To Begin With Hollingsworth is Healthy

William A. Hollingsworth started several years ago with a capital of \$75 in a store doing about \$6 worth of business a day and has successfully built up a chain of six large retail tobacco stores in New York, doing a half million dollars worth of business annually.

The day by day activity which is essential to every success is much easier when there is health. A spine in line in every joint means an equal supply of nerve impulses flowing to every organ of the body, and another word for such nervous balance is health. If you are sick, see a chiropractor on suspicion.

Chiropractic spinal adjustments remove the cause of diseases of the head, throat, lungs, heart, stomach, liver, kidneys, small and large intestines, and the lower organs of the body.
