

HUNGARIANS BEATING BACK FORMER KING

Government Forces Fighting Against Attempt of Charles to Regain Throne Win Pronounced Successes, Report.

RAAB IS RECAPTURED

[BULLETIN]
BUDAPEST, Oct. 24.—The army of former Emperor Charles, which was marching on Budapest for the restoration of the ex-monarch, was defeated with heavy losses by Hungarian government forces at Tata-Tovaras, 35 miles west of Budapest, this morning. The Carlist forces have fallen back. The pursuit by government troops is continuing.

(By Associated Press)
BUDAPEST, Oct. 24.—Hungarian government forces fighting against the attempt of former Emperor Charles to regain the throne have won pronounced successes against the Carlist forces, it was announced in reports to the government today.

The reports stated that the town of Raab had been recaptured and that the Carlists were being attacked in the rear.

This attack, it was stated, was being led by Baron Pronay at the head of the West Hungarian insurgents, who had hurried to the government's aid.

Other reports show that hand grenade fighting had begun after midnight near Torbogy, 30 miles from Budapest. Government forces were greatly heartened, by news of the recapture of Raab and by reports of the operations of Baron Pronay.

The foregoing dispatch, filed by the Associated Press correspondent in Budapest this morning indicated that up to that time at least, former Emperor Charles had not entered Budapest, and that a hard fight with, at any rate, some measure of success, was being made to keep him away from the Hungarian capital.

LONDON, Oct. 24.—An ultimatum has been sent to the Hungarian government by Czechoslovakia, giving the former 48 hours to secure the removal of former Emperor Charles from that country, it is stated in a dispatch from Vienna to the Exchange Telegraph company.

The British government has notified the Hungarian government that the latter must take all possible steps for the expulsion of former Emperor Charles of Hungary, it was learned this afternoon.

Instructions have been sent by the government here to Baron Harding, the British ambassador in Paris to arrange a meeting of the council of ambassadors to be held in the French capital today.

Reserves Right.
It is stated in well-informed quarters that Great Britain reserves the right to support the "little entente"—Jugoslavia, Czechoslovakia—in any action it may take for the expulsion of the ex-royal from Hungarian territory.

It is reported in Hungary that the British high commissioner there has declared the entente will construe the continued presence of former Emperor Charles in Hungary as a casus belli, says an Exchange Telegraph dispatch from the Austrian capital today.

The ex-royal is reported to have declared that if the entente adhered to its policy of "suppressing the will of the Hungarian nation," then he, as the legitimate king, would sever relations with the entente.

PARIS, Oct. 24.—War clouds seem to be gathering over Hungary as a result of former Emperor Charles' return to that country and his attempt to establish himself upon the Magyar throne. Jugoslavia and Czechoslovakia, member nations of the "little entente," are understood to be mobilizing forces to bring pressure to bear upon Hungary to expel Charles, while there have been reports that Rumania, the third member nation of this Balkan combination, is prepared to join her allies in a military demonstration.

Communication between Budapest and the outside world has been interrupted for the last 48 hours, and what news has been learned has come by roundabout routes, and are taken with reserve in entente capitals. It is believed, however, that Charles has not as yet entered Budapest, although his forces, marching eastward from Burgenland, on the Austrian frontier, are reported to be nearing the Hungarian capital.

Admiral Horthy, the Hungarian regent, is believed to be firm in his determination to expel Charles from that country, and reports received here indicate that troops under his command have remained loyal to his government. Dispatches state that working men's delegations have called upon the regent and assured him of their support in the fight against the reactionary elements seeking to reestablish the monarchy.

Nations allied against the central empires during the world war have notified the Hungarian government that the restoration of a Hapsburg to the throne would endanger peace in central Europe, and have called for drastic action in defeating the attempt of the monarchists to establish power in Budapest.

COME OUT IN OPEN TO ADVOCATE REPEAL OF RAIL GUARANTEE

(By Associated Press)
WASHINGTON, Oct. 24.—The longest smoldering movement in congress for repeal of the railroad six percent guarantee provision, and also of the Adamson railway wage law appeared in the open before the senate interstate commerce committee today when representatives of state railway commissioners and agricultural organizations appeared to urge such changes.

John E. Benton, solicitor of the National Association of Railway and Utilities Commissioners, urged enactment of the Capper bill to restore the original jurisdiction of state railway commissions over interstate rates, and to repeal the six percent guarantee of the carriers. Representatives of agricultural organizations, were on hand to urge repeal of the Adamson law, but their testimony was deferred until tomorrow.

Centralization of rate powers in the interstate commerce commission was deplored by Mr. Benton, who charged the railroads with use of "propaganda to destroy the state commission's authority."

NOTE TO POPE IS CHALLENGE, LLOYD GEORGE

Says Publication of De Valera Message Constitutes Grave Provocation—Alleged Display of Flags Scored.

PREMIER IS IMPATIENT

(By Associated Press)

LONDON, Oct. 24.—Premier Lloyd George, answering a question in the house of commons today regarding Eamonn De Valera's message to Pope Benedict, said the publication of De Valera's message, especially in the middle of the peace negotiations, constituted a grave challenge.

"The position of the government on the question involved in that telegram, has been made abundantly clear," the premier continued. "We do not propose to recede from it and the conference cannot proceed on any other basis."

Sir Thomas Sennett asked whether the Sinn Fein colors were not displayed over the door of the house occupied by the Sinn Fein delegation, and whether this was not a great provocation to the people in that district.

Mr. Lloyd George replied that he had been assured the colors were not displayed, but if they were, he quite agreed with Sir Thomas's observation.

Mr. Lloyd George then added: "I cannot imagine why all the follies are being perpetrated at a time when there is a real desire to negotiate for peace. It seems as if some people are doing their very best to make this impossible."

Continue Conferences.
The conference between members of the British cabinet and representatives of the Dail Eireann was resumed here today, but there was evident a feeling that the situation was such as to give ground for concern among those hopeful for an adjustment of the Irish controversy.

Michael Collins, minister of finance in the Dail Eireann government, who went to Dublin on Saturday, returned here last night. It was understood that Prime Minister Lloyd George had laid before the Irish delegates certain suggestions affecting Irish allegiance to the British crown, and there was a belief that Mr. Collins had gone to Dublin to talk the situation over with his colleagues.

It was supposed he brought a communication from Eamonn De Valera and it was felt that upon this answer and the attitude taken by the Dail Eireann delegates would depend the continuance of the negotiations.

Everywhere except in irreconcilable quarters, hope that the conference would continue was expressed this morning, and it was argued that, with good will on each side, a way out of the difficulty created by Mr. De Valera's message to Pope Benedict could be found.

At the same time it was contended that if the Sinn Fein representatives endorsed their leader's words it was hardly possible to see how a rupture of the conference was avoidable.

Lindsey was arrested at Carlos, west of Lynn, Saturday afternoon. His detention by Wayne county authorities marked the end of a trail of bad checks which he had put out in Wayne, Delaware and Randolph counties, according to information in the hands of the police.

REPUBLICAN SENATE LEADERS DOUBT TARIFF BILL WILL BE PASSED BEFORE MARCH, 1922

PALLADIUM NEWS BUREAU
WASHINGTON, Oct. 24.—Two weeks ago Republican leaders in the senate were of the opinion that a tariff bill would be passed by the senate before the first of next year. The same opinion is not being expressed today. It is doubtful if a new tariff law will have been enacted much before the first of next March.

The principal snag the tariff bill has struck in the senate is the so-called American valuation plan. This plan is included in the bill which the house passed last summer. As a rule the manufacturing interests of the country favor it. American importers, on the other hand, have been conducting a vigorous fight against it since the tariff went to the senate.

Considerable confusion appears to exist in the public mind as to what is meant by the American valuation plan. The senate finance committee is undecided as to whether it is practical and at considerable cost treasury experts have been making a thorough investigation of the question and their report will be submitted to the finance committee. Just when is problematical.

An Indiana manufacturer, recently in Washington following a business trip to Germany, gave the following illustration to show why he favors a new tariff law based on the American valuation plan: While in Germany he purchased a small package containing a nailfile, a knife and scissors, made of first class material and good workmanship. He purchased the package at the retail price of three marks, which, at the present rate of exchange, is a little less than three cents. He

SETTLEMENT ONLY REMEDY SAY UNIONS

Reiterate Warning to Rail Board Strike Cannot be Averted Except by Satisfactory Adjustment.

1,400 LEADERS CALLED

BULLETIN

CHICAGO, Oct. 24.—The threatened railroad strike, if it takes place as scheduled, will be limited to 475,000 train service employees, switchmen and telegraphers.

This became certain today when the signal men followed the example of nine other standard unions and voted to remain at work.

By their decision, approximately 1,525,000 railroad employees are on record against the strike.

(Special to The Palladium)
CHICAGO, Oct. 24.—The four big brotherhoods and the switchmen's union have reiterated their warning to the United States Railroad labor board that only a "satisfactory settlement" can prevent the railroad strike called for next Sunday morning, it was learned today.

The president of the five unions, replying to the board's citation to appear here Wednesday sent a joint message asserting the stand they took at their conference with the board last week, when they insisted they had no power to suspend or call off a strike unless a settlement in accordance with their plan was reached.

"The only power in our hands," the union executives telegraphed "is to advise our men that a satisfactory settlement has been reached."

Leaders Called On
If the strike is called, however, there were indications today that the strikers may find themselves without any directing leaders, as the board has summoned to Chicago 1,400 general officers of the five unions to come to Chicago with their general officers, a prolonged hearing will leave the locals without leaders.

The railroad labor board announced today that it had reason to hope that the railroad strike set for Oct. 30 would be averted. In a formal announcement the board warned the public to refrain from loose talk and provocative language about either side of the controversy.

CLEVELAND, Oct. 24.—It was learned here today that the "Big Five" railroad brotherhoods in reply to the railroad labor board's citation to appear in Chicago Wednesday, had replied in a message that the only power in their hands was to advise their members that a satisfactory settlement had been reached. The Big Five chiefs after a two-hour conference behind guarded doors, announced that the situation is unchanged.

Before the Chicago meeting they are not expected to add or elaborate their statement of yesterday in which they placed responsibility for the proposed strike on the labor board and the carriers.

A three-fourths page advertisement appearing in a local newspaper this morning purports to show the average pay received by employees of railroads between New York and Chicago, two parallel lines being chosen for this purpose. It also states the two roads employ about 95,000 men. Maximum and minimum wages before the July reduction, also percents and amounts of reductions are given.

Cite Examples.
The figures quoted in the advertisement may for the average monthly wage at this time, are approximately \$20 to almost \$50 more than wages quoted in a statement issued from the Brotherhood of Railroad Trainmen's headquarters early last week. Following are a few examples:

Freight engineers' advertisement, first read \$273.95; second read \$234.45; trainmen statement, \$242.87.

Passenger conductors' advertisement, first read \$212.49, second read \$241.45; trainmen statement, \$192.
