

PEOPLE OF AUSTRIA FACING HUGE DEBT; EXCHANGE IS POOR

(By Associated Press)
VIENNA, Jan. 2.—Indications are that the beginning of the new year will find the government facing a deficit of 200,000,000 crowns. It had reached 165,000,000 at the end of October.

The largest single item of the deficit is for subsidized foodstuffs bought outside the country, this alone amounting to \$3,000,000,000 crowns. The railways have been run at a loss of 23,000,000,000.

Another serious item of loss has been on foreign exchange, the government being forced to sell crowns for foreign values for payments of flour, fats and various other commodities under the food subsidy plan.

During the past few months the fall of the crown against standard values has been unchecked and its purchasing value has about reached the vanishing point.

Largest National Note.
The largest note in circulation in Austria has been 10,000 crowns, but the tremendous volume of circulation has made even that denomination insufficient and an issue of 100,000 crown notes is in preparation.

Where 1,000 and lesser notes are handled in quantities they are no longer counted, but weighed. A table of weights has been worked out and found to be accurate enough for all ordinary purposes when jewellers' scales are used.

In the mind of the average Austrian there seems to linger some faint belief that some day and some how the crown will recover in value and he gambles on that hope even in such business deals. Meanwhile, the presses are turning out nearly 1,000,000,000 a day, the last week in October the issue amounted to 10,000,000, and he sees his maximum note of circulation advance from 10,000 to 100,000 crown denomination and even that worth but little more than the tenner was six months ago.

Loan to Queensland
PRELUDE TO OTHERS
(By Associated Press)
SYDNEY, New South Wales, Jan. 2.—The American loan of \$12,000,000 to Queensland is merely a prelude to an important financial transaction between the United States and Queensland, according to the opinion expressed today in well-informed circles here.

It was pointed out that Premier Theodore of Queensland contemplates a trip to America soon to raise an additional loan, primarily for the acquisition of the Brisbane tramways and the establishment of state steel and iron works at Bowral.

Although it is believed that the loan could be obtained in America at the interest rate of the recent loan, it is considered doubtful whether Premier Theodore, despite the need of his government for financial aid, would be prepared to pay the seven per cent rate of the former obligation.

Very little of the \$12,000,000 loan will be available for expenditure in Queensland when London commitments have been met, it was said.

(By Associated Press)

Financing for highway construction and soldiers' bonuses and the high cost of building are believed to be responsible for the large number of bond quotations.

Five Americans sustained knife wounds, two of them being seriously stabbed.

TEMPERATURE FALLS TO 8 ABOVE ZERO

New Year's day ushered in the first real cold weather brought to Richmond this winter, when the temperature went as low as 8 above zero. Moore says the cold wave is over for the present and it will continue to get warmer Tuesday and Wednesday, after which it will get colder, but the extent of the cold wave is not known. It is probable that we will get rain or a light snow within the next two days.

Murdered Italian Woman Leaves Money to Nephews Now Held For Slaying

LONDON, Jan. 2.—Mme. Cogo, the wealthy Italian woman whose murdered body and that of her adopted daughter were found recently in their home by the Rome police, left the bulk of her large fortune to her three nephews now under arrest charged with the murders, says a Rome dispatch to the Central News today. The will left only a small sum to the adopted daughter.

The arrest of the nephews, according to Rome advices, resulted from testimony of Mme. Cogo's servant girl, who charged the three brothers, the police stated, with breaking into the Cogo apartments, stuffing the two women in their beds and then dressing the bodies and placing them in chairs in the dining room, which was then set ablaze, to make it appear they had been suffocated. The witness attributed the alleged act of the brothers to the fear that their aunt would leave her fortune to the adopted daughter.

IRISH NEWSPAPERS DISCUSSING EFFECT OF PUBLIC ON PACT

(By Associated Press)
DUBLIN, Jan. 2.—The question of outstanding interest in the Irish situation discussed by the Dublin newspapers this morning is the effect the expressions of public sentiment in favor of ratification of the Anglo-Irish treaty will have on their opponents in the Dail Eireann. The Freeman's Journal and the Irish Independent declare the will of the people must prevail, the Freeman's Journal saying: "No sophistry, however fine spun, can disguise the fact that to thwart this will would be to betray a sacred trust. That sort of treachery makes no appeal to Irishmen."

The Independent expresses the utmost confidence that the opponents of the treaty in the Dail will head the popular voice, but a political writer in the Irish Times says there is no ground for the belief that when the Dail meets tomorrow "it will be any better disposed toward ratification." The Times writer calls attention to the fact that the opponents of the agreement are continuing their insubordinate silence and declares the Dail leaders themselves do not know what the outcome will be.

Want National Unity
At the week end meetings of public organizations and Sinn Fein clubs strong appeals were made for the preservation of national unity. Speaking at a meeting of the Limerick county council Councillor Michael Ryan declared negotiations were taking place in Dublin that would lead to a unanimous decision. No confirmation of his statement is available here, but it is evident that much is going on behind the scenes of which the press is kept in the dark.

The newspapers welcome the new year's message of Sir James Craig, the Ulster premier, the Freeman's Journal saying that if his appeal meets with the response it deserves peace will not be long delayed. "The tiniest spark of good feeling shown by the six counties," it adds, "would kindle bonfires throughout Ireland."

(By Associated Press)
SANTIAGO, Chile, Jan. 2.—Renewed demands that the Peruvian-Chilean controversy over the provinces of Tacna and Arica be submitted to arbitration are contained in a note received here from Lima.
