## SUFFERED SIX YEARS

Mrs. Stoll Tells Women  
How She Found Relief  
From Pain

Philadelphia, Pa.—"I suffered for six years with pain every month, had vomiting spells the first two days, and was unfit to do my work. I read in your little book about Lydia E. Pinkham's Vegetable Compound and took the medicine with satisfactory results. I am a midwife and recommend the Vegetable Compound to my friends and my daughters as a testimonial."—Mrs. LOUISE STOLL, 609 W. York St., Phila., Pa.

It is not natural for women to suffer as did Mrs. Stoll, and in nine cases out of ten it is caused by some displacement or derangement of the system which Lydia E. Pinkham's Vegetable Compound overcomes, because it acts as a natural restorative.

Every woman who is subject to cramps, headaches, nervous spells, backache or those dreadful bearing-down pains should profit by Mrs. Stoll's experience and give Lydia E. Pinkham's Vegetable Compound a trial, and if there is any complication write to Lydia E. Pinkham Medicine Co., Lynn, Mass., about her health.

## EARLHAM PREPARES FOR MONDAY OPENING; 75 FROM RICHMOND

Earlham college will open Monday, Sept. 19. Enrollments at that time are expected to reach 450. Seventy-five students of this number, it is believed, will enter from Richmond. Some students, President Edwards said, will probably have to live off the campus this year.

Every effort, he added, is being made to accommodate all the students in the college dormitories. For this purpose 10 more double decker beds are to be installed in Bundy hall. The freshmen class promises to be very large this year from present indications.

College students from town are expected to register Monday, Sept. 19. Dr. J. Herschel Coffin, secretary of the college stated. Students from out of town, he said, will arrive on Monday, but will not be expected to report for registration until Tuesday. Regular classes will commence on Wednesday.

### Start Activities at Once

College activities will be organized and put into full swing shortly after the opening. The football men are expected to be here next Monday, a week before the opening of college to begin training and practice preparatory to starting the football season. Y. W. C. A. cabinet girls will arrive Saturday, Sept. 17, to plan their work for the year and organize their forces to care for new students and assist the new arrivals at college.

Printed bulletins are to be distributed to students upon their arrival which will contain important announcements and instructions about paying bills, changes in classes and schedules.

### New Courses Announced

Changes made in schedule include a course in "Principles of Religious Education" which Dr. Alexander C. Purdy will teach. This course is being given by Dr. Purdy instead of "Church History." The addition of an art department to be with the department of music under the supervision of Samuel B. Garton, with Miss Frances Lee Nichols, director of the art department, was recently announced.

Miss Nichols comes highly recommended by such artists as John Bundy and Elwood Morris. The art courses will include work in drawing, water color, oil sketching, special work in designing, poster making and interior decorating. Special work will be given in china painting and clay modeling.

## PLAN HOME PRODUCT EXHIBIT, FLOWER SHOW

Tentative plans for a flower show and a "Made-in-Richmond" exhibit, were discussed at the meeting of the board of directors of the Chamber of Commerce, held at 4 o'clock Wednesday afternoon.

Both events would be sponsored by the chamber, according to present arrangements. The board expressed the hope that the first concert of the Richmond Symphony orchestra would be held in connection with the show and exhibit.

Walker Land, president of the organization, was named as representative from the Chamber of Commerce to the joint committee forming a community chest organization.

It was suggested that young members of the Chamber be grouped into a club. Printing of a monthly bulletin containing information about the chamber is a possibility. Announcement

ment was made that Dell Davis, city engineer, would speak on "City Planning," at the next forum meeting.
