This Free Bottle of LURA—The New Liquid Henna Shampoo Will Bring Health and Beauty to Your Hair

WOMEN of all time have sought to preserve and increase the beauty and life of their hair—"Woman's crowning glory."

The ancient Egyptians were masters of the arts of the toilette, in an age when physical beauty was an object of religious worship.

For over 4,000 years their wise men labored to discover tonics that would increase and preserve beauty.

With one exception, their beauty secrets are lost to us, and that exception is now presented to the women of America, in LURA LIQUID HENNA SHAMPOO.

To the constant use of Henna Tonic is definitely ascribed the great beauty of the hair of the Egyptian queens which, after the passage of centuries, retains its lovely texture and glorious sheen.

Lura Has No Equal

Lura has no equal as a shampoo. It is a sweet, cleansing liquid, and remember, that it may be used solely as a shampoo, without hennaizing or coloring, if you want it that way. It is far superior to other shampoos, its strength lying in its solution, which, being made entirely from pure coconut oil and other salutary ingredients, insures a greater solvent of greasy and oily matters that accumulate on the scalp and in the hair. On account of the strength of the solution, you will get a much quicker, heavier and more cleansing lather than is possible with other shampoos, which at once makes your shampooing expense very little. One bottle of Lura Liquid Henna Shampoo will last many weeks.

We know of no similar product on the market that combines a henna and a liquid soap in one solution. People of refinement have discovered that the prophylactic action of this wonderful preparation keeps the hair and the scalp clean, pure and wholesome. It stops itching, cools the fevered scalp and imparts a marked sense of cleanliness. So, be assured, this product primarily is a shampoo—not a coloring or a dye, and will not tint the hair one particle unless so desired.

Henna—A Tonic

For henna is, first of all, a tonic for the hair, though it can be used to confer the ruddy-gold color that is so fashionable just now.
