by Judge William A. Thompson of the Delaware county court. The prisoner also alleges that he is not being held for any criminal charge committed in Randolph county and that Sheriff Fisher does not hold him for his detention. Mabrey contends that he was placed in the Winchester jail upon the verbal request of Sheriff Thomas H. Alt and Prosecutor Benadum of Delaware county and that his removal was not made to make certain his safe-keeping. The habeas corpus proceedings which name Sheriff Lundy Fisher as defendant will be heard in a few days. Sheriff Fisher has given out the statement that Mabrey was removed from Delaware county to the jail here for safe keeping. The sheriff stated that he had a right to permit the negro's transfer to this jail, without a court order, and that he will keep him as long as necessary, unless ordered otherwise by the court.

Business Block Sold
The William W. Knecht business block, south side of the square, occupied by the Harry H. Oliver shoe store, has been sold to William S. Hoke, a jeweler of this city. Knecht has lived in Los Angeles, Cal., for a number of years.

Hessler Divorce Suit
Suit for divorce has been filed in the circuit court by Fred Hessler vs. Sallie Hessler. They were married at Little Rock, Ark., March 18 and separated June 14. The defendant was charged with cruel and inhuman treatment.

Board of Education Meets
At a recent meeting of the county board of education, Dr. Fred M. Rubey of Union City, addressed the organization relative to the organization of a county anti-tuberculosis society. At this meeting the board also voted to employ an attendance officer and fixed the salary at \$2.00 per day for 316 days in the year, and also to allow him traveling expenses and to have desk room in the county superintendent's office. The county teachers' institute will be held during the week of August 29 to September 2, and trustees' day will be observed August 30, in the new school building at Union City.

The damage suit of Robert T. Smith vs. Edward A. Howell is being tried in the Randolph circuit court before Judge A. L. Bales. Automobile belonging to the two men collided near Modoc, last October.

JOY-RIDING KANAKAS SMASH SPEED RECORDS

(By Associated Press)
PAPETTE, Tahiti.—In olden days when a Tahiti native wished to refresh his soul, he decked himself with the island's fragrant flowers, obtained a goodly supply of raw sugar rum and retired on foot to some shady valley to enjoy himself. Now he travels in an automobile to his retreat, for the island is full of light machines.

Wounded back of Kanakas along the avenue from Papeete to Papete, showing where sundry machines driven by natives have careened from tree to tree, bear grim witness to the wild rides taken by some of the Tahitians. Lately the government has stepped in and made the roads comparatively safe for pedestrians.

All sorts of machines are found here, bright cars, shining with glistering enamel, cars of ancient vintage, with brass radiators, green with verdigris, steering-gear tied with wire, and cars of every degree and condition of repair.

When this invention of the "popa" as the white man is called, came to the island some years ago, the natives fell upon it with glad cries. Every Tahitian who could get credit, mortgaged his land or his relatives' land, or to beg, borrow or steal, and hastened to get a car and for months the island was ringed with a thick cloud of yellow dust. Below the cloud were dim shapes of "jitneys" filled to overflowing with yelling kanakas, rushing through the fog and the shadowy outlines of wild-eyed pedestrians jumping nimbly for the shelter of the largest tree trunks on the side of the highway.

DIGS UP GOLD.
EMMETTSBURG, Ia.—Bernard Smith has discovered his farm to be a literal gold mine. Gold and silver, assaying at \$20 to \$40 a ton, was uncovered while the farmer was digging post holes.

Photo shows proposed airship and revolving tower which will be its landing place.

Peering ahead into the future an aerial transportation line between New York and Chicago is predicted. The big airship will come right into the heart of New York and will have as its landing place a big skyscraper to which the nose of the ship will become fastened. The landing tower will be on a revolving

plan and will turn with the wind so that the airship may not break loose from its moorings. The building is to be erected by a large aircraft syndicate corporation. The airship will be equipped with an automatic stabilizing device counterbalancing wind pressure by starting one or more motors. Two large

airships, 1,000 feet long and capable of carrying 300 people will be placed in service, the fare being \$75, and time ten hours. These ships are capable of remaining in the air for three weeks without refueling and their speed will be eighty miles an hour. Passengers enter the cabin through the nose attached to the tower.

and James. On their way to Chicago, on a tour through the central west.

Tourists from California to New York, from Florida and Texas to Maine, will carry with them memories of Richmond as an ideal place in which to stop as the result of the establishment of the free camping site at Glen Miller park this year. Already, with the season only half over, a total of 138 cars have stopped here, as compared with 26 last year, and motorists from many states have mentioned the fact that they have heard of the Glen Miller site.

Races to Camp
One motorist living in Pennsylvania, drove 265 miles in one day, in order to make camp at Glen Miller in the evening, according to Superintendent Hollan.

The season was opened April 9, when George Author of Spear Fish, S. D., camped here over night on his way from Florida to his home. Motorists were scarce through the remainder of this month, however, as it was too early save for the most hardy motorists. Tourists camped at Glen Miller April 16, 19, 26 and 27. May and June showed a substantial increase in the number and the touring season is now in full swing. July 1, five motorists were registered at the park; July 2, three; July 3, seven; July 4, six, and July 7, three; July 8, Friday, six parties pitched their tents on the free grounds.

THE UNPARDONABLE SIN
From the Birmingham Age-Herald.
"Do you know how high the tide is in the Bay of Fundy?" asked the superintendent of a street railway company.

"No, sir," said the applicant for a job. "I never heard of the Bay of Fundy."

"I can't employ you, then. You would never make a competent motor-man."

Re-Union are Common
As H. K. Dyer, farmer, of Wallingford, Conn., was unpacking his equipment and preparing for a night's stay in the park, Friday, a dust stained car bearing an Illinois license drew up nearby. "Any special place to camp here?" asked the driver.

"Drive in and help yourself," answered Dyer. Then as he recognized the party, "Didn't I camp with you night before last?"

It developed that the party had camped on the same site in Ohio some time before. Later another party was found that had camped with the Illinois car on the previous night. Reunions of this sort are not uncommon, especially as so many motorists are growing to recognize Glen Miller as an ideal stopping place for the night.

Tourists stopping at Glen Miller park Friday night were:
Mr. and Mrs. H. K. Dyer, of Wallingford, Conn., and two children. On their way to Phoenix, Ariz.

Dr. Charles J. Coffey, of Chicago, returning from a trip through the east.
Mrs. Frank W. Hodge and son George of New Haven, Cal. Left New Haven July 2.

Mr. and Mrs. W. J. Boate of St. Louis, Mo. On their way home after a visit in Tampa, Fla.
Mr. and Mrs. L. P. Hudson of Upland, Cal. On their way to Fort Plain, New York.
Mr. and Mrs. W. J. Dixon, of Homestead, Pa., and sons Merle

Spend Sunday

Hawkins Bathing Beach

and avoid the hot weather by taking a good, cool swim

The finest and most sanitary bathing pool in this section of the state, changing running water in and out all the time. Everything in the most sanitary condition. All suits and towels are washed and sterilized after each bath. A most enjoyable sport at the most enjoyable place. Springboards, high dives, swings, trapeze &c. Bring the family, as we have three graduate life-savers on hand at all times. Perfectly safe for women and children.

UNCLE SAM HIRES NOTED EDUCATOR

Dr. Julius Klein.

Dr. Julius Klein, new director of the bureau of foreign and domestic commerce who succeeds Dr. J. S. MacIver, is a native of California and holds degrees from Harvard and the universities of California, Paris and Berlin. He leaves the chair of Latin-American history and economics at Harvard. He is a recognized expert on the subjects of Latin-American economics, trade, politics and history, and he speaks Spanish, French and German.

GREENVILLE WEEKLY CONCERT DATES ARE CHANGED TO TUESDAY

GREENVILLE, O., July 9.—At a meeting held between members of the city band and the city council, it was decided that the weekly band concerts should be held on Tuesday nights, instead of Wednesday or Friday, as had been tentatively agreed upon. This action was taken owing to the fact that the majority of the musicians are engaged with other concerts on other nights of the week. Precedence would have been given the concerts in this city, which will be held alternately at the courthouse and the city hall, had arrangements been made earlier in the summer.

A short meeting of the city council was held, with all members present, and President Morgan in the chair. The ordinance to make appropriations for current expenses for the ensuing six months was passed. The solicitor was instructed to prepare the necessary legislation for the improvement of Wayne avenue, and for the construction of a storm sewer in Oakwood.

The order of the iron cross was instituted by Frederick William III in 1813.

Agnes Ayres

The man had fallen in love with a woman he did not know. Never dreaming this radiant creature the drugging, unhappy wife of a wastrel.

For her Cinderella's heart had leaped to taste of joy and luxury just for one night. And when love answered love—

The rest is a drama that goes to the very bottom of marriage. Glowing with the color, richness and fashion that only De Mille can paint on the screen.

One of the most expensive
screen plays to be shown
this summer.
